Rise Of A New World Economic Power Postwar Taiwan:

The Rise of a New World Economic Power Y. Dolly Hwang, 1991-07-30 In the most comprehensive analysis of Taiwan's economic development available to date Y Dolly Hwang traces the economic political and historical factors that enabled the island to transform itself from a poor country burdened with heavy foreign debt and rampant inflation into an emerging world economic power in a period of only forty years Hwang explores the role played by the cultural and individual aspirations of the Taiwanese the improvements in political social and educational life that were made possible by the island's economic growth Taiwan's growing contribution to the global economy and the country's ability to rapidly narrow the technological gap between itself and the industrialized nations Throughout Hwang emphasizes the dynamic interrelationships among the various factors that have created Taiwan's phenomenal success Following an overview of Taiwan's postwar economic development Hwang surveys events in Chinese history which laid the groundwork for Taiwan's rise to a world economic power Hwang then devotes separate chapters to the influence of Taiwan's struggle for survival on its economic development the role of government and the technocrats and the contribution of specific economic policies particularly the drive to develop an export based economy Subsequent chapters address industrialization international trade Taiwan's monetary fiscal and financial system Confucianism and the capitalist spirit in Taiwan entrepreneurs and small to medium sized enterprises and the parts played by the United States and Japan in Taiwan's economic development The concluding chapter looks at likely future scenarios for the island nation including a possible reunification with mainland China Students of economic history economic development and Asian Studies will find Hwang's study enlightening reading

Development And Demographic Change In Taiwan (1945-1995) Roger Mark Selya, 2004-05-31 This book describes and analyzes the demographic changes that took place in Taiwan between 1945 and 1995 It uses an interdisciplinary methodology so that different approaches to demographic change can be compared and contrasted It attempts to evaluate Taiwan's experience so that lessons for the Third World can be extracted The content and presentation of the material are deliberately designed to replicate the 1954 work of Barclay Demographic Change and Colonial Development in Taiwan As such the book seeks to provide the reasons that economic development without demographic change took place under the Japanese while development with demographic change took place under the Chinese The volume is richly illustrated with some 82 original maps and graphs

Historical Dictionary of Taiwan (Republic of China) John F. Copper, 2024-10-08 Taiwan is a place of contradictions Its successful economic and political modernization has stimulated the imaginations of most observers Still its nation state status has been constricted and weakened It covets and pursues peace yet it is a vortex actor in global strategic military competition It is small yet its importance far exceeds its size It has long occupied a crucial place in history even though it has not sought this status yet it appears inevitable that it will continue to do so Historical Dictionary of Taiwan Republic of China Fifth Edition contains a chronology an introduction and an extensive bibliography The dictionary

section has more than 600 cross referenced entries on important personalities as well as aspects of the country's politics economy foreign relations religion and culture This book is an excellent resource for students researchers and anyone wanting to know more about Taiwan

The Politics of Developmentalism in Mexico, Taiwan and South Korea J.

Minns,2006-01-10 Minns argues that the industrial transformations of Mexico South Korea and Taiwan were based on the existence of powerful developmentalist states in each It explores the origins of such states and their dynamics and connects the form of autonomy they enjoy within their countries to the policies they pursue

The A to Z of Taiwan (Republic of China) John Franklin Copper,2010-04-01 Taiwan an island located off the east coast of southern China is the largest piece of territory under the jurisdiction of the nation known officially as the Republic of China Constant debate over whether Taiwan is its own sovereign state part of the Republic of China or part of the People's Republic of China has been going on for years With Chinese leaders in the People's Republic of China rejecting Taiwan's legal separation and vowing that they will resolve the Taiwan issue by military force if necessary and most citizens of Taiwan opposing unification with China in the short run it would appear that Taiwan faces some tough decisions ahead The A to Z of Taiwan Republic of China offers insight into Taiwan's situation through a chronology an introduction appendixes a map a bibliography and several hundred cross referenced dictionary entries on important people places events political parties and institutions as well as major political economic social and cultural aspects of this island country Whether or not Taiwan joins the People's Republic of China or gains its independence Taiwan's outcome is of the utmost importance and this reference provides the necessary information to understand its state of affairs

Capitalist Development and Economism in East Asia Kui-Wai Li,2003-08-29 Taking a conceptual approach this book studies the economic development of the four East Asian economies since 1950 The author summarizes and reconsiders many of the arguments and findings that supported and explained the economic miracles of Hong Kong Singapore Taiwan and South Korea analysing the relationship between economic development growth and political economy This pioneering book will stimulate further analysis of East Asian development It will be of essential interest to scholars in East Asian economics and all those interested in modern economic development

The Origins of the Developmental State in Taiwan J. Megan Greene,2008-04-30 The rapid growth of Taiwan's postwar miracle economy is most frequently credited to the leading role of the state in promoting economic development Megan Greene challenges this standard interpretation in the first in depth examination of the origins of Taiwan's developmental state Greene examines the ways in which the Guomintang state planned and promoted scientific and technical development both in mainland China between 1927 and 1949 and on Taiwan after 1949 Using industrial science policy as a lens she shows that the state even during its most authoritarian periods did not function as a monolithic entity State planners were concerned with maximizing the use of Taiwan's limited resources for industrial development Political leaders on the other hand were most concerned with the state's political survival The developmental state emerged gradually as a result of the combined efforts of

technocrats and outsiders including academicians and foreign advisors Only when the political leadership put its authority and weight behind the vision of these early planners did Taiwan's developmental state fully come into being In Taiwan's combination of technocratic expertise and political authoritarianism lie implications for our understanding of changes taking place in mainland China today

Linking an Asian Transregional Commerce in Tea Jason Lim, 2010-07-12 Current historical work on the international tea trade has focused on the Sino British trade and the impact of capitalism and modern technology on tea production in India and Ceylon These studies have overlooked the changes that were afoot in the Fujian tea industry and the problems with conducting the trade with the overseas Chinese in Southeast Asia Using the Fujian Singapore trade as an illustration and drawing on Chinese language archival materials this book looks at the state of tea production in Fujian the overseas Chinese tea merchants and the fluctuations of the trade during the period of political instability in China the Sino Japanese War decolonisation in Singapore and the period of collectivisation in China and the Cold War

Liberalization in the Developing World Alex E. Fernandez Jilberto, Andre Mommen, 2012-10-12 Liberalization in the Developing World compares the success of liberalization strategies in Asia Africa and Latin America over the past decade Three models emerge corresponding to the three continents covered which reflect the degree of state intervention in the economy and the success of the liberalization policies adopted The conclusions drawn demonstrate that economic and political liberalization do not have to go hand in hand On the contrary the case studies presented in this volume show that the role of the state can be crucial in mobilizing both the human and capital investment needed to be able to compete in international economy

The Rise, the Fall, and the Recovery of Southeast Asia's Minidragons David Hollingsworth, 2008-01-01 This book explores how a clear eyed set of policies can govern a country's wellbeing from an economic standpoint and the vision it takes to propel a country to new heights The author considers not just development but how development was undone by policies and actions that were not governed by a consistent long range vision
