

contemporary peace activists. Its core assumption is that the security of one nation cannot be rooted in the insecurity of another. Collective action requires more than a vision, but, as an alternative to "Peace through Strength" and the continuing arms race it has brought us, "Common Security" offers a challenging new beginning.

## Ideals of Psychologists

**The Rise of Experimentation in American Psychology.** JILL G. MORAWSKI, Ed. Yale University Press, New Haven, CT, 1988. ix, 220 pp. \$24.50.

The persistent tendency of psychologists to equate genuinely scientific work with experimental research is examined in this collection of essays dealing with episodes from the late 19th century to the very recent past. In addition to this common theme there is agreement among the contributors that experimentalists' research designs and findings have always been somehow shaped by social circumstances. The essays are diverse in focus and argument, however: some of them analyze the fabricated social situations of the laboratory, whereas others describe the social characteristics of those involved in research as either members of the professional community of psychologists or subjects of experimentation; the "experiments" discussed range from laboratory projects to a longitudinal study of a selected population (but are nearly all experiments involving human subjects—a skewed sample of experimental research).

If psychologists intended their research to have practical implications, historians easily identify the social values sustained by their work. Henry Minton shows that Lewis Terman's study of gifted children, charted in 1921 and still continuing, was designed to persuade the public that an aristocracy of the talented should lead them. Others might have viewed Terman's data as documentation of the workings of the American class system, but to Terman they indicated that intelligence was inherited and was linked to successful performance in all spheres of life; naturally his subjects came from relatively prosperous families, were physically fit and psychologically well adjusted, and enjoyed (if they were male) notable careers. Richard Gillespie's account of the experiments conducted at the Hawthorne plant of the Western Electric Company between 1924 and

1933 reveals them to have rationalized the shift of control over production from workers to a psychologically oriented managerial sector new to American industry. Initiated by plant managers and subsequently elaborated by Elton Mayo and his colleagues from the Harvard Business School, the experiments were heralded as demonstrations that workers' productivity was determined by their psychological attitudes. Contrary to social science myth, however, Mayo's conclusions were consistent with the plant managers' expectations. And Jill Morawski analyzes the efforts of prominent—male—psychologists to prove that conventional sex roles were "natural." From the early years of this century, feminists argued that natural sex differences were inaccessible to psychological inquiry: human nature was thoroughly masked by the training both males and females received from birth. But men such as Robert Yerkes postulated that (un-socialized) primates exhibited nearly human nature and contrived primate experiments that supposedly revealed the inevitability of male dominance.

Minton, Gillespie, and Morawski all treat psychologists' efforts to appeal to the potential markets for their services and thus to establish professional roles for themselves, as sages or practical consultants. The other contributors to this collection are also concerned with psychologists' creation of a distinct professional identity, but they focus on changes psychologists effected in their research styles and rhetoric that enabled them to present a collective front to outsiders. Gail Hornstein relates how in the late 19th and early 20th centuries psychologists were persuaded that their findings would not be genuinely scientific unless they were expressed in quantitative form and how they managed to suspend consideration of questions about the significance of those research projects that were susceptible to quantification. In no small part, the quantitative ideal was the cause of the experimentalists, and their professional dominance was consolidated by an elite (and all male) network of psychologists joined in the society of experimentalists, described here by Laurel Furumoto, founded by E. B. Titchener in 1904.

All the other contributors analyze psychologists' management of the experimental situation itself. Kurt Danziger traces changes in the modes of identifying experimental subjects—represented in the 19th century as virtual collaborators in research and subsequently increasingly described as passive subjects—and argues that this shift in the language of research reports is an index to psychologists' delusion that their experimental subjects were incapable of conscious calculation and, in the laboratory at

least, unaffected by the experiences they had had as social beings. By the 1950s, as Jerry Suls and Ralph Rosnow report, researchers had begun to recognize the negative consequences of the authority they had established in the laboratory, observing that the established social relationship between subjects and researchers made the former likely to respond as the latter expected (not least because subjects were neither naïve nor unconscious). Initially, this observed pattern was seen to mandate reform of experimental procedure, but, as Benjamin Harris shows, by the 1960s psychologists had also become concerned about its ethical implications and instituted post-experimental "debriefing"—sessions in which subjects' potential resentment at being experimentally manipulated could be allayed. To Harris, "debriefing" procedures denote psychologists' persistent determination to render their experimental subjects thoroughly passive, but Karl Schiebe construes recent research developments differently. To Schiebe, both concerns about the accuracy of experimental results and debates about the ethics of research procedures are manifestations of fundamental disciplinary change, indications that many psychologists now question the scientific ideal embraced in the 19th century.

Obviously, it is the triumph of this scientific ideal, predicated on positivist, mechanistic, and operationalist assumptions, that this collection variously chronicles. The authors, all but one of them psychologists, have evidently turned to historical inquiry in order to determine how an ideal they find untenable was embraced. Because their work exposes the premises underlying conventional practices, their colleagues should find it useful in resolving their discipline's present dilemmas. For readers who are not psychologists, this book has value—perhaps unanticipated—as a primer on some current debates in the field.

## **Reforming Libel Law The Guilford Communication Series:**

**Communication Theory** James Arthur Anderson, 1996-05-17 This book provides a thorough analysis of the scientific critical and cultural questions at the foundation of theory building in communication and other social sciences Any claim to knowledge the author explains can be analyzed in terms of a series of characteristics the object of its explanation the explanatory form and evidentiary method employed its characteristic explanations the scope of its performance and its consequences of value From identifying basic epistemological questions to exploring the impact of the knowledge industry on society the volume offers readers the analytical tools to understand compare and evaluate theories and their use both inside and outside the classroom The book also includes a systematic analysis of communication's most influential theories and traces their genealogies across different content fields and disciplines

**Social Approaches to Communication** Wendy Leeds-Hurwitz, 1995-07-28 Long before there were formal organizations or mass media there was face to face interaction the practice which comprises very core of the study of communication Until recently however research in the field of interpersonal communication has been dominated by a behavioral science approach closely aligned with experimental social psychology This timely and provocative volume critiques the limitations of past models exploring a range of social approaches which help bring communication up to date Social approaches writes Leeds Hurwitz question whether the traditional theoretical assumptions and research methods followed in the field are still valid and appropriate While the roots of these approaches are diverse and interdisciplinary they overlap in their concern for the social construction of self other and event and in their acknowledgment of the researcher's role in establishing not only the research questions but also the research context Social approaches stress the necessity of recognizing the impact of cultural differences on communication research and identify the ways in which research inquiry creates meanings at the same time as it investigates them Most importantly they focus on instances of contact between individuals the actual social transactions in which people engage Together they demonstrate the ability to disregard labels in pursuit of a common goal the construction of a more adequate understanding of human interaction Robert T Craig's Foreword describes the historical tension in interpersonal communication between behavioral science approaches on the one hand and interpretive social approaches on the other Parts I and II of the volume highlight the theoretical underpinnings of social approaches and the philosophical grounding of some of the more central ideas Part III elaborates on the assumptions shared by social approaches focusing on a series of key concepts including the dichotomy between qualitative and quantitative research reflexivity social constructionism and the individual Part IV begins the task of applying social approaches to particular research topics including the use of case studies rapport in research interviews ethnography as theory continuity in relationships and the co construction of personal narratives Part V examines where the various chapters lead us making a strong case for practical theory as the necessary next step A unique overview of current theoretical innovations in the study of interpersonal communication SOCIAL APPROACHES TO COMMUNICATION

belongs on the shelf of every professional and student in communication. It will be especially valuable to those interested in communication theory, interpersonal communication and social interaction.      **Case Studies in Organizational**

**Communication 2** Beverly Davenport Sypher, 1997-05-10. Spotlights the central role of communication in today's varied workplace. This up-to-date collection of new case studies will succeed its highly acclaimed predecessor as a valued reference and teaching text. The studies both highlight creative and positive uses of communication and demonstrate how communication practices can hinder organizational functioning. Topics addressed include new communication technologies, the dynamics of teamwork, cross-cultural communication, sexual harassment and stress and burnout. Back cover.      **Public**

**Opinion and the Communication of Consent** Theodore Lewis Glasser, Charles T. Salmon, 1995-04-22. Public Opinion and the Communication of Consent offers an unprecedented range of scholarly perspectives on the relationship between public opinion and communication. With contributions written from social, scientific, historical, critical and cultural traditions, the book illuminates the importance and richness of treating public opinion as a multifaceted concept. Written by leading thinkers in the field, some of the work's chapters offer state-of-the-art reviews of research findings while others are scholarly treatises on some aspect of communication, public opinion and society. Topics covered include: The nature and institutions of public opinion; the influence of media on public opinion; social and psychological contexts of public opinion; the role public opinion assessment plays in a democratic society.      **The Business of Children's Entertainment** Norma Odom Pecora, 2002-03-06.

For over 20 years the development of children's television programming has been subsidized by toy manufacturers. The result has been an increased commercialisation of children's popular culture, the creation of a material world of childhood characterized by brand-name toys, games, clothing and television characters. Drawing on historical background and case studies, this book presents a unique look at the development of children as targets of the media and commercial industries and examines the economic and social forces that have defined the evolution of children's entertainment. This volume is of interest to professionals and students in media studies, mass communication and related fields. Readers interested in contemporary children's culture and the content of children's programming.      The Idea of Public Journalism Theodore

Lewis Glasser, 1999-05-14. This volume offers a critical and constructive examination of the claims of public journalism, the controversial movement aimed at getting the press to promote and indeed improve, not merely report on the quality of public life. From leading contributors, original essays refine the terms of the debate by situating it within a broad cultural, historical and philosophical framework. Exploring the movement's promise as well as its problems, *The Idea of Public Journalism* sheds lights on issues of political power, freedom of expression, democratic participation and press responsibility.      Relating Leslie

A. Baxter, Barbara M. Montgomery, 1996-05-17. Drawing upon the dialogism of social theorist Mikhail Bakhtin, the authors reconceive the core ideas of interpersonal communication: relationship, development, closeness, certainty, openness, communication competence and the boundaries between self, relationship and society.      *New Books in the Communications*

Library University of Illinois at Urbana-Champaign. Communications Library,1993      **JQ. Journalism Quarterly** ,1993  
Includes section Book reviews and other bibliographical material      Reforming Libel Law John Soloski,1992 Current libel law in the U S has proven problematic for plaintiffs and media alike From the plaintiff s perspective the law seems frustrating and unfair providing little opportunity to repair reputations from the media standpoint the high cost of litigation threatens to deter journalistic pursuit of controversial stories Over the last decade these problems have led legal scholars to propose comprehensive reforms Some of these proposals have been available to the limited readership of law reviews while others were published only in abbreviated form have been the subject of heated debate Presenting the most significant of these proposals complete and under one cover this volume makes the issues and controversies surrounding libel law reform accessible to a wide readership for the first time      Official Program ... Annual Conference of the International Communication Association International Communication Association. Annual Conference,1995      Ethical Issues in the Communication Process J. Vernon Jensen,2013-11-05 A rapid and widespread growth of interest in applied ethics is occurring today not only in the United States but around the world as well Academia both reflects this and is a leader in the movement The field of speech communication shares in this increased sensitivity to ethical concerns Students and the general public are looking for thoughtful analyses and guidance in all areas of communication Ethical concerns relative to mass communication have been the subject of a number of books but only a very few cover the entire scope of communication to include interpersonal intercultural organizational small groups and public speaking This book tries to fill that need by discussing ethical concerns as they emerge in the areas of the communication process the communicator the message the media the audience and the situation The speech communication field now has a need to digest and synthesize the existing research findings and the general literature in the field and in related humanities and social science works into a coherent and nontechnical discussion This volume explores the most up to date materials to provide just such a synthesis An extensive bibliography at the end of the book gives readers the sources on which the book is based and offers ample avenues for further personal exploration The book should provide meaningful food for thought as readers grapple conscientiously with the many everyday decisions made in communication transactions and in evaluating the communication of others

Comparative Defamation and Privacy Law Andrew T. Kenyon,2016-04-21 Defamation and privacy are now two central issues in media law While defamation law has long posed concerns for media publications the emergence of privacy as a legal challenge has been relatively recent in many common law jurisdictions outside the US A number of jurisdictions have seen recent defamation and privacy law reforms which have often drawn on or reacted against developments elsewhere This timely book examines topical issues in defamation and privacy law focused on media journalism and contemporary communication Aimed at a wide legal audience it brings together leading and emerging analysts of media law to address current and proposed reforms and the impact of changes in communication environments and to re examine basic principles

such as harm and free speech This book will be of interest to all those working on commonwealth or US law as well as comparative scholars from wider jurisdictions      **Current Publications in Legal and Related Fields** ,1994      **Recent Acquisitions** Ohio State University. College of Law. Library,1993      *Communication and the Law* W. Wat Hopkins,2002

*Press Law in South Korea* Kyu Ho Youm,1996 This study examines the legal political and social framework of press freedom in South Korea It covers Korea s judicial system the constitution periodicals and broadcast statutes libel privacy national security access to information obscenity copyright and cable broadcasting      *More Speech, Not Less* Mark Sableman,1997 History can teach us many lessons and one is that freedom is not easily preserved If there are not voices like Mark Sableman and others to remind us of our heritage there will be a gradual erosion of our basic freedoms Paul Simon from the Foreword      Selected Acquisitions Robert Crown Law Library,1992      Regulating Broadcast Programming Thomas G. Krattenmaker,1994 The authors argue that TV regulation should be based on the same principles used for print media for which control of editorial content lies in private hands rather than the government

## Reviewing **Reforming Libel Law The Guilford Communication Series**: Unlocking the Spellbinding Force of Linguistics

### **Reforming Libel Law The Guilford Communication Series Introduction**

In the digital age, access to information has become easier than ever before. The ability to download Reforming Libel Law The Guilford Communication Series has revolutionized the way we consume written content. Whether you are a student looking for course material, an avid reader searching for your next favorite book, or a professional seeking research papers, the option to download Reforming Libel Law The Guilford Communication Series has opened up a world of possibilities. Downloading Reforming Libel Law The Guilford Communication Series provides numerous advantages over physical copies of books and documents. Firstly, it is incredibly convenient. Gone are the days of carrying around heavy textbooks or bulky folders filled with papers. With the click of a button, you can gain immediate access to valuable resources on any device. This convenience allows for efficient studying, researching, and reading on the go. Moreover, the cost-effective nature of downloading Reforming Libel Law The Guilford Communication Series has democratized knowledge. Traditional books and academic journals can be expensive, making it difficult for individuals with limited financial resources to access information. By offering free PDF downloads, publishers and authors are enabling a wider audience to benefit from their work. This inclusivity promotes equal opportunities for learning and personal growth. There are numerous websites and platforms where individuals can download Reforming Libel Law The Guilford Communication Series. These websites range from academic databases offering research papers and journals to online libraries with an expansive collection of books from various genres. Many authors and publishers also upload their work to specific websites, granting readers access to their content without any charge. These platforms not only provide access to existing literature but also serve as an excellent platform for undiscovered authors to share their work with the world. However, it is essential to be cautious while downloading Reforming Libel Law The Guilford Communication Series. Some websites may offer pirated or illegally obtained copies of copyrighted material. Engaging in such activities not only violates copyright laws but also undermines the efforts of authors, publishers, and researchers. To ensure ethical downloading, it is advisable to utilize reputable websites that prioritize the legal distribution of content. When downloading Reforming Libel Law The Guilford Communication Series, users should also consider the potential security risks associated with online platforms. Malicious actors may exploit vulnerabilities in unprotected websites to distribute malware or steal personal information. To protect themselves,

individuals should ensure their devices have reliable antivirus software installed and validate the legitimacy of the websites they are downloading from. In conclusion, the ability to download Reforming Libel Law The Guilford Communication Series has transformed the way we access information. With the convenience, cost-effectiveness, and accessibility it offers, free PDF downloads have become a popular choice for students, researchers, and book lovers worldwide. However, it is crucial to engage in ethical downloading practices and prioritize personal security when utilizing online platforms. By doing so, individuals can make the most of the vast array of free PDF resources available and embark on a journey of continuous learning and intellectual growth.

### **FAQs About Reforming Libel Law The Guilford Communication Series Books**

1. Where can I buy Reforming Libel Law The Guilford Communication Series books? Bookstores: Physical bookstores like Barnes & Noble, Waterstones, and independent local stores. Online Retailers: Amazon, Book Depository, and various online bookstores offer a wide range of books in physical and digital formats.
2. What are the different book formats available? Hardcover: Sturdy and durable, usually more expensive. Paperback: Cheaper, lighter, and more portable than hardcovers. E-books: Digital books available for e-readers like Kindle or software like Apple Books, Kindle, and Google Play Books.
3. How do I choose a Reforming Libel Law The Guilford Communication Series book to read? Genres: Consider the genre you enjoy (fiction, non-fiction, mystery, sci-fi, etc.). Recommendations: Ask friends, join book clubs, or explore online reviews and recommendations. Author: If you like a particular author, you might enjoy more of their work.
4. How do I take care of Reforming Libel Law The Guilford Communication Series books? Storage: Keep them away from direct sunlight and in a dry environment. Handling: Avoid folding pages, use bookmarks, and handle them with clean hands. Cleaning: Gently dust the covers and pages occasionally.
5. Can I borrow books without buying them? Public Libraries: Local libraries offer a wide range of books for borrowing. Book Swaps: Community book exchanges or online platforms where people exchange books.
6. How can I track my reading progress or manage my book collection? Book Tracking Apps: Goodreads, LibraryThing, and Book Catalogue are popular apps for tracking your reading progress and managing book collections. Spreadsheets: You can create your own spreadsheet to track books read, ratings, and other details.
7. What are Reforming Libel Law The Guilford Communication Series audiobooks, and where can I find them? Audiobooks: Audio recordings of books, perfect for listening while commuting or multitasking. Platforms: Audible,

LibriVox, and Google Play Books offer a wide selection of audiobooks.

8. How do I support authors or the book industry? Buy Books: Purchase books from authors or independent bookstores. Reviews: Leave reviews on platforms like Goodreads or Amazon. Promotion: Share your favorite books on social media or recommend them to friends.
9. Are there book clubs or reading communities I can join? Local Clubs: Check for local book clubs in libraries or community centers. Online Communities: Platforms like Goodreads have virtual book clubs and discussion groups.
10. Can I read Reforming Libel Law The Guilford Communication Series books for free? Public Domain Books: Many classic books are available for free as they're in the public domain. Free E-books: Some websites offer free e-books legally, like Project Gutenberg or Open Library.
