Robert Frost Four Studies:

Robert Frost Roger D. Sell, 1980 Robert Frost and Feminine Literary Tradition Karen L. Kilcup, 1998 Uncovers heretofore overlooked influences and connections in the evolution of Frost's poetry *The Robert Frost Encyclopedia* Nancy L. Tuten, John Zubizarreta, 2000-12-30 Often thought of as the quintessential poet of New England Robert Frost is one of the most widely read American poets of the 20th century He was a master of poetic form and imagery his works seemed to capture the spirit of America and he became so emblematic of his country that he read his work at President Kennedy's inauguration and traveled to Israel Greece and the Soviet Union as an emissary of the U S State Department While many readers think of him as the personification of New England he was born in San Francisco published his first book of poetry in England matured as a poet while abroad taught for several years at the University of Michigan and spent many of his winters in Florida This reference helps illuminate the hidden complexities of his life and work Included in this volume are hundreds of alphabetically arranged entries on Frost's life and writings Each of his collected poems is treated in a separate entry and the book additionally includes entries on such topics as his public speeches various colleges and universities with which he was associated the honors that he won his biographers films about him poets and others whom he knew and similar items Each entry is written by an expert contributor and closes with a brief bibliography The volume also provides a chronology and concludes with a general bibliography of major studies A Humanizing Literary Pragmatics Roger D. Sell, 2019-10-24 In much of his earlier work Roger D Sell was shaping literary studies historical perspectives and pragmatics into a fluent interdisciplinarity This enabled him to explore the fundamentally human relationships which develop between literary writers and those who respond to them Literary writers through their handling of deixis evaluative and modal expressions tellability politeness norms and genre expectations activate the same interpersonal function of language as do other language users and respondents hermeneutic contextualizations of literary texts are no less standard as a pragmatic procedure Not that context is completely determinative In Sell's account human beings are profoundly influenced by society but can sometimes enter into co adaptations with it Like other people literary writers and their respondents are social individuals who themselves benefit from respecting each other's relative autonomy As well as explaining these theoretical positions the papers selected here offered critical re assessments of some major writers including Chaucer and Dickens They also suggested new ways of dealing with literary texts in literary and language education at all levels **Mediating Criticism** Roger D. Sell, 2001 In the twentieth century literature was under threat Not only was there the challenge of new forms of oral and visual culture Even literary education and literary criticism could sometimes actually distance novels poems and plays from their potential audience This is the trend which Roger D Sell now seeks to reverse Arguing that literature can still be a significant and democratic channel of human interactivity he sees the most helpful role of teachers and critics as one of mediation Through their own example they can encourage readers to empathize with otherness to recognize the historical

achievement of significant acts of writing and to respond to literary authors own faith in communication itself By way of illustration he offers major re assessments of five canonical figures Vaughan Fielding Dickens T S Eliot and Frost and of two fascinating twentieth century writers who were somewhat misunderstood the novelist William Gerhardie and the poet Andrew Young

Sixteen Modern American Authors Jackson R. Bryer, 1990 Praise for the earlier edition Students of modern American literature have for some years turned to *Fifteen Modern American Authors* 1969 as an indispensable guide to significant scholarship and criticism about twentieth century American writers In its new form *Sixteenth Modern American Authors* it will continue to be indispensable If it is not a desk book for all Americanists it is a book to be kept in the forefront of the bibliographical compartment of their brains

American Studies *Humane Readings* Jason Finch, Martin Gill, Anthony Johnson, Iris Lindahl-Raittila, Inna Lindgren, Tuija Virtanen, Brita Wårvik, 2009-12-10 Since the 1980s Roger D Sell s literary criticism has striven to take account of the often conflicting approaches available without compromising the human importance of the literary work either in terms of its creation or its reception Sell s theory of literature draws strength from the interface between literary studies and linguistics and is grounded on the argument that literary making is a primary communicational act between human beings Other critics have found Sell s work inspirational This book both responds to Sell s ideas and demonstrates the multifaceted potential of his work Aware of his trajectory through Literary Pragmatic Humanizing and Mediating criticism *Humane Readings* offers a series of original and focused studies which demonstrate the power provenance and importance of Sell s approach Ranging in subject matter from the Early Modern Period to the present a reconfiguration of literary criticism by contemporary readers and practitioners is urged here Case studies are presented on a range of poetic novelistic dramatic and children s works Each illuminates different aspects of Sell s critical thought

Literature as Communication Roger D. Sell, 2000-01-01 This book offers foundations for a literary criticism which seeks to mediate between writers and readers belonging to different historical periods or social groupings This makes it among other things a timely intervention in the postmodern culture wars though the theory put forward will be of interest not only to students of literature and culture but also to linguists Sell describes communication in general as strongly interactive as very much affected by the disparate situationalities of sending and receiving yet as by no means completely determined by them Seen this way men and women are both social beings and individuals capable of empathizing with sociohistorical formations which are alien to them sometimes even to the extent of changing their own life world By treating literary activity as communicational in this same dynamic sense Sell radically modifies the main paradigms of twentieth century literary theory casting much new light on questions of genre interpretation affect and ethics
