Reform In Leopolds Congo:

Reform in Leopold's Congo Stanley Shaloff, 1970 **British Humanitarianism and the Congo Reform Movement, 1896-1913** Dean Pavlakis, 2016-03-09 The Congo Free State was under the personal rule of King Leopold II of the Belgians from 1885 to 1908 The accolades that attended its founding were soon contested by accusations of brutality oppression and murderous misrule but the controversy by itself proved insufficient to prompt changes Starting in 1896 concerned men and women used public opinion to influence government policy in Britain and the United States to create space for reforming forces in Belgium itself to pry the Congo from Leopold's grasp and implement reforms Examining key factors in the successes and failures of a pivotal movement that aided the colonized people of the Congo and broadened the idea of human rights *British Humanitarianism and the Congo Reform Movement* provides a valuable update to scholarship on the history of humanitarianism in Africa The Congo Reform movement built on the institutional experience of overseas humanitarianism the energy of evangelical political involvement and innovations in racial imperial and nationalist discourse to create political energy Often portrayed as the efforts of a few key people especially E D Morel this book demonstrates that the movement increasingly manifested itself as an institutionalized and transnational campaign with support from key government officials that ultimately made a material difference to the lives of the people of the Congo *Official Organ of the Congo Reform Association* Congo Reform Association, 1909 *African Testimony in the Movement for Congo Reform* Robert Burroughs, 2018-06-27 The humanitarian movement against Leopold's violent colonisation of the Congo emerged out of Europe but it depended at every turn on African input Individuals and groups from throughout the upper Congo River basin undertook journeys of daring and self sacrifice to provide evidence of atrocities for the colonial authorities missionaries and international investigators Combining archive research with attention to recent debates on the relation between imperialism and humanitarianism on trauma witnessing and postcolonial studies and on the recovery of colonial archives this book examines the conditions in which colonised peoples were able to speak about their subjection and those in which attempts at testimony were thwarted Robert Burroughs makes a major intervention by identifying African agency and input as a key factor in the Congo atrocities debate This is an important and unique book in African history imperial and colonial history and humanitarian history *Historical Dictionary of the Reformed Churches* Robert Benedetto, Donald K. McKim, 2009-10-06 As its name implies the Reformed tradition grew out of the 16th century Protestant Reformation The Reformed churches consider themselves to be the Catholic Church reformed The movement originated in the reform efforts of Huldrych Zwingli 1484 1531 of Zurich and John Calvin 1509 1564 of Geneva Although the Reformed movement was dependent upon many Protestant leaders it was Calvin's tireless work as a writer preacher teacher and social and ecclesiastical reformer that provided a substantial body of literature and an ethos from which the Reformed tradition grew Today the Reformed churches are a multicultural multiethnic and multinational phenomenon The second edition of the *Historical Dictionary of the*

William Dwight Porter Bliss,Rudolph Michael Binder,1909 *Land Reforms and Natural Resource Conflicts in Africa* Tukumbi Lumumba-Kasongo,2015-10-16 This book is a critical examination of the place and role of land in Africa the role of land in political formation and national identification and the land as an economic resource within both national economic development and liberal globalization Colonial and post colonial conflicts have been rooted in four related claims the struggle over scarce resources especially access to land resources abundance of natural resources mismanaged or appropriated by both the states local power systems and multinationals weak or absent articulated land tenure policies leading to speculation or hybrid policy framework and the imperatives of the global liberalization based on the free market principles to regulate the land question and mineral appropriation issue The actualization of these combined claims have led to conflicts among ethnic groups or between them and governments This book is not only about conflicts but also about local policy achievements that have been produced on the land question It provides a critical understanding of the forces and claims related to land tenure systems as part of the state policy and its system of governance **The Postcolonial Low Countries** Elleke Boehmer,Sarah De Mul,2012-06-01 The Postcolonial Low Countries is the first book to

bring together critical and comparative approaches to the emergent field of neerlandophone postcolonial studies The collection of essays ranges across the cultures and literatures of the Netherlands and Belgium and establishes an encounter between postcolonial theoretical discourses from both within and without the region Each one of the contributions puts under pressure the definitive concepts of postcolonial studies in its more conventional anglophone or francophone formation as well as perceptions of the Low Countries Belgium and the Netherlands as lying outside or to the side of the postcolonial domain In the Low Countries local and regional issues concerning multiculturalism and colonial belatedness have raised important questions about the possible grounds on which postcolonial critical concepts might be not only translated but also generated afresh to suit these paradoxically new contexts As The Postcolonial Low Countries incisively demonstrates the Low Countries demand a careful rearticulation of such postcolonial readymades as hybridity accommodation and creolization Gathering together contributions from both internationally renowned scholars and newly established researchers in the field The Postcolonial Low Countries maps previously underexplored national and transnational literary critical trajectories The book challenges in boundary shifting ways current readings of the so described multicultural and postcolonial Netherlands and Belgium

Imagining the Congo K. Dunn, 2003-05-29 Understanding the current civil war in the Congo requires an examination of how the Congo's identity has been imagined over time Imagining the Congo historicizes and contextualizes the constructions of the Congo's identity in order to analyze the political implications of that identity looking in detail at four historical periods in which the identity of the Congo was contested with numerous forces attempting to produce and attach meanings to its territory and people Dunn looks specifically at how what he calls imaginings of the Congo have allowed the current state of affairs there to develop but he also looks at the broader conceptual question of how the concept of identity has developed and become important in recent international relations scholarship

King Leopold's Congo and the "Scramble for Africa" Michael A. Rutz, 2018-03-01 King Leopold of Belgium's exploits up the Congo River in the 1880s were central to the European partitioning of the African continent The Congo Free State Leopold's private colony was a unique political construct that opened the door to the savage exploitation of the Congo's natural and human resources by international corporations The resulting red rubber scandal which laid bare a fundamental contradiction between the European propagation of free labor and civilization and colonial governments acceptance of violence and coercion for productivity's sake haunted all imperial powers in Africa Featuring a clever introduction and judicious collection of documents Michael Rutz's book neatly captures the drama of one king's quest to build an empire in Central Africa a quest that began in the name of anti slavery and free trade and ended in the brutal exploitation of human lives This volume is an excellent starting point for anyone interested in the history of colonial rule in Africa Jelmer Vos University of Glasgow

Belgian Empire Rolf Hedger, The late 19th century marked an era of feverish imperial expansion in Europe a time when the continent's great powers carved up vast territories across Africa in a race for resources prestige and control Among the

many actors in this turbulent reordering of the world stood an unlikely imperialist Belgium a young and comparatively small European nation with no prior tradition of overseas conquest Yet under the leadership of its ambitious monarch King Leopold II Belgium would come to dominate a vast expanse of Central Africa leaving behind one of the most brutal and controversial colonial legacies in modern history Belgian Empire Colonial Ambitions and the Scramble for Africa traces Belgium's imperial journey from obscurity to infamy This book begins by exploring the foundations of Belgian statehood and the monarchy's outsized role in shaping its early national identity Leopold II a king without a kingdom of his own emerges as a pivotal figure driven not only by personal ambition and a thirst for grandeur but also by a calculated understanding of the geopolitical moment As the European powers met at the Berlin Conference of 1884-1885 to formalize their claims over African territory Leopold positioned himself cleverly managing to secure personal sovereignty over the Congo Free State under the guise of humanitarian and scientific advancement But the Congo Free State was no ordinary colony It was in effect a corporate venture underwritten by a monarch operated through a brutal system of forced labor violent coercion and extractive capitalism centered around ivory and rubber The suffering inflicted upon the Congolese population would in time draw international condemnation and lead to the transfer of control from Leopold to the Belgian state in 1908 *From Lumumba to Gbagbo* K. Martial Frindéthié, 2016-02-08 In recent years the Euro American powers have made multiple armed incursions into Africa The election of President Obama greeted by most Africans as providential for their centuries old troubled relations with the West instead inaugurated a destructive coalition against Africa In places like Cote d'Ivoire Egypt and Libya the United Nations the International Criminal Court the World Bank and the International Monetary Fund have supported military intrusions arbitrary imprisonments deportations and political assassinations under the guise of bringing freedom and democracy to benighted Africa The destabilization of Africa the division of the continent into lawless zones controlled by thuggish warlords the displacement of millions of refugees and the systematic sacking of Africa's resources are telling In Africa the West was not on a goodwill mission This book examines the West's policy of aggression in Africa over the last 50 years as a legacy of colonialism with human and economic costs that are radicalizing African nationalists *Activism across Borders since 1870* Daniel Laqua, 2023-08-10 From the Occupy protests to the Black Lives Matter movement and school strikes for climate action the twenty first century has been rife with activism Although very different from one another each of these movements has created alliances across borders with activists stressing that their concerns are not confined to individual nation states In this book Daniel Laqua shows that global efforts of this kind are not a recent phenomenon and that as long as there have been borders activists have sought to cross them *Activism Across Borders since 1870* explores how individuals groups and organisations have fostered bonds in their quest for political and social change and considers the impact of national and ideological boundaries on their efforts Focusing on Europe but with a global outlook the book acknowledges the importance of imperial and postcolonial settings for groups and individuals that expressed far reaching
