Robert Frank, 1985 **Photography and Jewish History** Amos Morris-Reich, 2022-11-15 It is a sign of the accepted evidentiary status of photographs that historians regularly append them to their accounts Amos Morris Reich observes Very often however these photographs are treated as mere illustrations simple documentations of the events that transpired Scholars of photography on the other hand tend to prioritize the photographs themselves relegating the historical contexts to the background For Morris Reich however photography exists within reality it partakes in and is very much a component of the history it records Morris Reich examines how photography affects categories of history and experience how it is influenced by them and the ways in which our understanding of the relationship between history and photography can be theorized and reoriented Morris Reich here turns to five twentieth century cases in which photography and Jewish history intersect Albert Kahn's utopian attempt to establish a photographic archive in Paris in order to advance world peace the spectacular failed project of Helmar Lerski the most prominent photographer in British Mandate Jewish Palestine photography in the long career of Eugen Fischer a Nazi professor of genetics the street photography of Robert Frank and the first attempt to introduce photography into the study of Russian Jewry prior to World War I as seen from the post Holocaust perspective of the early twenty first century Illustrated with nearly 100 images *Photography and Jewish History* moves beyond a focus on Jewish photographers or the photographic representation of Jews or Jewish visibility to plumb the deeper

and more significant registers of twentieth century Jewish political history **Robert Frank's The Americans** ,2009

Handbook of Autobiography / Autofiction Martina Wagner-Egelhaaf,2019-01-29 Autobiographical writings have been a major cultural genre from antiquity to the present time General questions of the literary as e g the relation between literature and reality truth and fiction the dependency of author narrator and figure or issues of individual and cultural styles etc can be studied preeminently in the autobiographical genre Yet the tradition of life writing has in the course of literary history developed manifold types and forms Especially in the globalized age where the media and other technological cultural factors contribute to a rapid transformation of lifestyles autobiographical writing has maintained even enhanced its popularity and importance By conceiving autobiography in a wide sense that includes memoirs diaries self portraits and autofiction as well as media transformations of the genre this three volume handbook offers a comprehensive survey of theoretical approaches systematic aspects and historical developments in an international and interdisciplinary perspective While autobiography is usually considered to be a European tradition special emphasis is placed on the modes of self representation in non Western cultures and on inter and transcultural perspectives of the genre The individual contributions are closely interconnected by a system of cross references The handbook addresses scholars of cultural and literary studies students as well as non academic readers Camera Constructs Andrew Higgott,Timothy Wray,2016-12-05 Photography and architecture have a uniquely powerful resonance architectural form provides the camera with the subject for some of its most compelling imagery while photography profoundly influences how architecture is represented imagined and produced Camera Constructs is the first book to reflect critically on the varied interactions of the different practices by which photographers artists architects theorists and historians engage with the relationship of the camera to architecture the city and the evolution of Modernism The title thus on the one hand opposes the medium of photography and the materiality of construction but on the other can be read as saying that the camera invariably constructs what it depicts the photograph is not a simple representation of an external reality but constructs its own meanings and reconstructs its subjects Twenty three essays by a wide range of historians and theorists are grouped under the themes of Modernism and the Published Photograph Architecture and the City Re imagined Interpretative Constructs and Photography in Design Practices They are preceded by an Introduction that comprehensively outlines the subject and elaborates on the diverse historical and theoretical contexts of the authors approaches Camera Constructs provides a rich and highly original analysis of the relationship of photography to built form from the early modern period to the present day **Walker Evans** Judith Keller,1995-11-02 Walker Evans is widely recognized as one of the greatest American photographers of the twentieth century and the J Paul Getty Museum owns one of the most comprehensive collections of his work including more of his vintage prints than any other museum in the world This lavishly illustrated volume brings together for the first time all of the Museum s Walker Evans holdings Included here are familiar images such as Evans s photographs of tenant farmers and their families

made in the 1930s and later published in *Let Us Now Praise Famous Men* and images that are much less familiar such as the photographs Evans made in the 1940s of the winter quarters of the Ringling Brothers circus or his very late Polaroids made in the 1970s. In addition many previously unpublished Evans photographs and variant croppings of classic images appear here for the first time. Author Judith Keller has written a lively informative text that places these photographs in the larger context of Evans's life and career and the culture especially the popular culture of the time. In so doing she has produced an indispensable volume for anyone interested in the history of photography or American culture in the twentieth century. Also included is the most comprehensive bibliography on Walker Evans published to date.

Robert Johnson Barry Lee Pearson, Bill McCulloch, 2010-10-01 Even with just forty one recordings to his credit Robert Johnson 1911-38 is a towering figure in the history of the blues. His vast influence on twentieth century American music combined with his mysterious death at the age of twenty seven still encourage the speculation and myth that have long obscured the facts about his life. The most famous legend depicts a young Johnson meeting the Devil at a dusty Mississippi crossroads at midnight and selling his soul in exchange for prodigious guitar skills. Barry Lee Pearson and Bill McCulloch examine the full range of writings about Johnson and weigh the conflicting accounts of Johnson's life story against interviews with blues musicians and others who knew the man. Their extensive research uncovers a life every bit as compelling as the fabrications and exaggerations that have sprung up around it. In examining the bluesman's life and music and the ways in which both have been reinvented and interpreted by other artists, critics and fans *Robert Johnson: Lost and Found* charts the cultural forces that have mediated the expression of African American artistic traditions.
