Regenerate Lyric Theology And Innovation In American Poetry:

The Regenerate Lyric Elisa New, 1993 *The Regenerate Lyric* Elisa New, 1993-05-28 Elisa New examines the poems in great detail offering searching readings and concluding finally that it is regeneracy rather than originality that is the American poet's modus operandi and native mandate *The New Emily Dickinson Studies* Michelle Kohler, 2019-05-16 This collection presents new approaches to Emily Dickinson's oeuvre Informed by twenty first century critical developments the Dickinson that emerges here is embedded in and susceptible to a very physical world and caught in unceasing interactions and circulation that she does not control The volume's essays offer fresh readings of Dickinson's poetry through such new critical lenses as historical poetics ecocriticism animal studies sound studies new materialism posthumanism object oriented feminism disability studies queer theory race studies race and contemporary poetics digital humanities and globalism These essays address what it means to read Dickinson in braille online graffitied and internationally alongside the work of poets of color Taken together this book widens our understanding of Dickinson's readerships of what the poems can mean and for whom American Literature in Transition, 1920-1930 Ichiro Takayoshi, 2017-12-28 American Literature in Transition 1920-1930 examines the dynamic interactions between social and literary fields during the so called Jazz Age It situates the era's place in the incremental evolution of American literature throughout the twentieth century Essays from preeminent critics and historians analyze many overlapping aspects of American letters in the 1920s and re-evaluate an astonishingly diverse group of authors Expansive in scope and daring in its mixture of eclectic methods this book extends the most exciting advances made in the last several decades in the fields of modernist studies ethnic literatures African American literature gender studies transnational studies and the history of the book It examines how the world of literature intersected with other arts such as cinema jazz and theater and explores the print culture in transition with a focus on new publishing houses trends in advertising readership and obscenity laws **At the Brink of Infinity** James E. von der Heydt, 2008-04 From popular culture to politics to classic novels quintessentially American texts take their inspiration from the idea of infinity In the extraordinary literary century inaugurated by Ralph Waldo Emerson the lyric too seemed to encounter possibilities as limitless as the U.S. imagination This raises the question What happens when boundlessness is more than just a figure of speech Exploring new horizons is one thing but actually looking at the horizon itself is something altogether different In this carefully crafted analysis James von der Heydt shines a new light on the lyric craft of Emily Dickinson Robert Frost Elizabeth Bishop and James Merrill and considers how their seascape vision redefines poetry's purpose Emerson famously freed U.S. literature from its past and opened it up to vastness in the following century a succession of brilliant rigorous poets took the philosophical challenges of such freedom all too seriously Facing the unmarked horizon Emersonian poets capture and are captured by a stark astringent version of human beauty Their uncompromising visions of limitlessness reclaim infinity's proper legacy and give American poetry its edge Von der Heydt's book recovers the mystery of their world Edith Wharton

Carol J. Singley, 1995 A study of religion and philosophy in the novels and short stories of Edith Wharton first published in 1995

Cross-Cultural Reckonings Blanche H. Gelfant, 1995-01-27 Blanche H Gelfant's book *Cross Cultural Reckonings* both demonstrates and questions the applicability of postmodern cultural and literary theories to realistic texts to fiction and autobiographies valued for their truth Drawing together an unusual combination of Russian American and Canadian writers the various essays of this book provide new and original perspectives upon the puzzling issues of national identity of historical change and continuity of gender and the integrity of literary genres the boundaries between text and context and the underlying if overlooked conflicts between the postmodern critic's skepticism and a writer's belief in the transcendence of art and truth To avoid the contingencies inherent in binary comparisons the essays in this book seek a triadic form analogous to the triptych or polyptych of the visual arts Multi faceted non linear and open ended such a form might allow the academic essay to recover a waywardness that traces back to Montaigne cited in prefatory notes and to the etymological meaning of the essay as an exagium or weighing as an act of reckoning A study at once elegant erudite and personal *Cross Cultural Reckonings* reckons with writers of different backgrounds and reputation in whom Gelfant discovers surprising affinities among them the Russian writers Lydia Chukovskaya Natalya Baranskaya and Alexander Solzhenitsyn Ethel Wilson a highly reputed Canadian writer the famous cross cultural figure Emma Goldman and established as well as new or rediscovered American writers such as Willa Cather Saul Bellow Arlene Heyman and Meridel Le Sueur These writers are discussed singly and in comparative essays each of which is discrete and self contained while all interconnect and reflect upon each other as exemplary demonstrations of cross cultural literary criticism and the deferred final judgment that results from a weighing and reweighing of books

John Calvin's American Legacy Thomas Davis, 2010-03-29 Though his influence on American society has often been forgotten or misunderstood John Calvin played a formative role in the traditions of almost every sector of American life This wide ranging study comprising twelve essays shows for the first time the extraordinary extent to which Calvinist thoughts and practices are woven into the fabric of American society theology and letters from the colonial period to the twenty first century John Calvin's *American Legacy* examines the economics of the Colonial period Calvin's effect on American identity and the evidence for Calvin's influence on American democracy The book next addresses Calvin's critical role in American theology inspecting the relationship between Jonathan Edwards's and Calvin's church practices the diverse views on the Calvinist theological tradition in the nineteenth century the ways in which Calvin was understood in the historiography of Williston Walker and Perry Miller and Calvin's influence on twentieth century theologies Finally the book explores Calvinism's influence on American literature examining the work of such writers as Samson Occom Harriet Beecher Stowe Max Weber Mark Twain John Updike and Marilynne Robinson This important book is the first to introduce readers to the breadth and depth of Calvin's influence along the spectrum of American thought and society from the 18th century to modern times

Emily Dickinson L. Wagner-Martin, 2013-11-14 With special attention to Emily

Dickinson's growth into a poet this literary biographical study charts Dickinson's hard won brilliance as she worked largely alone to become the unique American woman writer of the nineteenth century **Discrepant Engagement** Nathaniel Mackey, 1993-09-24 *Discrepant Engagement* addresses work by black writers from the United States and the Caribbean and the so called Black Mountain poets Pocahontas Robert S. Tilton, 1994-11-25 Centering around her legendary rescue of Smith from the brink of execution and her subsequent marriage to a white Jamestown colonist the Pocahontas convention developed into a source of national debate over such broad issues as miscegenation racial conflict and colonial expansion

Reader's Guide to Literature in English Mark Hawkins-Dady, 2012-12-06 *Reader's Guide Literature in English* provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study *The Machine that Sings* Gordon A.

Tapper, 2013-10-18 Examining how Crane's corporeal aesthetic informs poems written across the span of his career *The Machine That Sings* focuses on four texts in which Crane's preoccupation with the body reaches its apogee Tapper treats *Voyages The Wine Merchant and Possessions* as a triptych of erotic poems in which Crane plays out alternative resolutions to the dialectic between purity and defilement a conceptual dynamic which Tapper argues is central to both Crane's poetics of difficulty and his representations of homosexual desire Tapper concentrates on the three sections of *The Bridge* most concerned with recuperating animality *National Winter Garden The Dance and Cape Hatteras* The Calvinist Roots of the Modern Era Alik Barnstone, Michael Tomasek Manson, Carol J. Singley, 1997 This collection of essays traces Calvinism's presence in twentieth century literature and demonstrates its impact as psychological construct cultural institution and socio political model *Wallace Stevens and Martin Heidegger* Ian Tan, 2022-06-20 This book is a unique contribution to scholarship of the poetics of Wallace Stevens offering an analysis of the entire oeuvre of Stevens's poetry using the philosophical framework of Martin Heidegger Marking the first book length engagement with a philosophical reading of Stevens it uses Heidegger's theories as a framework through which Stevens's poetry can be read and shows how philosophy and literature can enter into a productive dialogue It also makes a case for a Heideggerian reading of poetry exploring his later philosophy with respect to his writing on art language and poetry Taking Stevens's repeated emphasis on the terms being consciousness reality and truth as its starting point the book provides a new reading of Stevens with a philosopher who aligns poetic insight with a reconceptualization of the metaphysical significance of these concepts It pursues the link between philosophy American poetry as reflected through Stevens and modernist poetics looking from Stevens's modernist techniques to broader European philosophical movements of the twentieth century **Flannery O'Connor and Cold War Culture** Jon Lance Bacon, 1993 *Flannery O'Connor and Cold War Culture* offers a radically new reading of O'Connor who is known primarily as the creator of universal religious dramas By recovering the historical context in which O'Connor wrote

her fiction Jon Lance Bacon reveals an artist deeply concerned with the issues that engaged other producers of American culture from the 1940s to the 1960s a national identity political anxiety and intellectual freedom Bacon takes an interdisciplinary approach relating the stories and novels to political texts and sociological studies as well as films television programs paintings advertisements editorial cartoons and comic books At a time when national paranoia ran high O Connor joined in the public discussion regarding a way of life that seemed threatened from outside the American way of life The discussion tended toward celebration but O Connor raised doubts about the quality of life within the United States Specifically she attacked the consumerism that cold warriors cited as evidence of American cultural superiority The role of dissenter appealed greatly to O Connor and her identity as a Southern Catholic writer the very identity that has discouraged critics from considering her as an American writer furnished a position from which to criticize the Cold War consensus

The Oxford Handbook of Transcendentalism Joel Myerson, Sandra Harbert Petrulionis, Laura Dassow Walls, 2010-04-16 The Oxford Handbook of Transcendentalism offers an eclectic comprehensive interdisciplinary approach to the immense cultural impact of the movement that encompassed literature art architecture science and politics **Whitman's Queer Children** Catherine A. Davies, 2012-04-26 Davies examines the work of four of the most important twentieth century poets who have explored the epic tradition Some of the poems display an explicit concern with ideas of American nationhood while others emulate the formal ambitions and encyclopaedic scope of the epic poem The study undertakes extensive close readings of Hart Crane's *The Bridge* 1930 Allen Ginsberg's *Howl* 1956 and *The Fall of America* Poems of These States 1965 71 1972 James Merrill's *The Changing Light at Sandover* 1982 and John Ashbery's *Flow Chart* 1991 Although not primarily an account of a Whitmanian lineage this book considers Whitman's renegotiation of the dialectic between the public and the private as a context for the project of the homosexual epic arguing for the existence of a genealogy of epic poems that rethink the relationship between these two spheres If as Bakhtin suggests the job of epic is to accomplish the task of cultural national and political centralization of the verbal ideological world the idea of the homosexual epic fundamentally problematizes the traditional aims of the genre **Salem Story** Bernard Rosenthal, 1993 *Salem Story* engages the story of the Salem witch trials by contrasting an analysis of the surviving primary documentation with the way events of 1692 have been mythologised by our culture Resisting the temptation to explain the Salem witch trials in the context of an inclusive theoretical framework the book examines a variety of individual motives that converged to precipitate the witch hunt Of the many assumptions about the Salem witch trials the most persistent is that they were instigated by a circle of hysterical girls Through an analysis of what actually happened by perusal of the primary materials with the close reading approach of a literary critic a different picture emerges one where hysteria inappropriately describes the logical rational strategies of accusation and confession followed by the accusers males and females alike **Out of the Sixties** David Wyatt, 1993-10-29 This study looks at the cultural legacy of the sixties through ten creative figures who came of age during the Vietnam War
