Road Vehicles Of The Great Western Railway:

Road Vehicles of the Great Western Railway Philip J. Kelley, 1973 Great Western Railway Road Vehicles Bill Aldridge, Alan Earnshaw, 2000 An illustrated history of the commercial vehicles operated by the Great Western Railway from 1904 to 1947 It also includes Great Western Railway buses up to 1928 Great Western Railway Road Vehicles Philip J. Kelley, 2002 From the early years of the 20th century onwards the railway industry was among the most important sectors of the British economy to investigate and develop the use of road transport for both passenger and freight traffic The factors behind this involvement were varied but included the fact that as Common Carrier the railways were legally obligated to carry all freight and therefore needed to be able to shift goods and materials from factory to freight yard and vice versa There was also an increasing awareness that as the population shifted no longer would it be cost effective or profitable to continue to expand the railway endlessly and that buses even the most primitive types available at the time represented a useful means of linking small villages to the nearest railway station The GWR was at the forefront of these developments and by the time it had disappeared as a separate entity in 1948 has amassed a large fleet of road transport vehicles both for passenger and freight traffic Philip Kelley undertook years of research to compile the material that was originally published by OPC in two volumes over 20 years ago Now much more information concerning these vehicles has come to light and this all new book is the result Incorporating material from the earlier two books but with all information expanded and reinterpreted this will now become the definitive guide to the subject Full of photographs line drawings and other reference material for modellers and historians this is an excellent addition to OPC s extensive range of books on the GWR The Great Western Railway in the First World War Sandra Gittins, 2010-08-16 In August 1914 the GWR was plunged into war the like of which this country had never experienced before Over the years that followed life changed beyond measure both for the men sent away to fight and the women who took on new roles at home Not since 1922 has the history of the GWR in the First World War been recorded in a single volume Using modern data bases and enjoying greater access to archives Sandra Gittins has been able to produce a complete history which traces the GWR from the early optimistic days through the subsequent difficult years of the Great War including Government demands for war manufacture increased traffic and the tragic loss of staff From GWR ships and ambulance trains to the employment of women every part of the story is told including the saddest of all which is represented by a Roll of Honour A History of the Great Western Railway Colin Maggs, 2013-09-15 A narrative history of the most iconic railway company of the great age of steam **The Steam Rail Motors of the Great Western Railway** Ken Gibbs, 2015-06-01 Self propelled carriages were a major innovation at the beginning of the twentieth century and the GWR was quick to develop a large number of steam motor cars to link farms and scattered villages across the South West to the new branch lines Their steam motor cars ran from 1903 to 1935 stopping during the war and were so effective at making rural areas accessible they became victims of their own success Wagons

brought in to meet the high demand proved too heavy for the carriages and they struggled on hills Soon the steam rail motor services were in decline After its cancellation all ninety nine steam carriages were eventually scrapped Engineer Ken Gibbs reveals the unique GWR carriages a window into early twentieth century transport and the modern replica he helped build now the only way of viewing these charming historic vehicles [The Great Western Railway Volume Four North & West Route](#) Stanley C.
