Gabriel Fauré: The Songs and their Poets Graham Johnson,2017-07-05 The career of Gabriel Faur s a composer of songs for voice and piano traverses six decades 1862 1921 almost the whole history of French m die is contained within these parameters In the 1860s Faur the lifelong prot of Camille Saint Sa was a suavely precocious student he was part of Pauline Viardot s circle in the 1870s and he nearly married her daughter Pointed in the direction of symbolist poetry by Robert de Montesquiou in 1886 Faur as the favoured composer from the early 1890s of Winnarretta Singer later Princesse de Polignac and his songs were revered by Marcel Proust In 1905 he became director of the Paris Conservatoire and he composed his most profound music in old age His existence steadily productive and outwardly imperturbable was undermined by self doubt an unhappy marriage and a tragic loss of hearing In this detailed study Graham Johnson places the vocal music within twin contexts Faur own life story and the parallel lives of his many poets We encounter such giants as Charles Baudelaire and Paul Verlaine the patrician Leconte de Lisle the forgotten Armand Silvestre and the Belgian symbolist Charles Van Lerberghe The chronological range of the narrative encompasses Faur first poet Victor Hugo who railed against Napoleon III in the 1850s and the last Jean de La Ville de

Phillips,2021-10-28 First published in 2000 Gabriel Urbain Faur was brn 12 May 1845 in Pamiers in the south of France Faure s compositional style has proven difficult to classify Some music historians consider him a figure of the nineteenth century a traditionalist even a neo romantic others consider him part of the twentieth century at the least a predecessor of modern French music or at the other extreme a quiet revolutionary and a great influence upon France s musical future This research guide offers a selective annotated list of writings biographical information and lists of works and photographs

The Faure Song Cycles Stephen Rumph,2020-09-29 Gabriel Faur s m lodies offer an inexhaustible variety of style and expression that have made them the foundation of the French art song repertoire During the second half of his long career Faur composed all but a handful of his songs within six carefully integrated cycles Faur moved systematically through his poetic contemporaries exhausting Baudelaire s Les fleurs du mal before immersing himself in the Parnassian poets He would set nine poems by Armand Silvestre in swift succession 1878 84 seventeen by Paul Verlaine 1887 94 and eighteen by Charles Van Lerberghe 1906 14 As an artist deeply engaged with some of the most important cultural issues of the period Faur reimagined his musical idiom with each new poet and school and his song cycles show the same sensitivity to the poetic material Far more than Debussy Ravel or Poulenc he crafted his song cycles as integrated works reordering poems freely and using narratives key schemes and even leitmotifs to unify the individual songs The Faur Song Cycles explores the peculiar vision behind each synthesis of music and verse revealing the astonishing imagination and insight of Faur s musical readings This book offers not only close readings of Faur s musical works but an interdisciplinary study of how he responded to the changing schools and aesthetic currents of French poetry A Topical Guide to Schenkerian Literature David Carson Berry,2004 To the growing list of Pendragon Press publications devoted to the work of Heinrich Schenker we wish to announce the addition of this much needed bibliography The author a student of Allen Forte has created a work useful to a
