To Reform the World Guy Fiti Sinclair,2017-02-16 This book explores how international organizations IOs have expanded their powers over time without formally amending their founding treaties IOs intervene in military financial economic political social and cultural affairs and increasingly take on roles not explicitly assigned to them by law Sinclair contends that this mission creep has allowed IOs to intervene internationally in a way that has allowed them to recast institutions within and interactions among states societies and peoples on a broadly Western liberal model Adopting a historical and interdisciplinary socio legal approach Sinclair supports this claim through detailed investigations of historical episodes involving three very different organizations the International Labour Organization in the interwar period the United Nations in the two decades following the Second World War and the World Bank from the 1950s through to the 1990s The book draws on a wide range of original institutional and archival materials bringing to light little known aspects of each organization s activities identifying continuities in the ideas and practices of international governance across the twentieth century and speaking to a range of pressing theoretical questions in present day international law and international relations

A Global Political Economy of Democratisation Alison J. Ayers, 2018-02-13 The late twentieth century is often portrayed as an Age of Democratisation with democracy heralded as the best of all political systems Yet democracy has multiple meanings values and significances The start of the twenty first century has witnessed a massive revival of interest in the meaning and role of democracy not least as democracy understood in one highly particular sense has been increasingly recognised to be in crisis This book presents these deliberations in a new light by moving beyond the concept of the sovereign state as the dominant framework of enquiry and by rejecting the primacy of the state and the categorical separation of the domestic and the international Instead Ayers elaborates an account of democratisation through the global political economy encompassing a trenchant critique of mainstream democracy promotion in theory and practice and opening up possibilities for different histories of democratisation autonomous of the Western liberal and neoliberal project This innovative work will prove useful to scholars and students in the fields of Politics Political Economy International Relations Development African Studies History Geography and Sociology

The Many Faces of Corruption J. Edgardo Campos, Sanjay Pradhan, 2007-04-04 Corruption How can policymakers and practitioners better comprehend the many forms and shapes that this social pandemic takes From the delivery of essential drugs the reduction in teacher absenteeism the containment of illegal logging the construction of roads the provision of water and electricity the international trade in oil and gas the conduct of public budgeting and procurement and the management of public revenues corruption shows its many faces The Many Faces of Corruption attempts to bring greater clarity to the often murky manifestations of this virulent and debilitating social disease It explores the use of prototype road maps to identify corruption vulnerabilities suggests corresponding warning signals and proposes operationally useful remedial measures in each of several selected sectors and for a selected sample of cross cutting public sector functions that are particularly prone to corruption and that are critical to sector performance Numerous technical experts have come together in this effort to develop an operationally useful approach to diagnosing and tackling corruption The Many Faces of Corruption is an invaluable reference for policymakers practitioners and researchers engaged in the

business of development **Public Administration Training in Africa** Peter Fuseini Haruna, Shikha

Vyas-Doorgapersad, 2014-12-19 There is a growing global interest in Africa and how to improve the quality of life of its people and for good reason The world can no longer afford to ignore the democratic changes that have occurred across the continent over the past two decades changes with tremendous implications for professional education and training for the tasks of nation Theatre of the Rule of Law Stephen Humphreys, 2010-11-11 Theatre of the Rule of Law presents a

sustained critique of global rule of law promotion an expansive industry at the heart of international development post conflict reconstruction and security policy today While successful in articulating and disseminating an effective global public policy rule of law promotion has largely failed in its stated objectives of raising countries out of poverty and taming violent conflict Furthermore in its execution this work deviates sharply from the rule of law as commonly conceived To explain this Stephen Humphreys draws on the history of the rule of law as a concept examples of legal export during colonial times and a spectrum of contemporary interventions by development agencies and international organisations Rule of law promotion is shown to be a kind of theatre the staging of a morality tale about the good life intended for edification and emulation but blind to its own internal contradictions Public Sector Reform , 2008-01-01 The effectiveness and efficiency of a country's

public sector is vital to the success of development activities including those the World Bank supports Sound financial management an efficient civil service and administrative policy efficient and fair collection of taxes and transparent operations that are relatively free of corruption all contribute to good delivery of public services The Bank has devoted an increasing share of its lending and advisory support to the reform of central governments so it is important to understand what is working what needs improvement and what is missing IEG has examined lending and other kinds of Bank support in 1999 2006 for public sector reform in four areas public financial management administrative and civil service revenue administration and anticorruption and transparency Although a majority of countries that borrowed to support public sector reform experienced improved performance in some dimensions there were shortcomings in important areas and in overall coordination The frequency of improvement was higher among IBRD borrowers than among IDA borrowers Performance usually improved for public financial management tax administration and transparency but did not usually with respect to civil service **Enhancing Contributions to Combating Money Laundering - Policy Paper** World Bank, 2001-04-26

NULL Research in Security Sector Reform Policy Andrea Edoardo Varisco, 2017-07-19 This book investigates the extent to which research has influenced and interacted with SSR policies programmes and activities implemented by the UK in conflict affected Sierra Leone Varisco uses concepts and notions from the literature on the policy process and research utilisation to explore the ways in which research has influenced UK led SSR policy Here the author analyses the evolution of the network of policy makers street level bureaucrats and researchers working on SSR in Sierra Leone and argues that two main variables an increased stability in the country and a progressive evolution of SSR in policy and research contributed to

the expansion of the policy network over time and to a better use of research by street level bureaucrats on the ground This title derives from the Sierra Leone case study a series of recommendations to improve the use of research by international organisations and bilateral donors working in fragile states **Decentralization in Client Countries** ,2008-01-01

Decentralization in Client Countries assesses the effectiveness of Bank support for decentralization between fiscal years 1990 and 2007 in 20 countries seeking to inform the design and implementation of future support Given the difficulties of measuring the results of decentralization the evaluation uses intermediate outcome indicators such as strengthened legal and regulatory frameworks for intergovernmental relations improved administrative capacity and increased accountability of subnational governments and functionaries to higher levels of government and to local citizens to assess the results of Bank support in these 20 cases To examine potential lessons at a sectoral level the evaluation also assesses whether Bank support for decentralization improved intermediate outcomes for service delivery in the education sector in 6 of the 20 countries

Constitution-Making under UN Auspices Vijayashri Sripati,2020-01-16 In 1949 United Nations Constitutional Assistance UNCA was conceived to promote the Western liberal constitution This was colonial trusteeship However in 1960 as a step towards decolonization the United Nations General Assembly rejected internationalized constitution making and by extension UNCA All colonies acquired the right to draft their own constitutions without any international assistance Nonetheless in the same year UNCA was revived and since then it has helped over 40 developing sovereign states to adopt the Western liberal constitution for the aims of building peace preventing conflict and promoting good governance in these independent states This book scrutinizes UNCA and its off shoot UN International Territorial Administration ITA including their historical origins and revival from 1960 to 2019 Sripati argues that although the United Nations UN uses UNCA to help developing sovereign states secure debt relief it undertakes UNCA to modernize them with a view to strengthen their supposedly weakened sovereignty By doing so the UN is seeking these states adoption of a Western liberal style constitution thus violating their right to self determination The book shows how UNCA sires and guides UN legislative assistance in all state sectors security judicial electoral commercial parliamentary public administration and criminal Irrespective of UNCA s benevolent motivations such intrusive interventions impose the old forms of domination and perpetuate global inequality
