Rites Funeraires Et Pratiques De Deuil Chez Les Juifs En France XIXe Xxe Siecles:

Rites funéraires et pratiques de deuil chez les juifs en France Patricia Hidiroglou, 1999 Le rituel de mort apparait aujourd'hui comme un element fondamental de l'identite. Certaines prescriptions continuent a etre appliquees a la lettre chez des juifs pourtant eloignes des pratiques religieuses: recours a la Hevrah Qaddisha confrerie sainte pour la purification du defunt, recitation du Qaddish sur la tombe, simplicité de l'inhumation, respect des interdits alimentaires et vestimentaires pendant la semaine shivah et les trente jours de deuil shloshim. Les pratiques commemoratives au meme titre que le deuil sont toujours prises en charge collectivement. Pourquoi de telles specificites en depit de l'acculturation des juifs et de la laicisation de la mort? A travers des archives inedites et des enquetes de terrain, l'auteur retrace l'histoire de ces rites codifies sous Napoleon et influences par les grandes lois laiques de la fin du XIXe siecle. Il analyse leurs mutations face aux bouleversements politiques, religieux et demographiques des XIXe-XXe siecles. Il confronte le point de vue religieux des institutions juives aux preoccupations hygienistes et urbanistiques des pouvoirs publics. La persistance de pratiques specifiques pose la question du reinvestissement symbolique dans une societe ou s'impose de plus en plus un rituel republicain et laic.

A Data-Driven Analysis of Cemeteries and Social Reform in Paris, 1804-1924 Kaylee P.

Alexander, 2023-08-28 This book takes a novel data driven approach to the cemeteries of Paris analyzing a largely text based body of archival material as proxy evidence for visual material that has been lost due to systematic and legally sanctioned acts of erasure. This study represents the first full length study of vernacular monuments in France and the entrepreneurs who made them. It also provides methodical considerations at the intersection of the computational and digital humanities for managing survival biases in extant historical evidence that are applicable beyond the thematic focus of this book. Since extant examples of these more inconspicuous monuments are rare, this project employs both distant and close viewing, analyzing commercial almanacs, work logs and burial records in aggregates alongside detailed case studies to compensate for gaps in the material record. The book will be of interest to scholars working in visual culture, popular culture, digital humanities and French history.

La mort, une affaire publique Emmanuel Bellanger, 2008

Travailler ensemble ? Christian Chevandier, 2014-07-17 Vingt praticiens de la recherche: historiens, ethnologues, géographes, sociologues, mais aussi une biologiste, un démographe et un cinéaste posent dans cet ouvrage la question de la pluridisciplinarité dans les sciences sociales. S'appuyant sur leur pratique, ils comprennent quel point leurs méthodes et leurs questionnements empruntent aux autres disciplines et se retrouvent en cela. Ville et religion en Europe du XVIe au XXe siècle Bruno Dumons, Bernard Hours, 2010 Des historiens et des spécialistes d'histoire des religions interrogent l'impact du phénomène religieux dans la construction urbaine de la cité dans l'Europe moderne et contemporaine. Ils entendent montrer la fois comment le fait religieux participe l'écriture de l'histoire urbaine et comment la ville s'est structurée autour de pratiques et d'identités religieuses.

Byzance au fil des siècles l'esclavage antique n'a pas décliné Il s'est modifié en fonction du contexte politique social et religieux L'auteur recense la définition prioritairement économique de l'esclavage et montre que soumission d'oppression et liberté sont moins des statuts civils que des rapports sociaux
