**The Rights of Women** Susan Deller Ross,Ann Barcher,Deborah A. Ellis,1986-06-01 Throughout much of American history discrimination against women has been rooted in the legal system When Elizabeth Cady Stanton and Lucretia Mott called the first women s rights convention at Seneca Falls New York in 1848 one of their major concerns was a legal system that profoundly discriminated against women It deprived all women of the right to vote and also prohibited women from engaging in many occupations and professions including the practice of law The legal system was particularly hard on the married women depriving them of all rights in effect rendering them civilly dead The system is hardly perfect now but women have fought and won major legal battles that provide significantly more protection under the law Using a question and answer format this ACLU handbook explains in detail how women can use the laws currently on the books in their continuing struggle to gain real equality in the family marketplace workplace and academia Topics covered include employment education parenting family law and reproductive freedom This handbook also examines criminal proceedings insurance the military credit and the rights of homeless women
