Rise Of Christianity A Sociologist Reconsiders History:

The Rise of Christianity Rodney Stark, 1996-06-02 Rodney Stark a sociologist by training has written a book that should end much of the Christian bashing occurring in academia Stark demonstrates that Christianity became popular very quickly because it offered its adherents a better faith than competing religions and treated those believers better both physically and spiritually

The Rise of Christianity Rodney Stark, 2020-06-16 A landmark reinterpretation of why Christianity became the dominant faith of the West The idea that Christianity started as a clandestine movement among the poor is a widely accepted notion Yet it is one of many myths that must be discarded if we are to understand just how a tiny messianic movement on the edge of the Roman Empire became the dominant faith of Western civilization In a fast paced highly readable book that addresses beliefs as well as historical facts Rodney Stark brings a sociologist's perspective to bear on the puzzle behind the success of early Christianity He comes equipped not only with the logic and methods of social science but also with insights gathered firsthand into why people convert and how new religious groups recruit members He digs deep into the historical evidence on many issues such as the social background of converts the mission to the Jews the status of women in the church the role of martyrdom to provide a vivid and unconventional account of early Christianity The author plots the most plausible curve of Christian growth from the year 40 to 300 By the time of Constantine Christianity had become a considerable force with growth patterns very similar to those of modern day successful religious movements An unusual number of Christian converts for example came from the educated cosmopolitan classes Because it offered a new perspective on familiar concepts and was not linked to ethnicity Christianity had a large following among persons seeking to assimilate into the dominant culture mainly Hellenized Jews The oversupply of women in Christian communities due partly to the respect and protection they received led to intermarriages with pagans hence more conversions and to a high fertility rate Stark points out too the role played by selflessness and faith Amidst the epidemics fires and other disasters that beleaguered Greco Roman cities Christian communities were a stronghold of mutual aid which resulted in a survival rate far greater than that of the pagans In the meantime voluntary martyrdom especially a generation after the death of Christ reinforced the commitment of the Christian rank and file What Stark ultimately offers is a multifaceted portrait of early Christianity one that appeals to practical reasoning historical curiosity and personal reflection

The Rise of Protestantism in Modern Korea Andrew Eungi Kim, 2022-11-09 Combining sociological historical and comparative approaches this book examines one of the most striking aspects of South Korea specifically the emergence of Protestant Christianity as the largest contemporary religion in the country What is extraordinary about the religion's success is that its growth has been achieved in 130 years since 1884 and that it took place in a country with a rich oriental tradition replete with shamanism Taoism Buddhism and Confucianism The text critically demonstrates the socio anthropological perspective of the Korean Peninsula making it a great resource for scholars and students of sociology contemporary culture history religion

colonialism and geopolitics **A Short History of Global Evangelicalism** Mark Hutchinson, John Wolffe, 2012-04-30 An overview of the history of evangelicalism as a global movement from its origins in the eighteenth century to the present

The Rise of Mormonism Rodney Stark, 2005-10-26 Will Mormonism be the next world faith one that will rival Catholicism Islam and other major religions in terms of numbers and global appeal This was the question Rodney Stark addressed in his much discussed and much debated article *The Rise of a New World Faith* 1984 one of several essays on Mormonism included in this new collection Examining the religion's growing appeal Rodney Stark concluded that Mormons could number 267 million members by 2080 In what would become known as the Stark argument Stark suggested that the Mormon Church offered contemporary sociologists and historians of religion an opportunity to observe a rare event the birth of a new world religion In the years following that article Stark has become one of the foremost scholars of Mormonism and the sociology of religion This new work the first to collect his influential writings on the Mormon Church includes previously published essays revised and rewritten for this volume His work sheds light on both the growth of Mormonism and on how and why certain religions continue to grow while others fade away Stark examines the reasons behind the spread of Mormonism exploring such factors as cultural continuity with the faiths from which it seeks converts a volunteer missionary force and birth rates He explains why a demanding faith like Mormonism has such broad appeal in today's world and considers the importance of social networks in finding new converts Stark's work also presents groundbreaking perspectives on larger issues in the study of religion including the nature of revelation and the reasons for religious growth in an age of modernization and secularization

Cultural Counterfeits Jen Oshman, 2022-03-03 Jen Oshman Helps Women Reject Idols and Discover God's Good Purpose for Their Lives In today's culture women and girls are influenced by idols that promise purpose and meaning for their lives outward beauty and ability sex abortion and gender fluidity Christian women aren't exempt from these temptations either and can even elevate good things like marriage and motherhood to the status of idolatry Women may sense that these idols are hollow and leave them feeling unsettled but where should they turn instead In *Cultural Counterfeits* Jen Oshman encourages women to reject the empty destructive promises these idols offer and embrace something much more satisfying She casts a vision for women to experience real hope and peace in Jesus calling them to recognize their unshakable and eternal identities in him This timely and compelling resource will help women find freedom and joy as they explore God's good design and purpose for their lives *Culturally Relevant Addresses* current topics such as the MeToo movement LGBTQIA social media and feminism *Explains How We Got Here* Gives a brief history of the sexual revolution up to today Written by Jen Oshman Author of *Enough about Me Find Lasting Joy in the Age of Self* For Group or Individual Study Includes discussion questions at the end of each chapter *Deep History, Secular Theory* Luther Martin, 2014-05-21 Over the course of his career Luther H Martin has primarily produced articles rather than monographs This approach to publication has given him the opportunity to experiment with different methodological approaches to an

academic study of religion with updates to and different interpretations of his field of historical specialization namely Hellenistic religions the subject of his only monograph 1987 The contents of this collected volume represent Martin s shift from comparative studies to socio political studies to scientific studies of religion and especially to the cognitive science of religion He currently considers the latter to be the most viable approach for a scientific study of religion within the academic context of a modern research university The twenty five contributions collected in this volume are selected from over one hundred essays articles and book chapters published over a long and industrious career and are representative of Martin s work over the past two decades *The First Christian Communities, 32 - 380 CE* Joyce E. Salisbury, 2023-11-24 This concise history of how the Christian Church grew between 32 and 380 focuses on the anonymous Christians who formed diverse congregations as they guided their communities through the age of the Apostles violent martyrdoms and to the establishment of the Roman Church Readers will understand why people converted to Christianity in the first three centuries and learn about the rich diversity of the early church as people interpreted the new religion in different ways This book explores how Christian interactions with the Roman empire led to violent persecutions and martyrdoms and eventually the fourth century establishment of the top down Roman Church Readers also become familiar with Christian texts during this period some became Scripture and some were rejected but all were written to make sense of the Jewish and Christian experience in the Roman Empire These written memories shaped the future of the church It also explores how early Christian lives were shaped by the religious rituals and preaching of their new and changing faith In addition maps illustrations and charts of Christian texts help tell this fascinating story *The First Christian Communities 32 380 CE* is an accessible and valuable resource suitable for students working on Christian history and Roman and Late Antique social political and religious history as well as general readers who are interested in the origins of Christianity *Words* Ernst van den Hemel, Asja Szafraniec, 2016-06-15 It is said that words are like people One can encounter them daily yet never come to know their true selves This volume examines what words are how they exist in religious phenomena Going beyond the common idea that language merely describes states of mind beliefs and intentions the book looks at words in their performative and material specificity The contributions in the volume develop the insight that our implicit assumptions about what language does guide the way we understand and experience religious phenomena They also explore the possibility that insights about the particular status of religious utterances may in turn influence the way we think about words in our language *The Cambridge Ancient History: Volume 12, The Crisis of Empire, AD 193-337* Iorwerth Eiddon Stephen Edwards, Alan Bowman, Peter Garnsey, Averil Cameron, 1970 Authoritative history of the Roman Empire during a critical period in Mediterranean history
