Rise Of Modern China 3e:

Uneasy Encounters Iris Borowy, 2009 Early twentieth century China went through a tumultuous period marked by the end of an ancient monarchy political instability and profound cultural upheaval The medical discourse both reflected and contributed to these transformations Western medicine arrived in China as part of missionary foreign imperialist and internal modernization efforts In various ways it interacted with Chinese practices and belief systems The contributions in this volume explore important episodes of this multi faceted process describing key institutions personalities and their respective motives and interests Collectively the chapters reveal a complex web of interlocking dimensions which evade simple categorizations of Western or Chinese exploitive or supportive traditional or modern **Ideological Conflicts in Modern**

Victorian Curriculum, 3e learnON and Print Robert Darlington, 2026-01-07 *Environmental History in the Pacific World* J.R. McNeill, 2022-03-01 This volume brings together a set of key articles from the last 30 years pertaining to the environmental history of the Pacific basin It aims to treat the islands and waters of the Pacific as well as the lands around the Rim from New Zealand to Japan to California to Chile and is the first work of environmental history to take this inclusive view of the Pacific basin The focus is mainly on recent centuries but as environmental history requires at times the work also takes the very long view of millennia Several of the articles seek to bring a broad Pacific perspective to bear on their subjects while others use Pacific basin examples to try to establish broader theoretical points of interest to all who are drawn to the study of the interactions between nature and culture The book includes a bibliography of Pacific basin environmental history and an introduction that aims to sketch the contours and possible future directions of the field *Fin-de-Siècle Splendor* Dewei

Wang, 1997 The reigning view of literary historians has been that the May Fourth movement of 1919 marks the division between the traditional and the modern in Chinese literature This book argues that signs of reform and innovation can be discerned long before May Fourth and that as China entered the arena of modern international history in the late Qing it was already developing its own complex matrix of incipient modernities It demonstrates that late Qing fiction nurtured a creative innovative poetics one that was spurned by the reformers of the May Fourth generation in favor of Western style realism The

author recognizes that a full account of modern Chinese fiction needs to ask why so many genres styles themes and figures found in late imperial fiction were repressed by modern Chinese literary discourse He focuses on four genres of late Qing fiction that have been either rudely dismissed in pejorative terms or simply ignored depravity romances court case and chivalric cycles grotesque exposés and scientific fantasies The author shows that in spite of the realist orthodoxy that has dominated Chinese literature since the May Fourth movement these unwelcome genres have continually found their way back into mainstream discourse their influence being increasingly evident in recent decades This first comprehensive study of late Qing fiction discusses more than sixty works at least half of which have rarely or never been dealt with by Western or Chinese scholars Richly informed by contemporary literary theory this book constitutes a polemical rethinking of the nature of Chinese literary and cultural modernity

Discovering History in China Paul A. Cohen, 2010 Originally published New York Columbia University Press 1984

The History of Taiwan Xiaobing Li, 2019-10-25 This one volume handbook explores the history of Taiwan from its prehistory to its Japanese colonization to its tumultuous relationship with China in the 21st century This addition to the Greenwood Histories of the Modern Nations series focuses on significant events in the history of Taiwan from ancient history to the present Following the general series format the book opens with the series foreword and a chronology of key events in Taiwan's history Eleven chapters follow with half of the book focusing on the modern historic events that occurred post World War II Chapters examine topics and eras including Pre history and Early Civilization to 1100 Formosa The Dutch Colony 1622 1662 Cold War Island Conflicts and Control 1950 1972 and Democratization and Independence Movement 1996 2004 A glossary of terms and annotated bibliography rounds out the work making it an ideal resource for high school and undergraduate students as well as general readers who are looking for an introduction to Taiwan's history

The Ili Rebellion Linda K. Benson, 2020-10-28 In 1944 Moslem forces in China's westernmost province of Xinjiang rose against the Chinese authorities and succeeded in establishing a small independent Islamic state the East Turkestan Republic Based on newly available archival material this book describes the Moslem challenge to Chinese rule and documents the Nationalist government's response to newly awakened Turkic Moslem nationalism on China's most remote and politically sensitive north western frontier With this book Linda Benson aims to break new ground in the study of Sino Soviet relations and especially of the policies of Chinese governments toward their national minorities

Religions of China Daniel E. Overmyer, 1998-03-10 The guiding themes of Chinese religion as it is actually lived This short work explains basic ideas and practices of Chinese religions in direct and simple language with many examples and analogies for increased understanding Its basic assumption is that religion is best understood as an aspect of everyday life as something that makes sense to those who practice it even if outsiders might be puzzled at first While Overmyer's treatment focuses on traditional China before the twentieth century many of the beliefs and practices described are still alive at least in some Chinese communities While the basic concern of this book is first to understand Chinese

religions in their own right it takes the additional step of exploring what modern students might learn from them
