Robert Lowell A Reference Guide:

Robert Lowell, a Reference Guide Steven Gould Axelrod, Helen Deese, 1982 **Robert Lowell, a Reference Guide** Steven Gould Axelrod, Helen Deese, 1982 Robert Lowell Steven Axelrod, Helen Deese, 1986 Robert Lowell is one of the most widely recognised and influential poets of the second half of this century Yet his career is problematical and raises many questions about direction and quality particularly in light of his repeated reorientation of thematic concern and poetic technique Many previous studies of the poet have accounted for these radical differences in Lowell's work by examining the poet's private life but this collection of essays attempts to reassess Lowell's poetry and to restimulate critical thinking about it by focusing on his texts to raise new questions and discussions about the work The twelve essays in this volume by many of the most distinguished scholars in the field offer a chronological review of Robert Lowell's career as a poet The book includes pieces on major works such as Lord Weary's Castle Life Studies For the Union Dead Skunk Hour Notebook the sonnets of 1969-73 as well as four essays devoted to Lowell's last complete and often neglected work Day by Day Employing a variety of methodologies the essays arrive at innovative and often controversial interpretations of Lowell's poems **Robert Lowell ,**

The Cambridge Companion to Elizabeth Bishop Angus Cleghorn, Jonathan Ellis, 2014-02-17. Elizabeth Bishop is increasingly recognized as one of the twentieth century's most important and original poets. Initially celebrated for the minute detail of her descriptions, what John Ashbery memorably called her "thinginess," Bishop's reputation has risen dramatically since her death, in part due to the publication of new work including letters, stories, and visual art, as well as a controversial volume of uncollected poems, drafts, and fragments. This Companion engages with key debates surrounding the interpretation and reception of Bishop's writing in relation to questions of biography, the natural world, and politics. Individual chapters focus on texts such as *North and South*, *Questions of Travel*, and *Geography III*, while offering fresh readings of the significance of Nova Scotia, Massachusetts, and Brazil to Bishop's life and work. This volume explores the full range of Bishop's artistic achievements and the extent to which the posthumous publications have contributed to her enduring popularity.

Robert Lowell in a New Century Thomas Austenfeld, 2019. New essays providing fresh insights into the great 20th-century American poet Lowell, his writings, and his struggles.

American Poetry since 1945 Eleanor Spencer-Regan, 2017-09-16. This book features a collection of essays on some of the key poets of post-war America, written by leading scholars in the field. All the essays have been newly commissioned to take account of the diverse movements in American poetry since 1945 and also to reflect retrospectively on some of the major talents that have shaped its development. In the aftermath of the Second World War, American poets took stock of their own tumultuous past but faced the future with radically new artistic ideals and commitments. More than ever before, American poetry spoke with its own distinctive accents and declared its own dreams and desires. This is the era of confessionalism, beat poetry, protest poetry, and avant-garde postmodernism. This book explores the work of John Berryman, Robert Lowell, Elizabeth Bishop, Adrienne Rich, and Sylvia Plath.

as well as contemporary African American poets and new poetic voices emerging in the 21st century This New Casebook introduces the major American poets of the post war generation evaluates their achievements in the light of changing critical opinion and offers lively incisive readings of some of the most challenging and enthralling poetry of the modern era

The Architecture of Address Jake Adam York, 2004-05 The Architecture of Address traces the evolution of an American species of lyric capable of public pronouncement without polemic Beginning with Whitman Jake Adam York seeks to describe a kind of poem wherein the most ambitious poets including Hart Crane and Robert Lowell occupy and reconstruct important public spaces This study argues that American poets become civic actors when their poems imagine and reconstruct the conceptual architecture of the monument

Walford's Guide to Reference Material: Generalia, language and literature, the arts Albert John Walford, Marilyn Mullan, Priscilla Schlicke, Library Association, 1996 From its first edition the purpose of Walford has been to identify and evaluate the widest possible range of reference materials No rigid definition of reference is applied In addition to the expected bibliographies indexes dictionaries encyclopaedias and directories a number of important textbooks and manuals of general practice are included While the majority of the items are books Walford is a guide to reference material Thus periodical articles microforms online and CD ROM sources are all represented In this volume a particular effort has been made to improve coverage of the latter two categories

Shades of Authority Stephen James, 2007-10-01 What is the relationship between poetry and power Should poetry be considered a mode of authority or an impotent medium And why is it that the modern poets most commonly regarded as authoritative are precisely those whose works wrestle with a sense of artistic inadequacy Such questions lie at the heart of this study prompting fresh insights into three of the most important poets of recent decades Robert Lowell Geoffrey Hill and Seamus Heaney Through attentive close reading and the tracing of dominant motifs in each writer's works James shows how their responsiveness to matters of political and cultural import lends weight to the idea of poetry as authoritative utterance as a medium for speaking of and to the world in a persuasive memorable manner And yet as James demonstrates each poet is exercised by an awareness of his own cultural marginality even by a sense of the limitations and liabilities of language itself

The Critical Response to Robert Lowell Steven G. Axelrod, 1999-06-30 From the publication of his first major volume in 1946 Lord Weary's Castle to a few years before his death in 1977 Robert Lowell held sway as the premier English language poet of his time Lord Weary's Castle seemed to push poetic language and cultural critique in exciting new directions yet they were directions sanctioned by the New Criticism of his time In 1959 Lowell's Life Studies dramatically broke the very traditions he had previously revitalized During the 1960s his works elaborated his new poetic mode and engaged with personal political and historical issues But with the 1973 publication of his poetic trilogy History For Lizzie and Harriet and The Dolphin his reputation suffered Though his final work the autobiographical Day by Day published shortly before his death in 1977 was favorably received critics continued to attack him in the decades that followed Thus Lowell's reputation as this volume makes clear has fluctuated and

at the close of the twentieth century there is still no critical consensus about any aspect of his work This book provides a representative sample of the critical discourse concerning Lowell s poetry drama and prose and shows that discourse at its most varied and vital An introductory essay surveys the response to Lowell s writings The first three sections then track Lowell s volumes chronologically Most of his books receive one or two reviews followed by several scholarly essays arranged in the order of their publication Along with the reprinted articles are two essays written specifically for this volume The fourth section presents several broad overviews of Lowell and his works and an extensive bibliography of primary and secondary sources concludes the book The volume also contains an essay by Lowell himself in which he reflects on his career
