**Companies that Mimic Life** Joseph H. Bragdon,2017-09-08 Industrial capitalism is broken The signs which transcend national ideologies are everywhere climate change ecological overshoot financial exhaustion fraying social safety nets corporate fraud government deceit civic unrest terrorism and war But there is hope This book tells how

transformation is taking root in the corporate world the last place many of us would look for solutions The book tells the stories of seven exceptional companies Their shared secret is a new mental model of the firm that is the virtual opposite of industrial capitalism Each company if not already a household name is a significant player within their industry and crucially has outperformed their competitors Lessons can be learned It works like this Instead of modeling themselves on the assumed efficiency of machines a thought process that emerged during the industrial age these firms model themselves on living systems Firms with open ethical inclusive traditions where employees have a voice and a stake in what happens have a distinct advantage over traditionally managed companies where most decisions are made at the top Understanding that everything of value ultimately arises from life they place a higher value on living assets people and Nature than they do on non living capital assets The energy they invest in stewarding those assets a practice described in the book as living asset stewardship LAS is transformative
