Reforming the European Commission Michael W. Bauer, 2013-10-18 Many international and supranational organisations have lately been busy modernising their internal administration But nowhere has management change received a similar amount of attention than in the case of the European Commission Although the perception prevails that the Commission has been losing out in recent years this vivid interest academic as well as public in the so called Kinnock reform suggests that this organisation still remains at the heart of the Union The proposition of this book thus is simple If it remains true that the Commission is an essential part within the admittedly complex equation of EU policy making changes of the administration basis of this actor are likely to have broader implications Consequently this special issue poses three crucial questions about the recent administrative reform of the European Commission why was such a comprehensive reform possible what are its specific implications for the Commission as an organisation and what is the likely impact for the policy process In short this book puts the organisational base of EU policy making centre stage In the quest for answers the authors of the subsequent chapters take distinct perspectives use various research strategies and methods and attempt to solve diverse empirical puzzles But all attempt to add to our understanding of this organisational base and how to systematically study it This book was published as a special issue of the Journal of European Public Policy

Winter, 2023-07-10 The studies collected in this work are the updated and revised versions of the reports and commentaries presented at an international conference on European Law held in September 1995 The aim of the conference was to stimulate informed reflection and debate on a number of fundamental issues relating to the impending revision of the Treaty on European Union and to discuss the sort of sensible legal options and realistic avenues of thought that could assist those involved with the work of the actual Intergovernmental Council IGC The contributions are grouped around three major themes an exploration of the framework of the revision debate general institutional questions the general architecture of the Union and the scope of the powers of the Community and the Union Questions that are addressed in this work are among others Is it possible in the near future to simplify the procedure for amending the Treaty on European Union Is the objective of the European Union in the long term to become a European superstate a constitutional order of States or merely an advanced type of international organization What are the chances and pitfalls of allowing increased differentiated integration The book concludes with a comprehensive summing up and annexed are the Reflection Group s Report of 5 December 1995 as well as an extensive table of legal provisions and a table of cases Reforming the European Convention on Human Rights Council of Europe. Steering Committee for Human Rights, Council of Europe, 2009-01-01 The European ministerial conference on human rights meeting in Rome on the 50th anniversary of the Convention for the Protection of Human Rights and Fundamental Freedoms emphasised two crucial elements the responsibility of member states Parties to the Convention to ensure constantly that their law and practice conform to the Convention and to execute the judgments of the European Court of Human Rights that urgent measures be taken to assist the Court in carrying out its functions given the ever increasing number of applications An in depth reflection should be started as soon as possible on the various possibilities and options with a view to ensuring the effectiveness of the Court in the light of this new situation The Rome conference has sparked intensive work Ever since January 2001 the intergovernmental co operation activities of the Steering Committee for Human Rights CDDH of the Council of Europe have concentrated on developing normative instruments of which the most important has been Protocol No 14 to the Convention This work has benefited greatly from high level debates during a series of round table discussions within working groups and at seminars organised mainly by the successive presidencies of the Committee of Ministers The present volume contains a record of this work **Reforming Europe** Constantine Arvanitopoulos, 2010-04-06 In the 2009 elections the European centre right emerged victorious thus affirming its political domination in contemporary European politics The aim of this book is not to provide an analysis of the factors that contributed to the EPP s political prevalence Instead it is to help this large political family maintain its vigour of political thought and policy prescriptions The book provides a forum for prominent centre right thinkers to debate the major European problems of our times with particular emphasis on the

management of the financial crisis and the next institutional steps regarding the European integration project. It assembles the views of politicians, academics, and think tank fellows from different national backgrounds and dissimilar ideological perspectives who unfold their vision for Europe's future. Overall, the book attempts to both highlight and stimulate the centre-right contribution to the discussion of Europe's main contemporary challenges.

Widening the European Union Bernard Steunenberg, 2003-08-27. The proposed enlargement of the European Union to include countries from Central and Eastern Europe has become an important political issue. *Widening the European Union* focuses on those institutional reforms of the Union that may be necessary to make the enlargement possible. The institutional structure originally designed for the Union of just six states might not be suitable for a EU of twenty-seven or more member states. An overview of current rational choice theories of institutional change is provided before the volume focuses on several aspects of institutional reforms in the Union. *Widening the European Union* contains contributions from a distinguished team of European academics. This book is a valuable resource to students of the European Union with an interest in its politics and policy, enlargement, and institutional reform.
