Rights And Risks Discussion Document On Civil Liberty In Old Age:

Independence and the Elderly Malcolm J. Fisk, 2024-05-10 In the 1980s much research into the needs of the elderly was undertaken from the perspective of a sickness model a model which reinforced labels of elderly people as frail disabled dependent and economically unproductive Few studies adopted a positive attitude to ageing and elderly people Originally published in 1986 reissued here with a new preface this book helped to redress this imbalance by focusing on the theme of independence examined particularly from the perspective of current housing and social policies relating to elderly people at the time The author looks at sheltered housing in detail including discussion of alarm systems staying put schemes and residential homes The book was essential reading for academics and practitioners in the health and social welfare fields with a concern for the elderly and the ways in which they could retain a meaningful independence *Risk and Ageing* C Paul Brearley, 2023-03-31 First published in 1982 Risk and Ageing is an exploration of practical issues involved in helping older people who are exposed to substantial risks Paul Brearley argues that if we are to make appropriate provision for older people it is essential that policy and practice should be informed by the growing body of theory and research as well as by the pragmatic day to day experience of practitioners The book therefore brings these perspectives together in relation to the general theme of risk analysis and management The book includes special chapters on mental disorder and on healthcare and will be of value to workers in the health and social services in addition to a social work audience **EBOOK: Older People And Community Care** Beverly Hughes, 1995-09-16 Older People and Community Care sets social and health care practice with older people firmly in the context of the new community care arrangements and the consequent organizational trends towards a market culture However it also questions the relative lack of attention given by professionals to issues of structural inequality in old age compared for example to race and gender Thus the book tackles a double agenda How can community care practice be suffused with anti ageist values and principles Addressing this question the book sets out the foundation knowledge and values which must underpin the development of anti discriminatory community care practice and examines the implications for practitioners in terms of the essential skills and inherent dilemmas which arise Older People and Community Care is essential reading for all those working with and managing services to older people and who aspire to make empowerment for older people a reality **Reviewing Care Management for Older People** Judith E. Phillips, Bridget Penhale, 1996 This book discusses the development and implementation of several models of care management Drawing together research to highlight the successes and the difficulties of translating the principles of care management into practice it examines this subject with particular reference to empowerment needs led assessment and multi disciplinary work Good Practice in Risk Assessment and Risk Management Hazel Kemshall, 1996 This book examines the key issues and methods of risk measurement and management A variety of social care settings are included with examples of practice *The Evolution of British Gerontology* Miriam Bernard, Mo Ray, Jackie Reynolds, 2020-04-01 Half a century of UK

gerontology research theory policy and practice are under the spotlight in this landmark critical review of the subject that places the country's achievements in an international context Drawing on the archives of the British Society of Gerontology and interviews with dozens of the most influential figures in the field it provides a comprehensive picture of key developments and issues and looks to the future to plot new directions in thinking This is the story of the remarkable progress of gerontology told through the eyes of those who have led it

From Poor Law to Community Care Means, Robin, Smith, Randall, 1998-09 Recent community care changes have raised issues about the changing role of the public and voluntary sectors in the provision of social care to elderly people The purpose of this book is to set these debates in the context of the historical growth of welfare services from 1939 through to 1971

Ageing, Autonomy and Resources A. Harry Lesser, 2018-12-13 First Published in 1999 lesser collects fourteen papers to create a discourse on the practical importance in a society where the proportion of elderly people is increasing Exploring how autonomy and how it should be defined and ethically when is it right to preserve a person's autonomy and in comparison is it ever ethically right to bring elderly people's autonomy as a secondary concern is it saves them from harm

Ethics and Aging James Edward Thornton, Earl Raye Winkler, 2011-11-01 This book is an important and timely look at issues of ethics in aging It reflects the complexity of these questions but develops them in relation to a single general theme that of the involvement of the elderly in the design of social policy and the research which affects them Moral problems involving the elderly are many faceted Accurate understanding and social response demand some integration of experience sensibility and knowledge provided by different perspectives Ethics and Aging incorporates viewpoints from gerontology philosophy law theology sociology psychology medicine nursing and economics

From Poor Law to community care Means, Robin, Smith, Randall, 1998-09-01 Recent community care changes have raised fundamental issues about the changing role of the public voluntary and informal sectors in the provision of social care to older people They have also raised issues about the health and social care interface the extent to which services should be rationed and the respective roles of residential care and care at home From Poor Law to community care sets these debates in the context of the historical growth of welfare services from the outbreak of the Second World War through to the establishment of social services departments in 1971 Based on extensive research on primary sources such as the Public Records Office and interviews with key actors the book considers the changing perceptions of the needs of elderly people the extent to which they have been a priority for resources and the possibilities for a policy which combines respect for elderly people with an avoidance of the exploitation of relatives This is an updated second edition of The development of welfare services for elderly people first published by Croom Helm 1985 It is essential reading for practitioners and policy makers interested in gerontology policy studies community care and postgraduate students studying and training in a range of health and social care related professions
