[The Ascent of Humanity](#) Charles Eisenstein,2013-02-05 The author of The More Beautiful World Our Hearts Know Is Possible explores the history and potential future of civilization tracing the converging crises of our age to the illusion of the separate self Our disconnection from one another and the natural world has mislaid the foundations of science religion money technology economics medicine and education as we know them It has fired our near pathological pursuit of technological Utopias even as we push

ourselves and our planet to the brink of collapse Fortunately an Age of Reunion is emerging out of the birth pangs of an earth in crisis Our journey of separation hasn't been a terrible mistake but an evolutionary process and an adventure in self discovery Even in our darkest hour Eisenstein sees the possibility of a more beautiful world not through the extension of millennia old methods of management and control but by fundamentally reimagining ourselves and our systems We must shift away from our Babelian efforts to build ever higher towers to heaven and instead turn out attention to creating a new kind of civilization one designed for beauty rather than height The Chakra Energy System Sarah A.
