The Logic of Love Andrew J. B. Cameron,2022-12-29 Overviewing what makes the intersection between emotion and ethics so confusing this book surveys an older wisdom in how to manage it using a range of Christian theologians and sources More important even than managing we begin to see a vision for a better set of affections to grow within and among us In this vision emerges a practical and nuanced account of what the Christian tradition sometime summarises as love How may we recover a deep affection for what matters both within ourselves and together in groups This book also dialogues with a new movement in moral psychology social intuitionism Cameron argues that researchers in this discipline have interests and conclusions that sometimes overlap with Christian sources even where their respective lenses differ In this way the book overviews recent trends in moral psychology against a recent historical and contemporary cultural backdrop whilst assaying major sources in Christian theology that offer guidance on moral psychology

Debates and Issues in Feminist Research and Pedagogy Janet Holland, Maud Blair, Sue Sheldon, 1995 The articles in this book engage with practical issues relating to teaching and research The way in which gender and education is theorized is currently in a period of profound change and this presents a major challenge to feminist teachers who want to translate explanations for gender relations into transformative action in the classroom Several of the authors in this collection consider the possibilities and practicalities of transformative feminist pedagogies identifying the pedagogic moments into which challenge and change can be introduced without distorting or denying the students experience Another section contains articles which present the results of classroom research dealing with issues of class gender race and sexuality We can see from the results of these recent studies that class race and gender continue to position students differently throughout the whole school and the entire curriculum Research on teacher education reported here indicates that gender differences are produced and reproduced in that context A final section of the book deals with the ongoing and lively debate on feminist methodology and epistemology indicating the variety of approaches and positions that are being taken up in this area

The Ministry, Vol. 11, No. 02 Various Authors, 2007-02-01 This issue of The Ministry contains a complete record of the nine messages given during the International Training for Elders and Responsible Ones held in Whistler British Columbia Canada October 5 7 2006 The general subject of the training was *Shepherding the Flock of God* These messages are a continuation of the training given in the spring of 2006 see The Ministry Vol 10 No 5 The burden of these messages is not about the technique of shepherding but about what we are in our person and how we behave in the church This is according to Paul's word to the elders in Ephesus in Acts 20 He said Take heed to yourselves and to all the flock v 28 We first need to take care of ourselves to be shepherded in our own person before we take care of all the flock Messages 1 and 2 show us that our shepherding must be according to the plan of God and the word of God according to the teaching of the apostles and according to God These form the basis of our shepherding Messages 3 5 and 7 show us that our shepherding is in our living by the grace of God in an organic way according to His initiation and with our cooperation and in dealing with peculiarity These are the conditions of our shepherding Messages 4 6 and 8 show us that our goal must be to shepherd the saints into the faith of the truth into a life of living through dying and into a life of prayer for the organic practice of the God

ordained way in the vital groups Finally in Message 9 if the elders are constituted with the basis the conditions and the goal of shepherding the flock of God will be shepherded to know the Body of Christ May the Lord speak to us His light shedding and life imparting word Last of all we include letters and reports concerning the recent gospel move in the Russian speaking world Narcissism and the Literary Libido Marshall W. Alcorn Jr.,1997-07-01 What is it that makes language powerful This book uses the psychoanalytic concepts of narcissism and libidinal investment to explain how rhetoric compels us and how it can effect change The works of Joseph Conrad James Baldwin Michael Foucault Jacques Derrida Arthur Miller D H Lawrence Ben Jonson George Orwell and others are the basis of this thoughtful exploration of the relationship between language and subject Bringing together ideas from Freudian post Freudian Lacanian and post structuralist schools Alcorn investigates the power of the text that underlies the reader response approach to literature in a strikingly new way He shows how the production of literary texts begins and ends with narcissistic self love and also shows how the reader s interest in these texts is directed by libidinal investment Psychoanalysts psychologists and lovers of literature will enjoy Alcorn s diverse and far reaching insights into classic and contemporary writers and thinkers **The Arts Public in the South** ,1984 Combining and integrating the results of two separate research projects concerned with leisure time participation this report compared southern and non southern involvement in arts related activities Findings indicated that while some regional differences do exist they are not great The desire to increase arts related activities is not as strong as the desire to increase less focused leisure activities but there appears to be a strong unmet demand for increased opportunities to participate in arts related programs including both visual and performing arts While southerners cite cost and accessibility as barriers to participation non southerners mention lack of time Achieved educational levels and prior exposure to the arts are significantly related to arts participation rates Singing in a chorus is the activity in which southerners are most clearly differentiated from the non southern population in terms of greater participation and demand Lack of talent was cited by southerners as a reason for non participation in contrast to non southerners response of lack of training Leisure pursuits of most southerners are not related to the type of work they do While the best predictor of current levels of participation is prior participation this factor was not confirmed with respect to the desire to increase participation in the future Seven tables and 24 figures are included JHP

Kornwachs, Hans-Jörg Bullinger, Hans-Jürgen Warnecke, 2013-12-14 The International Conference on Production Research has a good tradition The first Conference was held in Birmingham 1971 with 61 participants With respect to the decision that the Conference should be held every second year by this time the Conference has been held in the following countries Birmingham 1971 UK Copenhagen 1973 Denmark Amhurst 1975 USA Tokyo 1977 Japan Amsterdam 1979 The Netherlands Novi Sad 1981 Yugoslavia Windsor 1983 Canada Stuttgart 1985 Germany and the next Conference will take place in Cincinnati 1987 USA The number of submitted abstracts and papers was continuously increasing such that the Programme Committee of this actual 8th Conference on Production Research has been forced to introduce a further refereeing procedure Each submitted abstract was presented to at least two referees This resulted not only in a reduction of the number of presented full papers and poster contributions but as the Programme Committee and the Editors hope it led also to a considerable increase in the scientific quality of this 8th International Conference on Production Research The preceding conference in Windsor Canada was dedicated to the topic Production Research as a Means of Productivity Improvement We don't believe that this statement has become untrue in the meanwhile
