J. Stewart, 2003 The Miracle Tree offers a revolutionary new approach to the Tree of Life from a leading author who has practiced Western Qabalah for more than 30 years R J Stewart uses one simple premise we are already the Tree of Life Written in plain English without exotic terminology no background in Victorian occultism is necessary to use this book Many of the practical exercises and forms within are the result of years of spiritual exploration in a hallowed tradition and have never been published before Because the word Qabalah originally meant an oral tradition the voice of this book is that of a teacher talking with a group of students the readers without elitism obscurity or willful secrecy Some secret techniques are described including Withdrawal from Time The Qabalah of the Three Suns Walking Participation and entering the Inner Temple traditions These techniques produce powerful and rapid results when the student practices them regularly They work directly within us reaffirming the truth that we are already the Miracle Tree Another unique and groundbreaking feature of this book is that the author traces the sources of Tree of Life meditations and visions through medieval times in Europe He demonstrates a verifiable historical origin for Tree of Life practices that substantially predates the standard texts usually assumed to be the origins of Qabalah in the West Book jacket The Blaise Conjunction Richard Leviton, 2013-07 The councilors had placed a book upon the table its cover pale blue edged in silver The title was The Theosophon They slid it towards me Philomena Wilcox Ph D retired professor of music pianist passionate devotee of Russian composers like Scriabin and Rachmaninov thinks she is merely editing a series of prolix journals by the desert recluse Blaise One day in 2029 she

took delivery of 7 000 pages of his arcane diary entries spanning a 20 year period His story what he thinks and writes about is exceedingly odd mystical and perplexing He is anticipating a planetary event to take place in 2033 Soon enough Philomena discovers she impossibly is part of this story in fact will be a keystone in this epochal event It s as if through the journal pages Blaise talks directly to her and pulls her into his world of wisdom angels geomantic patterns and designer planets The pages are encoded with activation triggers Over a three year period she starts to remember her true story her astonishing past It s a nonstop tutorial in the Mysteries Taught by the human Blaise and his angelic mentors also called Blaise seemingly right now in the present moment Except upwards of 35 years or more separate them in the world of linear time Her familiar world starts to fall apart The event is called the Theosophon Blaise writes about it but she designed it That s startling enough but Philomena is astonished to remember that she designed it eons ago in another galaxy The Earth was created as a performance stage for it The Theosophon is a multidimensional musical event involving the collective consciousness of humanity the Earth and the spiritual world The overture of the fulfillment of the purpose of the Earth and humanity Yes Philomena is an integral part of this unique event but it will cost her more than she ever thought possible **Sacred Dance**
