

Riding the recession

When the media starts reporting higher interest rates and spiralling price rises, their next story will almost certainly scream the impending doom of a possible economic recession. But is it all bad news for local share market investors?

As Warren Buffet says, "When stocks are down, we're going to be buying on balance, and who wouldn't rather buy at a lower price than at a higher price?"

Recession Francis John Morine, 1980 *EU Fiscal Policy Coordination in Hard Times* Charlotte

Rommerskirchen, 2019-01-24 What happens to European Union EU fiscal policy coordination in hard times? Recent accounts of the EU have portrayed the union as plagued by an austerity regime and rampant moral hazard. Charlotte Rommerskirchen provides an alternative account of economic cooperation in Europe during the Great Recession and the European Debt Crisis. Drawing on Mancur Olson's theory of collective action, this volume combines evidence from statistical analysis and extensive interviews with key players. This book reaches an unexpected conclusion regarding the state of collective action in times of crises: Free riding was not rife. Despite heated accusations, member states' crisis policies matched their fiscal room for manoeuvre. The real collective action failure is instead diagnosed in the inability to sanction free riders at the EU level and empowering erratic bond markets to discipline governments. *Ride Free* Willie G.
