Index, The Papers of the Continental Congress, 1774-1789: Aachen - East Twinsey ,1978 **Host Bibliographic Record for Boundwith Item Barcode 30112053159395 and Others** ,1895 *The Papers of Alexander Hamilton* Alexander Hamilton, Harold Coffin Syrett, Jacob Ernest Cooke, 1961 This book explores the puzzling phenomenon of new veiling practices among lower middle class women in Cairo Egypt Although these women are part of a modernizing middle class they also voluntarily adopt a traditional symbol of female subordination How can this paradox be explained An explanation emerges which reconceptualizes what appears to be reactionary behavior as a new style of political struggle as accommodating protest These women most of them clerical workers in the large government bureaucracy are ambivalent about working outside the home considering it a change which brings new burdens as well as some important benefits At the same time they realize that leaving home and family is creating an intolerable situation of the erosion of their social status and the loss of their traditional identity The new veiling expresses women s protest against this MacLeod argues that the symbolism of the new veiling emerges from this tense subcultural dilemma involving elements of both resistance and

acquiescence *Alexander Hamilton: The Formative Years* Michael E. Newton, 2015-07-01 Even though Alexander Hamilton was among the most important Founding Fathers less is known about his early life than that of any other major Founder. Relatively few records have been found regarding Hamilton's birth, childhood and origins in the West Indies. Alexander Hamilton rarely dwelt upon his personal history and never recorded his life's story. Most of Hamilton's correspondence prior to 1777 was lost during the American Revolution. This has resulted in many gaps in Alexander Hamilton's biography which has given rise to much conjecture regarding the details of his life. Relying on new research and extensive analysis of the existing literature, Michael E. Newton presents a more comprehensive and accurate account of Alexander Hamilton's formative years. Despite being orphaned as a young boy and having his birth be the subject of the most humiliating criticism, Alexander Hamilton used his intelligence, determination and charisma to overcome his questionable origins and desperate situation. As a mere child, Hamilton went to work for a West Indian mercantile company. Within a few short years, Hamilton was managing the firm's St. Croix operations. Gaining the attention of the island's leading men, Hamilton was sent to mainland North America for an education where he immediately fell in with the country's leading patriots. After using his pen to defend the civil liberties of the Americans against British infringements, Hamilton took up arms in the defense of those rights. Earning distinction in the campaign of 1776-77 at the head of an artillery company, Hamilton attracted the attention of General George Washington who made him his aide de camp. Alexander Hamilton was soon writing some of Washington's most important correspondence, advising the commander in chief on crucial military and political matters, carrying out urgent missions, conferring with French allies, negotiating with the British and helping Washington manage his spy network. As Washington later attested, Hamilton had become his principal and most confidential aid. After serving the commander in chief for four years, Hamilton was given a field command and led the assault on Redoubt Ten at Yorktown, the critical engagement in the decisive battle of the War for Independence. By the age of just twenty-five, Alexander Hamilton had proven himself to be one of the most intelligent, brave, hard-working and patriotic Americans. *Alexander Hamilton: The Formative Years* tells the dramatic story of how this poor immigrant emerged from obscurity and transformed himself into the most remarkable Founding Father. In riveting detail, Michael E. Newton delivers a fresh and fascinating account of Alexander Hamilton's origins, youth and indispensable services during the American Revolution. Rutledge, 2013-04-26 Just as Africa and the West have traditionally fit into binaries of Darkness/Enlightenment, Savage/Modern, Ugly/Beautiful and Ritual/Art, among others, much of Western cultural production rests upon the archetypal binary of Trickster/Epic, with trickster aesthetics and commensurate cultural forms characterizing Africa. Challenging this

binary and the exceptionalism that underlies anti hegemonic efforts even today this book begins with the scholarly foundations that mapped out African trickster continuities in the United States and excavated the aesthetics of traditional African epic performances Rutledge locates trickster like capacities within the epic hero archetype the epic trickster paradigm and constructs an Homeric Diaspora which is to say that the modern Homeric performance foundation lies at an absolute time and distance away from the ancient storytelling performance needed to understand the cautionary aesthetic inseparable from epic potential As traditional epic performances demonstrate unchecked epic trickster dynamism anticipates not only brutal imperialism and creative diversity but the greatest threat to everyone an eco apocalypse Relying upon the preeminent scholarship on African American trickster heroes traditional African heroic performances and cultural studies approaches to Greco Roman epics Rutledge traces the epic trickster aesthetic through three seminal African American novels keenly attuned to the American Homeric Diaspora Charles Chesnutt s *The Marrow of Tradition* Richard Wright s *Native Son* and Toni Morrison s *Beloved*
