Reform and Insurrection in Russian Poland, 1856-1865, 1963 **Reform and Insurrection in Russian Poland, 1856-1865** R. F. Leslie, 1969 **Political Repression in 19th Century Europe** Robert Justin Goldstein, 2013-06-17
Originally published in 1983 The nineteenth century was a time of great economic social and political change As Europe modernized previously ignorant and apathetic elements in the population began to demand political freedoms There was pressure also for a freer press for the rights of assembly and association The apprehension of the existing elites manifested itself in an intensification of often brutal form of political repression The first part of this book summarizes on a pan European basis the major techniques of repression such as the denial of popular franchise and press censorship This is followed by a chronological survey of these techniques from 1815-1914 in each European country The book analyzes the long and short term importance of these events for European historical development in the 19th and 20th centuries

Vilnius between Nations, 1795-2000 Theodore R. Weeks, 2015-12-04 The inhabitants of Vilnius the present day capital of Lithuania have spoken various languages and professed different religions while living together in relative harmony over the years The city has played a significant role in the history and development of at least three separate cultures Polish Lithuanian and Jewish and until very recently no single cultural linguistic group composed the clear majority of its population Vilnius between Nations 1795 2000 is the first study to undertake a balanced assessment of this particularly diverse city Theodore Weeks examines Vilnius as a physical entity where people lived worked and died as the object of rhetorical struggles between disparate cultures and as a space where the state attempted to legitimize a specific version of cultural politics through street names monuments and urban planning In investigating these aspects Weeks avoids promoting any one national narrative of the history of the city while acknowledging the importance of national cultures and their opposing myths of the city's identity The story of Vilnius as a multicultural city and the negotiations that allowed several national groups to inhabit a single urban space can provide lessons that are easily applied to other diverse cities This study will appeal to scholars of Eastern Europe urban studies and multiculturalism as well as general readers interested in the region

Intermarium Marek Jan Chodakiewicz, 2017-09-08 History and collective memories influence a nation its culture and institutions hence its domestic politics and foreign policy That is the case in the Intermarium the land between the Baltic and Black Seas in Eastern Europe The area is the last unabashed rampart of Western Civilization in the East and a point of convergence of disparate cultures Marek Jan Chodakiewicz focuses on the Intermarium for several reasons Most importantly because as the inheritor of the freedom and rights stemming from the legacy of the Polish Lithuanian Ruthenian Commonwealth it is culturally and ideologically compatible with American national interests It is also a gateway to both East and West Since the Intermarium is the most stable part of the post Soviet area Chodakiewicz argues that the United States should focus on solidifying its influence there The ongoing political and economic success of the Intermarium states under American sponsorship undermines the totalitarian enemies of freedom all over the world As such the area can act as a springboard to addressing the rest of the successor states including those in the Caucasus Central Asia and the Russian Federation Intermarium has operated successfully for several centuries It is the most inclusive political concept within the framework of the Commonwealth By reintroducing the concept of the Intermarium into intellectual discourse the author highlights the autonomous and independent nature of the area This is a brilliant and innovative addition to European Studies and World Culture

Emancipation of the Polish Peasantry Stefan Kieniewicz, 2016-06-04 Captured in this study are the complexity and fascination of one hundred and fifty years of Polish political cultural and socioeconomic history The author traces the course of peasant emancipation in Poland from its beginnings during the Enlightenment to its aftermath in the cultural awakening of the peasantry during the half century prior to World War I and shows how the peasant question played a vital role in the struggle for independence in partitioned Poland The book synthesizes for the first time in any language the work of leading Polish historians during the present century It presents a clear analysis of the disintegration of the economic system based on serfdom and compulsory labor prevalent in feudal Poland and traces the emergence of modern capitalist conditions including wage labor and independent property rights Also

analyzed is the role of foreign governments in the emancipation process The freeing of the serfs took place during a period when all or most of the country was under the rule of Russia Prussia or Austria Although emancipation was due primarily to economic forces within Poland it was hastened by peasant resistance and the national struggle for political independence led by Polish patriots who demanded far reaching social reforms This comprehensive study provides valuable information not only to those with a particular interest in Poland but also to scholars concerned with the parallel problems in Russia and other Eastern European countries to specialists in agrarian history and to students of Eastern European history who lack adequate reading materials in English **National Union Catalog** ,1968 Includes entries for maps and atlases **Imperial**
