, **115 fiches pratiques infirmières face aux situations d'urgence** Enrique Casalino, Eric Kargougou, 2022-02-08
Les premières minutes sont capitales dans une situation d'urgence et savoir prendre les bonnes décisions est un enjeu de santé primordial. L'infirmier doit pouvoir prodiguer les premiers soins d'urgence dans l'attente de l'arrivée du médecin. La pratique de l'urgence ne se cantonne d'ailleurs plus aux uniques urgences intra et par hospitalières. L'évolution incessante de la pratique de soins contraint les infirmiers et aides soignants à intervenir dans des cas de pathologies aiguës de plus en plus souvent hors du champ du centre hospitalier et à répondre du besoin d'une intervention médicale. Enrichie et mise à jour, cette nouvelle édition compte désormais 115 fiches pratiques infirmières face aux situations d'urgence qui permettent à l'infirmier d'identifier les symptômes et qui répondent parfaitement à la nécessité d'avoir une connaissance rapide des différentes pathologies rencontrées dans le cadre de la législation et d'une conduite de bonnes pratiques. Claire, simple et pragmatique, chacune de ces fiches suit le déroulement de l'identification diagnostique de l'infirmier pris en charge. Pour chaque fiche, le rôle de l'aide soignant est mis en évidence, la bonne prise en charge d'un patient requérant une excellente coordination entre l'activité de l'infirmier et celle de l'aide soignant. Regroupées en 18 parties, notamment par spécialité, ces fiches sont toutes accompagnées d'un arbre décisionnel et capitulatif de la prise en charge infirmière. Les deux dernières parties sont consacrées spécifiquement aux problèmes médicaux, à la législation professionnelle et à un rappel des actes de soins infirmiers. Des annexes portant sur la fatigue professionnelle et le COVID-19 ont également été ajoutées en fin d'ouvrage. Indispensable dans la pratique professionnelle, ce livre, outil en couleurs et spiralé, est destiné aussi bien aux étudiants infirmiers qu'aux infirmiers diplômés. **Life** M. Kronegger, Anna-Teresa Tymieniecka, 2012-12-06
In her Introduction Tymieniecka states the core theme of the present book sharply: Is culture an excess of nature's prodigious expansiveness, an excess which might turn out to be dangerous for nature itself if it goes too far, or is culture a natural congenial prolongation of nature's life? If the latter, then culture is assimilated into nature and thus would lose its claim to autonomy; its criteria would be superseded by those of nature alone. Of course, nature and culture may both still be seen as being absorbed by the inner powers of specifically human inwardness, on which view human being caught in its own transcendence becomes separated radically in kind from the rest of existence and may not touch even the shadow of reality except through its own prism. Excess, therefore, or prolongation. And on what terms? The relationship between culture and nature in its technical phase demands a new elucidation. Here this is pursued by excavating the root significance of the multiple rationalities of life. In contrast to Husserl, who differentiated living types according to their degree of participation in the world, the phenomenology of life disentangles living types from within the onto-poietic web of life itself. The human creative act reveals itself as the Great Divide of the Logos of Life, a divide that does not separate but harmonizes, thus dispelling both naturalistic and spiritualistic reductionism. *Les maladies neurodégénératives et maladies apparentées en*

pratique François Tison, Marc Paccalin, Julie Erraud, Philippe Couratier, 2022-04-12 Les maladies neurodégénératives concernent plus d'un million de personnes entraînant des troubles cognitifs importants et réduisant de manière significative la qualité de vie et l'autonomie des patients. Ces pathologies soulèvent de nombreux défis tant sur le plan du diagnostic que de la recherche des traitements et de la prise en charge que sur le plan médico-économique et éthique. Articulé autour de six grandes parties, La pathologie et la physiopathologie des affections ainsi que les processus neurodégénératifs et inflammatoires. Les aspects transversaux sur l'évaluation des maladies neurocognitives et l'accompagnement des patients. La maladie d'Alzheimer et les maladies associées. La maladie de Parkinson et les maladies associées. La sclérose en plaques et les maladies associées. Les autres maladies neurodégénératives : sclérose latérale amyotrophique, maladie de Huntington. L'ouvrage aborde pour chaque affection l'histoire, le diagnostic et l'évaluation des déficiences ainsi que les différents aspects de la prise en charge globale et coordonnée des patients dans l'objectif d'apporter tous ceux qui sont en charge de ces patients la fois les connaissances de base nécessaires et communes tous et des développements plus poussés sur des données scientifiques récentes. Exhaustif et accessible, l'ouvrage est complété d'une riche iconographie de tableaux et de cas cliniques. *The Canada Gazette* Canada, 1926

Self-Determination, Dignity and End-of-Life Care Stefania Negri, 2012-02-03 This volume gathers the contributions of leading researchers in the fields of bioethics, medical law and human rights. By providing an interdisciplinary reading of advance directives regulation against the background of European and International law, this book aims to offer new insights into the most controversial legal issues surrounding the theme of dignity and autonomy at the end of life. Cross-cultural perspectives from Europe, the Americas, Australia and China offer a comparative analysis of legal approaches to end of life decision making and care, including the hotly debated issues of euthanasia and assisted suicide, also giving an account of recent developments in domestic legislation and jurisprudence. Special focus is placed on the Italian legal system and its ongoing discussion on advance directives regulation.

Hagiography in Byzantium: Literature, Social History and Culture Stephanos Efthymiadis, 2024-10-28 Involving a vast number of texts, saintly heroes and authors, Byzantine hagiography stands out as a field of scholarly research highly rewarding for both the philologist and the historian. The studies reproduced in this volume cover a chronological range from late antiquity to the Paleologan era. They bring together annotated editions of specific texts and discussions of their contexts, complemented by comprehensive surveys of saintly and monastic culture. Having appeared over the last twenty years, they also illustrate and reflect upon the significant development and re-orientation which has marked the study of hagiography in recent decades.
