Schooling Bodies:

Queer Bodies Heather Jane Sykes, 2011 The book provides a critical examination of discrimination based on sexuality gender and body size in Canadian physical education It illustrates how students with queer bodies whether lesbian gay trans gendered or overweight or fat cope with homophobia transphobia and fat phobia in physical education Drawing from qualitative interviews the book reveals how students are marginalized because they do not conform to taken for granted ideas about healthy or athletic bodies *Critical Postmodernism in Human Movement, Physical Education, and Sport* Juan-Miguel Fernandez-Balboa, 1997-01-01 This book proposes alternative ways of looking at human movement and brings into question the traditional role of the human movement profession as an agent of social and cultural reproduction The authors argue that the profession has traditionally shaped physical activities in schools and communities in disempowering ways and has adversely influenced how people view their bodies apply physical activities to their lives and use and understand the knowledge in the field To raise awareness of the possibilities of postmodernism for human movement the contributors employ a critical postmodern conceptualization of the profession to explore the conflicts within it to ask what can be done to strengthen it to investigate how professional relations and meanings can be constructed within a new realm of justice freedom and equity and to discuss the professional and civic principles to which the profession should subscribe

The Curriculum of the Body and the School as Clinic Kellie Burns, Helen Proctor, 2023-12-05 This collection brings together cutting edge research on the history of embodiment health and schooling in an international context The book distinguishes a set of educational technologies schooling practices and school based public health programmes that organise and influence the bodies of children and young people defining the curriculum of the body Taking a historical approach with a focus on the period in which mass schooling became an international phenomenon the book is organised according to four major themes The first positions the school as a modern clinical space followed by the second that explores programmes and curricula which influence the discipline of and care for the body The third section examines the role of the built environment on the organisation and experience of children s bodies and the final section outlines the pedagogies rules and routines that determine how the body is treated and experienced in school International and multidisciplinary in scope this unique collection is of interest to postgraduate students and researchers in education and public health as well as history policy studies and sociology Body Knowledge and Control John Evans, Brian Davies, Jan Wright, 2004 Drawing together some of the latest research on the body and schooling *Body Knowledge and Control* offers a sharp and challenging critique of modern day attitudes toward obesity health appearance and self image **Literacies, Power, and the Schooled Body** Kerry Dixon, 2010-11-15 This book examines how children s bodies are trained in time and space to produce schooled literate individuals Moving from theory to practice examples of real classroom events show how teachers practices direct discipline onto children s bodies Fabricating Modern Societies: Education, Bodies, and Minds in the Age of Steel , 2019-09-02

Fabricating Modern Societies Education Bodies and Minds in the Age of Steel edited by Karin Priem and Frederik Herman offers new interdisciplinary and transnational perspectives on the history of industrialization and societal transformation in early twentieth century Luxembourg The individual chapters focus on how industrialists addressed a large array of challenges related to industrialization borrowing and mixing ideas originating in domains such as corporate identity formation mediatization scientification technological innovation mechanization capitalism mass production medicalization educationalization artistic production and social utopia while competing with other interest groups who pursued their own goals The book looks at different focus areas of modernity and analyzes how humans created mediated and interacted with the technospheres of modern societies Contributors Klaus Dittrich Irma Hadzalic Frederik Herman Enric Novella Ira Plein Fran oise Poos Karin Priem and Angelo Van Gorp

Inclusive Education in Italy Simona D'Alessio, 2012-01-01 This book provides an innovative and thought provoking analysis of the policy of integrazione scolastica from an inclusive perspective Drawing on historical and empirical research methods the book arises out of an ethnographic study which investigates the extent to which the policy of integrazione scolastica can be considered an inclusive policy The author poses two fundamental questions why are there episodes of micro exclusion and discrimination against disabled pupils still taking place in regular schools after more than 30 years have passed since the enactment of such a progressive policy Can the policy of integration lead to the development of inclusion in Italy The research findings presented in the book indicate that exclusion and discrimination towards disabled pupils in education do not result from a lack of implementation of the policy at a school level rather from the perpetuation of dominant discourses which construct disability as an individual deficit The book does not deny the progress made in the country following the application of this anti discriminatory policy rather it challenges the hegemonic abilist culture and the traditional perspectives of disability and schooling that undermine the development of inclusive education After having investigated the theoretical premises of the policy of integration the author argues that this progressive policy is still rooted in a special needs education paradigm and that what was once a liberating policy has been transformed into a hegemonic tool which still manages controls and normalizes disability leaving school settings and teaching and learning routines unchanged She finally argues for a human rights approach for the development of an inclusive school for the 21st century The book is an essential reading for academics policy makers researchers and students involved in education as it links ideological pressures to practical analyses

Digital Technology in Physical Education Jeroen Koekoek, Ivo van Hilvoorde, 2018-05-15 The rapid development of digital technologies has opened up new possibilities for how Physical Education is taught This book offers a comprehensive practice oriented and critical exploration of the actual and potential applications of digital technologies in PE It considers the opportunities that are offered by new technologies and how they may be best implemented to enhance the learning process Including contributions from the US UK Europe Canada and New Zealand this international collection reflects on how digital innovations are shaping PE pedagogy in theory and practice across the globe Its chapters identify core pedagogical principles rather than simply discussing passing digital fads

and offer practical narratives case studies and reflections on how PE practitioners can introduce technology into teaching and learning through the use of social media video gaming virtual reality simulation iPads and Wiki platforms Digital Technology in Physical Education Global Perspectives is a valuable resource for students researchers and practitioners of PE looking to integrate digital technology into their work in a way that does justice to the complexity of teaching and learning

Health Education Katie Fitzpatrick,Richard Tinning,2014-02-05 Health Education Critical perspectives provides a socio cultural and critical approach to health education The book draws together international experts in the fields of health and education who deconstruct contemporary discourses and practices and re imagine a health education that both connects with young people and offers a way forward in addressing issues of health and wellbeing Chapters within specifically link academic work on neoliberalism healthism risk and the body to wider discourses of health and health education They challenge current practices and call for a re thinking of current health programs in education settings A unique feature of this book is the analyses of health education from both political and applied levels across a range of international contexts The book is divided into three sections the social and political contexts informing health education how individual health issues sexuality alcohol mental health the body and obesity nutrition articulate in education in complex ways alternative ways to think about health and health education pedagogy The overall theme of the book offers a perspective that the current approach to health education promoting a fear of ill health self surveillance and individual responsibility can become a form of health fascism and we need to be cognisant of this potential and its consequences for young people The book will be of key interest to academics and researchers exploring the political context of health education

The Female Tradition in Physical Education David Kirk,Patricia Vertinsky,2016-02-12 The Female Tradition in Physical Education re examines a key question in the history of modern education why did the remarkably successful leaders of female physical education who pioneered the development of the subject in late nineteenth and early twentieth century England Canada Australia and New Zealand lose control in the years following the Second World War Despite the later resurgence of second wave feminism they never

regained a voice with the result that male leadership was able to shift the curriculum in ways that neglected the needs and interests of girls and young women Drawing on new sources and a range of historiographical approaches and touching on related fields such as therapeutic exercise and dance the book examines the development of physical education for girls in a number of countries to offer an alternative explanation to the dominant narrative of the demise of the female tradition Providing an important contextualization for the state of contemporary female physical education this is fascinating reading for anybody with an interest in the development of sport and physical education women s and gender history and physical culture more generally

19 Urban Questions Shirley R. Steinberg, 2010 The second edition of 19 Urban Questions Teaching in the City adds new questions to those in the original volume Continuing the developing conversation in urban education the book is provocative in style and rich in detail Emphasizing the complexity of urban education Shirley R Steinberg and the authors ask direct questions about what urban teachers need to know Their answers are guaranteed to generate both classroom discussion and discourse in the field for years to come The book not only addresses questions pertaining directly to today s urban schools but poses new ones for discussion teacher education and urban school research Steinberg has gathered an impressive cadre of teacher scholars who are engaged in a socially just urban pedagogy

Critical Pedagogy for Healing Tricia Kress, Christopher Emdin, Robert Lake, 2021-12-02 This is the first book to explicitly link healing and wellness practices with critical pedagogy Bringing together scholars from Brazil Canada Malta and the USA the chapters combine critical pedagogy and social justice education to reorient the conversation around wellness in teaching and learning Working against white Eurocentric narratives of wellness in schools which focus on the symptoms not the causes of society s sickness the authors argues for a soul revival of education which tackles head on the causes of disease in society from institutional racism colonialism xenophobia and patriarchy The contributors provide fresh perspectives that address short term goals of wellness alongside long term goals of healing in schools and society by attending to underlying causes of social sickness The chapters bridge theory and practice bringing diverse historical and contemporary philosophical discussions around wellness into contact with concrete examples of the interconnections between wellness education and social justice Examples of topics covered include Buddhist practices for healing Black liberation theology hip hop pedagogy anxiety and vulnerability art therapy and story telling

Critical Inquiry and Problem-solving in Physical Education Jan Wright, Lisette Burrows, Doune MacDonald, 2004 This book provides detailed examples of how critical inquiry and problem solving can be used in the teaching of physical education for different age groups and in a range of different contexts

Physical Education Futures David Kirk, 2009-09-10 Can we imagine a future in which physical education in schools no longer exists In this controversial and powerful meditation on physical education David Kirk argues that a number of different futures are possible Kirk argues that multi activity sport based forms of physical education have been dominant in schools since the mid twentieth century and that they have been highly resistant to change The practice of physical

education has focused on the transmission of de contextualised sport techniques to large classes of children who possess a range of interests and abilities where learning rarely moves beyond introductory levels Meanwhile the academicization of physical education teacher education since the 1970s has left teachers less well prepared to teach this programme than they were previously suggesting that the futures of school physical education and physical education teacher education are intertwined Kirk explores three future scenarios for physical education arguing that the most likely short term future is more of the same He makes an impassioned call for radical reform in the longer term arguing that without it physical education faces extinction No other book makes such bold use of history to interrogate the present and future configurations of the discipline nor offers such a wide ranging critique of physical culture and school physical education This book is essential reading for all serious students and scholars of physical education and the history and theory of education Teachers as Health Workers Louise McCuaig, Eimear Enright, Tony Rossi, Doune Macdonald, 2021-12-30 Schooling has long been held responsible for the health and well being of children However against an international background of rising concern about students performance and well being schools and teachers have faced escalating expectations of their health related work While various stakeholders have ideas about what teachers health work entails we know little about teachers contributions engagement and personal satisfaction with this work As teachers work represents a significant national investment insight into the cost benefit of teachers health work is vital to establishing the broader economic contribution of schools to society Teachers as Health Workers offers a critical perspective on these matters documenting the day to day work of Australian teachers as they grapple with the challenges and joys of balancing education and health related responsibilities Whilst shifts in policy economics and globalisation influence localised enactment of teachers health work the economic modelling theorising and methodological innovations of this research address enduring themes and challenges Consequently this book s critical perspective reveals policy practice gaps in government strategies seeking to create a healthy and productive population The book will inform education health and industrial policies and provide direction for teachers initial or ongoing preparation as health workers
