Romanticism and Esoteric Tradition

Paul Davies, Senior Research Fellow in the Centre for Commercial Law Paul Davies, 1998-02-15 Spiritual quest is at the very heart of poetry but in the materialistic climate of the late twentieth century this has been almost forgotten even by those claiming to be experts in interpreting literature How does the worldview common to the main esoteric traditions of East and West correspond to the aims of such Romantic poets as Shelley Keats Blake Coleridge and Wordsworth In Romanticism and

Esoteric Tradition Paul Davies maintains that only in the light of the spiritual teachings of these traditions can the poetry and thinking of the Romantics be understood as they intended This is one of the first books to connect the creative nature of poetry to the core teachings of the esoteric tradition and thereby to bring out the true meaning of several Romantic writers whose works have been trivialized by a culture that has marginalized the spiritual and tied itself to material historical and social issues The author also shows that the Romantics were the first Western poets to imagine the relationship of the self to the environment as personal encounter In this sense the Romantics were recalling a long held secret of the esoteric human sciences not inventing a new one This book brings the deepest interests of the Romantics directly into contact with issues closest to present day students of the spiritual traditions and holistic perspectives *You Are the Eyes of the World*

Longchenpa,2011-03-16 Just as the images on television are nothing more than light so are our experiences merely the dance of awareness Often we form attachments to or feel enslaved by these experiences But they are only reflections As easily as television pictures vanish when the channel is changed the power of our experiences fades if we penetrate to the heart of reality the light of the natural mind within everyone You Are the Eyes of the World presents a method for discovering awareness everywhere all the time This book does not discuss how to turn ordinary life off and it does not describe how to create beautiful spiritual experiences it shows how to live within the source of all life the unified field where experience takes place *Indestructible Truth* Reginald A. Ray,2002-07-23

One of the most thorough yet accessible introductions to the Tibetan Buddhist worldview ever published The author presents complex and sophisticated teachings and practices in nontechnical language using engaging stories and personal anecdotes to illustrate his points Indestructible Truth presents Tibetan Buddhism in its traditional form but also shows how the Tibetan traditions are applicable to the problems and challenges of modern life in the West In Indestructible Truth Tibetan Buddhism is introduced not as an exotic religion but rather as an expression of human spirituality that is having a profound impact on the modern world In addition it presents the point of view of meditation and the practice of the spiritual life paying special attention to contemplative practice and meditation as taught in the Kagyu and Nyingma schools *Rigpai Kujyug* Namkhai Norbu,1990 *Civilized Shamans*

Geoffrey Samuel,1993 Samuel identifies the two main orientations of this religion as clerical primarily monastic and shamanic associated with Tantric yoga The specific form that Buddhism has taken in Tibet is rooted in the pursuit of enlightenment by a minority of the people lamas monks and yogins and the desire for shamanic services in quest of health long life and prosperity by the majority Shamanic traditions of achieving altered states of consciousness have been incorporated into Tantric Buddhism which aims to communicate with Tantric deities through yoga The author contends that this incorporation forms the basis for much of the Tibetan lamas role in their society and that their subtle scholarship reflects the many ways in which they have reconciled the shamanic and clerical orientations This book the first full account of Tibetan Buddhism in two decades ranges as no other study has over several disciplines and languages incorporating

historical and anthropological discussion The Pandita and the Siddha Ramón Prats, 2007 Compilation of articles on
Tibetan studies in honor of Tibetologist Gene Smith **The Middle Way** , 1995 *Радужное тело и воскресение.*
