Rise Of Major Religions:

The History of the Rise and Fall of the World's Religions and their Evolution Younus Samadzada, 2022-01-14 This book chronologically documents the rise and fall of the major religions of the world and explores the role that various cultural factors such as dance, trance, music, song, and language have played in this evolution. The role that leaders play in the evolution of religion is also discussed. Starting from the primitive religions of hunter-gatherer societies in which religion was not part of any institution, the next stages of human life from the agricultural revolution to the modern religions of today are discussed. Among the modern religions discussed are Judaism, Buddhism, Christianity, Islam, Scientology, and numerous others. The reader is further provided with a unique perspective on the potential good and evil aspects of religion and the very reality of the existence of a God or gods and the possible downfalls of the religious belief system.

Creating God Robin Derricourt, 2021-05-17 What do we really know about how and where religions began and how they spread? In this bold new book, award-winning author Robin Derricourt takes us on a journey through the birth and growth of several major religions using history and archaeology to recreate the times, places, and societies that witnessed the rise of significant monotheistic faiths. Beginning with Mormonism and working backwards through Islam, Christianity, and Judaism to Zoroastrianism, *Creating God* opens up the conditions that allowed religious movements to emerge, attract their first followers, and grow. Throughout history, there have been many prophets, individuals who believed they were in direct contact with the divine, with instructions to spread a religious message. While many disappeared without trace, some gained millions of followers and established a lasting religion. In *Creating God*, Robin Derricourt has produced a brilliant panoramic book that offers new insights on the origins of major religions and raises essential questions about why some succeeded where others failed.

The Rise and Fall of Religions in the World LAWS., 1913 **The Rise of Major Religions** Georgia Makhlof, 1988-12-01 Explores the origins, history, customs, and beliefs of the world's major religions including Judaism, Christianity, Islam, Hinduism, and Buddhism.

Imagining the Divine Jas Elsner, Stefanie Lenk, 2017 Religion has always been a fundamental force for constructing identity from antiquity to the contemporary world. The transformation of ancient cults into faith systems which we recognise now as major world religions took place in the first millennium AD, in the period we call Late Antiquity. Our argument is that the creative impetus for both the emergence and much of the visual distinctiveness of the world religions came in contexts of cultural encounter. Bridging the traditional divide between classical, Asian, Islamic, and Western history, this exhibition and its accompanying catalogue highlights religious and artistic creativity at points of contact and cultural borders between late antique civilisations. This catalogue features the creation of specific visual languages that belong to four major world religions: Christianity, Judaism, Buddhism, and Islam. The imagery still used by these belief systems today is evidence for the development of distinct religious identities in Late Antiquity. Emblematic visual forms like the figure of Buddha and Christ, or Islamic aniconism, only evolved in dialogue with a variety of coexisting visualisations of the sacred.

late antique believers appropriated some competing models and rejected others they created compelling and long lived representations of faith but also revealed their indebtedness to a multitude of contemporaneous religious ideas and images
