Cézanne's Gravity Carol Armstrong, 2018-11-13 A transformative study freeing the artist from outdated art historical narratives and revealing his work as newly strange again Cézanne's Gravity is an ambitious reassessment of the paintings of Paul Cézanne 1839 1906 Whereas previous studies have often looked at the artist's work for its influence on his successors and on the development of abstraction Carol Armstrong untethers it from this timeline examining Cézanne's painting as a phenomenological and intellectual endeavor Armstrong uses an interdisciplinary approach to analyze Cézanne's work pairing the painter with artists and thinkers who came after him including Roger Fry Virginia Woolf Albert Einstein Maurice Merleau-Ponty Rainer Maria Rilke R D Laing and Helen Frankenthaler Through these pairings Armstrong addresses diverse subjects that illuminate Cézanne's painting from the nonlinear narratives of modernist literature and the ways in which space and time act on objects to color sensation and the schizophrenic mind Cézanne's Gravity attends to both the physicality of the artist's works and the weight they bear on the history of art This distinctive study not only invites its readers to view Cézanne's paintings with fresh eyes but also offers a new methodology for art historical inquiry outside linear narratives one truly fitting for our time

Rilke's Venice Birgit Haustedt, 2019-09-15 For the Austrian poet and novelist Rainer Maria Rilke travel was not only integral to his work it was a way of life Venice stands out as a location of particular importance to Rilke and he visited the city ten times between 1897 and 1920 This city has inspired countless writers and artists but Rilke both enthralled and provoked by it reveals a striking and deeply felt love for the city He was as eager to explore the city's underbelly its deserted shipyards and back alleys as he was to experience its iconic sights of St Mark's and the Doge's Palace Staying in both simple guesthouses and the grand palaces of his patrons Rilke would walk prodigiously His contemporary Stefan Zweig commented that knowing every last corner and depth of the city was his passion and Rilke himself said his walking allowed him to grasp the whole breadth of the

city In eleven walks Birgit Haustedt guides readers through Venice following the poet's footsteps Haustedt invites us to look on the beloved sights of the city through Rilke's eyes offering a new vision of this famed destination Rilke's Venice provides new insight into one of the finest and most widely recognized writers of the twentieth century It also acts as a literary travel companion and guidebook to Venice offering eleven detailed maps of walks through the city **Reading with Michel**

Serres Maria L. Assad, 1999-06-17 This book identifies a new perspective on time and temporality in the work of the French writer Michel Serres Time is the veiled notion that underlies Serres's many epistemological parables and fables and is a consistent metaphor throughout his work Assad uncovers this common thread through a sustained discussion of certain key concepts in chaos theory and nonlinear dynamics and these concepts come into focus as she continues her detailed readings of Serres's texts demonstrating close analogies in his work to the discourses of science literature and philosophy

Understanding Derrida, Understanding Modernism Jean-Michel Rabaté, 2019-05-30 This volume makes a significant contribution to both the study of Derrida and of modernist studies The contributors argue first that deconstruction is not modern neither is it postmodern nor simply modernist They also posit that deconstruction is intimately connected with literature not because deconstruction would be a literary way of doing philosophy but because literature stands out as a modern notion The contributors investigate the nature and depth of Derrida's affinities with writers such as Joyce Kafka Antonin Artaud Georges Bataille Paul Celan Maurice Blanchot Theodor Adorno Samuel Beckett and Walter Benjamin among others With its strong connection between philosophy and literary modernism this highly original volume advances modernist literary study and the relationship of literature and philosophy
