Medieval Heraldry:

Heraldry, Pageantry and Social Display in Medieval England Peter R. Coss, Maurice Keen, 2003 Discussion of display through a range of artefacts and in a variety of contexts family and lineage social distinction and aspiration ceremony and social bonding and the expression of power and authority Medieval culture was intensely visual Although this has long been recognised by art historians and by enthusiasts for particular media there has been little attempt to study social display as a subject in its own right And yet display takes us directly into the values aspirations and indeed anxieties of past societies In this illustrated volume a group of experts address a series of interrelated themes around the issue of display and do so in a way which avoids jargon and overly technical language Among the themes are family and lineage social distinction and aspiration ceremony and social bonding and the expression of power and authority The media include monumental effigies brasses stained glass rolls of arms manuscripts jewels plate seals and coins Contributors MAURICE KEEN DAVID CROUCH PETER COSS CAROLINE SHENTON ADRIAN AILES FR D RIQUE LACHAUD MARIAN CAMPBELL BRIAN and MOIRA GITTOS NIGEL SAUL FIONN PILBROW CAROLINE BARRON and JOHN WATTS Medieval Heraldry Terence Wise, 2012-04-20 Coats of arms were at first used only by kings and princes then by their great nobles But by the mid 13th century arms were being used extensively by the lesser nobility knights and those who later came to be styled gentlemen In some countries the use of arms spread even to merchants townspeople and the peasantry From the mundane to the fantastic from simple geometric patterns to elaborate mythological beasts this fascinating work by Terence Wise explores the origins and appearance of medieval heraldic devices in an engagingly readable style accompanied by numerous illustrations including eight full page colour plates by Richard Hook *A Complete Guide to Heraldry* Arthur Charles Fox-Davies, 2007-05-17 The study of family crests and medieval coats of arms is a science and art steeped in the tradition of familial honor and shaped by the cords of ancestry and origin This book deciphers the world of symbols knights and history bringing back a time when all gentlemen were soldiers and a coat of arms was the most cherished heirloom *Basic Heraldry* Stephen Friar, John Ferguson, 1993 This is an authoritative introduction to a fascinating subject which explains and fully illustrates everything a layman wishes to know about heraldry Copyright Libri GmbH All rights reserved Medieval Heraldry Terence Wise, 1984 *Heralds and Heraldry in the Middle Ages* Anthony Wagner, 1939 **Heraldry, Historical and Popular** Charles Boutell, 1863 **Heraldry in Urban Society** Marcus Meer, 2024-09-19 Heraldry is often seen as a traditional prerogative of the nobility But it was not just knights princes kings and emperors who bore coats of arms to show off their status in the Middle Ages The merchants and craftsmen who lived in cities too adopted coats of arms and used heraldic customs including display and destruction to underline their social importance and to communicate political messages Medieval burgesses were part of a fascination with heraldry that spread throughout pre modern society and looked at coats of arms as honoured signs of genealogy and history Heraldry in Urban Society analyses the perceptions and

functions of heraldry in medieval urban societies by drawing on both English and German language sources from the late fourteenth to the early sixteenth centuries Despite variations that point to socio political differences between cities and their citizens in the relatively centralized monarchy of medieval England and the more independent minded urban governments found in the less closely connected Holy Roman Empire urban heraldry emerges as a versatile and ubiquitous means of multimedia visual communication that spanned medieval Europe Urban heraldic practices defy assumptions about clearly demarcated social practices that belonged to high noble as opposed to low urban culture Townspeople s perceptions of coats of arms paralleled those of the nobility as they readily interpreted and carefully curated them as visual expressions of identity These perceptions allowed townspeople of all ranks as well as noble outsiders to use heraldry and its display along with its defacement and destruction in manuscripts spaces such as town houses public monuments halls and churches and performances like processions and joyous entries to address perennial problems of urban society in the Middle Ages The coats of arms of burgesses guilds and cities were communicative means of individual and collective representation social and political legitimization conducting and resolving conflicts and the pursuit of elevated status in the urban hierarchy Likewise heraldic communication negotiated the all important relationship between the city and wider extramural society from the commercial interests of citizens to their collective ties to the ruler
