Rituals of Manhood Gilbert H. Herdt, 2017-09-08 *Rituals of Manhood* provides some of the most dramatic and richly textured accounts of ritual passages known to anthropologists of the late twentieth century When in an earlier time anthropologists and sociologists described collective initiation rituals the political and gender aspects of these practices were seldom underscored Today the power relationships of the body and domination and the social arena of gender politics are widely regarded as critical to the cultural meaning and interpretation

The Gender of the Gift Marilyn Strathern, 1988-09-15 In the most original and ambitious synthesis yet undertaken in Melanesian scholarship Marilyn Strathern argues that gender relations have been a particular casualty of unexamined assumptions held by Western anthropologists and feminist scholars alike The book treats with equal seriousness and with equal good humor the insights of Western social science feminist politics and ethnographic reporting in order to rethink the representation of Melanesian social and cultural life This makes *The Gender of the Gift* one of the most sustained critiques of cross cultural comparison that anthropology has seen and one of its most spirited vindications

Religion and Practical Reason Frank E. Reynolds, David Tracy, 1994-10-25 This book contains programmatic essays that focus on broad ranging proposals for re envisioning a discipline of comparative philosophy of religions It also contains a number of case studies focussing on the interpretation of particular religio historical data from comparatively oriented philosophical perspectives

Religions of Melanesia Garry Trompf, 2006-09-30 Melanesia boasts over one quarter of the world's distinct religions and presents the most complex religious panorama on earth The region is famous for its unusual new religious movements that have adapted traditional beliefs to modernity in surprising ways As the first bibliographical survey to comprehensively cover the entire region *Religions of Melanesia* is an invaluable research aid for anyone interested in this growing field Trompf's work is a complete listing of scholarly publications and provides readable and concise descriptions that will clearly guide the researcher toward the most relevant sources This survey covers 2188 entries organized topically and regionally Trompf covers such subjects as traditional and modern belief systems and the emergent indigenous Christianity that has taken root Regional coverage includes Irian Jaya Papua New Guinea Solomon Islands Vanuatu New Caledonia and Fiji

Breaking the Spell Daniel C. Dennett, 2006-02-02 The New York Times bestseller a crystal clear constantly engaging Jared Diamond exploration of the role that religious belief plays in our lives and our interactions For all the thousands of books that have been written about religion few until this one have attempted to examine it scientifically to ask why and how it has shaped so many lives so strongly Is religion a product of blind evolutionary instinct or rational choice Is it truly the best way to live a moral life Ranging through biology history and psychology Daniel C. Dennett charts religion's evolution from wild folk belief

to domesticated dogma Not an antireligious screed but an unblinking look beneath the veil of orthodoxy Breaking the Spell will be read and debated by believers and skeptics alike Handbook of Material Culture Chris Tilley, Webb Keane, Susanne Kuechler, Mike Rowlands, Patricia Spyer, 2006-01-05 The study of material culture is concerned with the relationship between persons and things in the past and in the present in urban and industrialized and in small scale societies across the globe The Handbook of Material Culture provides a critical survey of the theories concepts intellectual debates substantive domains and traditions of study characterizing the analysis of things It is cutting edge rather than simply reviewing the field as it currently exists It also attempts to chart the future the manner in which material culture studies may be extended and developed The Handbook of Material Culture is divided into five sections Section I maps material culture studies as a theoretical and conceptual field Section II examines the relationship between material forms the human body and the senses Section III focuses on subject object relations Section IV considers things in terms of processes and transformations in terms of production exchange and consumption performance and the significance of things over the long term Section V considers the contemporary politics and poetics of displaying representing and conserving material and the manner in which this impacts on notions of heritage tradition and identity The Handbook charts an interdisciplinary field of studies that makes a unique and fundamental contribution to an understanding of what it means to be human It will be of interest to all who work in the social and historical sciences from anthropologists and archaeologists to human geographers to scholars working in heritage design and cultural studies Routledge International Handbook of Ignorance Studies Matthias Gross, Linsey McGoey, 2015-05-15 Once treated as the absence of knowledge ignorance today has become a highly influential topic in its own right commanding growing attention across the natural and social sciences where a wide range of scholars have begun to explore the social life and political issues involved in the distribution and strategic use of not knowing The field is growing fast and this handbook reflects this interdisciplinary field of study by drawing contributions from economics sociology history philosophy cultural studies anthropology feminist studies and related fields in order to serve as a seminal guide to the political legal and social uses of ignorance in social and political life Chapter 33 of this book is freely available as a downloadable Open Access PDF under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license available here https://tandfbis.s3.us-west-2.amazonaws.com/rftfiles/docs/OpenAccess/Chapters/9780415718967_oachapter33.pdf

Fredrik Barth Thomas Hylland Eriksen, 2015-04-20 Fredrik Barth is one of the towering figures of twentieth century anthropology This intellectual history traces the development of Barth's ideas and explores the substance of his contributions In an accessible style Thomas Hylland Eriksen's biographical study reveals the magic of ethnography to professional anthropologists and non practitioners alike Exploring his six decade career it follows Barth from early ecological studies in Pakistan to political studies in Iran to groundbreaking fieldwork in Norway New Guinea Bali and Bhutan Eriksen argues that Barth's voracious appetite for fieldwork holds the key to understanding his remarkable intellectual development and the

insights it produced The book raises many of the same questions that emerge from Barth's own work of unity and diversity of culture and relativism of art and science *Ritual in Its Own Right* Don Handelman, Galina Lindquist, 2005-01-01 Historically canonic studies of ritual have discussed and explained ritual organization action and transformation primarily as representations of broader cultural and social orders In the present as in the past less attention is given to the power of ritual to organize and effect transformation through its own dynamics Breaking with convention the contributors to this volume were asked to discuss ritual first and foremost in relation to itself in its own right and only then in relation to its socio cultural context The results attest to the variable capacities of rites to effect transformation through themselves and to the study of phenomena in their own right as a fertile approach to comprehending ritual dynamics
