

domain" (*Diversity and Community*, p. 22). There are discussions of "The Role of Art in Sustaining Communities," of popular culture ("Images of Community in American Popular Culture"), of virtual communities (which includes an interesting discussion of the construction of Chinatowns by Gary Y. Okihiro), as well as a noteworthy critique by Mary Hawkesworth of the traditional conception of the university as in some sense an ideal community.

Diversity and Community certainly makes for good, if varied, reading, and in that sense it is true to an interdisciplinarian concept that seeks to showcase a variety of theoretical approaches and concerns. *Identities* does that as well, but the editors there have also succeeded at providing a tool to assist and foster cross-disciplinary exchanges.

The Mediocracy: French Philosophy since 1968

DOMINIQUE LECOURT

Translated by GREGORY ELLIOT

New York: Verso, 2001, v + 240 pp., \$25.00

This volume actually contains two polemical works that denounce the abdication of French intellectuals/philosophers from their responsibility in finding ways to promote and continue the struggle for political and social emancipation. The first was published in 1999 and entitled *Les piètres penseurs* (The Mediocre Thinkers), a parodic reference to André Glucksmann's *Les maîtres penseurs* (The Master Thinkers) of 1977, a classic text of the then-emerging New Philosophers who loudly proclaimed their rejection of "Marxist philosophy." The second text, originally published in 1978 and entitled *Dissidence or Revolution?*, was Lecourt's first denunciation of the rise of these New Philosophers and their particular brand of reductivist philosophizing. Included as an appendix here, it nevertheless comprises a third of this volume and the juxtaposition of the two texts provides an interesting and timely commentary on the evolution of what might be called mainstream or public philosophizing in France over the last twenty-five years. (The book itself, however, seems to have been put together somewhat hastily, given that the subtitle on the outside cover reads "French Philosophy since 1968," while the inside title page reads "French Philosophy since the mid-1970s." This latter formulation more accurately reflects the target of Lecourt's polemic.)

In the preface to this English edition, Lecourt expresses satisfaction with the translator's choice of the term "mediocracy" because it neatly captures the mediocrity he wishes to denounce along with its complicity with the complaisant media that does nothing to challenge contemporary social conditions. Concerning the re-issue of his earlier work, he expresses his embarrassment with its "stereotyped language" and "overdose of 'class' terminology," not because it betrays his Marxist commitments, but because "at the prompting of my chosen adversaries, in reality I was content to frame my philosophical analysis in a rather conventional geopolitical perspective, which I set against theirs," instead of practising what he preached, which would have involved "the rectification of Marxist concepts in and through their confrontation with the concrete" (p. xi).
