significance of Lowell's most recent work Originally published in 1970 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

The Critical Response to Robert Lowell Steven G. Axelrod,1999-06-30 From the publication of his first major volume in 1946 *Lord Weary's Castle* to a few years before his death in 1977 Robert Lowell held sway as the premier English language poet of his time *Lord Weary's Castle* seemed to push poetic language and cultural critique in exciting new directions yet they were directions sanctioned by the New Criticism of his time In 1959 Lowell's *Life Studies* dramatically broke the very traditions he had previously revitalized During the 1960s his works elaborated his new poetic mode and engaged with personal political and historical issues But with the 1973 publication of his poetic trilogy *History For Lizzie and Harriet* and *The Dolphin* his reputation suffered Though his final work the autobiographical *Day by Day* published shortly before his death in 1977 was favorably received critics continued to attack him in the decades that followed Thus Lowell's reputation as this volume makes clear has fluctuated and at the close of the twentieth century there is still no critical consensus about any aspect of his work This book provides a representative sample of the critical discourse concerning Lowell's poetry drama and prose and shows that discourse at its most varied and vital An introductory essay surveys the response to Lowell's writings The first three sections then track Lowell's volumes chronologically Most of his books receive one or two reviews followed by several scholarly essays arranged in the order of their publication Along with the reprinted articles are two essays written specifically for this volume The fourth section presents several broad overviews of Lowell and his works and an extensive bibliography of primary and secondary sources concludes the book The volume also contains an essay by Lowell himself in which he reflects on his career

Shades of Authority Stephen James,2007-10-01 What is the relationship between poetry and power Should poetry be considered a mode of authority or an impotent medium And why is it that the modern poets most commonly regarded as authoritative are precisely those whose works wrestle with a sense of artistic inadequacy Such questions lie at the heart of this study prompting fresh insights into three of the most important poets of recent decades Robert Lowell Geoffrey Hill and Seamus Heaney Through attentive close reading and the tracing of dominant motifs in each writer's works James shows how their responsiveness to matters of political and cultural import lends weight to the idea of poetry as authoritative utterance as a medium for speaking of and to the world in a persuasive memorable manner And yet as James demonstrates each poet is exercised by an awareness of his own cultural marginality even by a sense of the limitations and liabilities of language itself

Encyclopedia of American Poetry: The Twentieth Century Eric L. Haralson,2014-01-21 The *Encyclopedia of American Poetry: The Twentieth Century* contains over 400 entries that treat a broad range of individual poets and poems along with many articles devoted to topics schools or periods of American verse in the century Entries fall into three main categories poet entries which provide biographical and cultural contexts for the author's career entries on individual works which offer closer explication of the most resonant

poems in the 20th century canon and topical entries which offer analyses of a given period of literary production school thematically constructed category or other verse tradition that historically has been in dialogue with the poetry of the United States **Dark Airs** Brendan Cooper,2009 In discussions of American poetry since World War II the work of John Berryman has become increasingly neglected and marginalized Critics have overwhelmingly chosen to favour the notion that he is an academic establishment poet whose career can comfortably be described as a move from New Critical traditionalism towards self absorbed confessionalism This study shows how such a narrow understanding of Berryman s work is reflective of a broader critical inclination towards a codification of the literary canon as a duel between competing factions of a formalist establishment mainstream and an experimentalist countercultural avant garde By examining the extent to which Berryman s poetry engages with the complex religiopolitical climate of Cold War American culture this study exposes the inadequacy of the paradigm of mainstream traditionalism in relation to his work In doing so it opens up threads of comparative possibility between his work and that of poets ordinarily segregated from him by divisive conceptions of the literary canon As such this volume provides a reconsideration of Berryman s work that simultaneously asks broader questions about the nature of the American poetic canon and established definitions of postmodern poetry **Walsingham and the English Imagination**

Gary Waller,2016-02-24 Drawing on history art history literary criticism and theory gender studies theology and psychoanalysis this interdisciplinary study analyzes the cultural significance of the Shrine of our Lady of Walsingham medieval England s most significant pilgrimage site devoted to the Virgin Mary which was revived in the twentieth century and in 2006 voted Britain s favorite religious site Covering Walsingham s origins destruction and transformations from the Middle Ages to the present Gary Waller pursues his investigation not through a standard history but by analyzing the invented traditions and varied re creations of Walsingham by the English imagination poems fiction songs ballads musical compositions and folk legends solemn devotional writings and hostile satire which Walsingham has inspired by Protestants Catholics and religious skeptics alike They include in early modern England Erasmus Raleigh Sidney and Shakespeare then during Walsingham s long protestantization from the sixteenth through nineteenth centuries ballad revivals archeological investigations and writings by Agnes Strickland Edmund Waterton and Hopkins and in the modern period writers like Eliot Charles Williams Robert Lowell and A N Wilson The concluding chapter uses contemporary feminist theology to view Walsingham not just as a symbol of nostalgia but a place inviting spiritual change through its potential sexual and gender transformation **Twentieth-Century American Poetry**

Christopher MacGowan,2008-04-15 Written by a leading authority on William Carlos Williams this book provides a wide ranging and stimulating guide to twentieth century American poetry A wide ranging and stimulating critical guide to twentieth century American poetry Written by a leading authority on the innovative modernist poet William Carlos Williams Explores the material historical and social contexts in which twentieth century American poetry was produced Includes a biographical dictionary of major writers with extended entries on poets

ranging from Robert Frost to Adrienne Rich Contains a section on key texts considering major works such as *The Waste Land* *North South Howl* and *Ariel* The final section draws out key themes such as American poetry politics and war and the process of anthologizing at the end of the century

Robert Lowell's Shifting Colors William Doeski,1999 Following the course of Lowell's poetic development Doeski argues that the ambiguity of Lowell's social and religious beliefs as far as the poems express them is functional and that the formal restraints of Lowell's poems serve to reveal rather than mask the difficulties he found in formulating public and private values BOOK JACKET

"Never Asking why Build - Only Asking which Tools" Rita Horváth,2005

Seamus Heaney's Mythmaking Ian Hickey, Ellen Howley,2023-04-28 Seamus Heaney's *Mythmaking* examines Seamus Heaney's poetic engagement with myth from his earliest work to the posthumous publication of *Aeneid* Book VI The essays explore the ways in which Heaney creates his own mythic outlook through multiple mythic lenses They reveal how Heaney adopts a demiurgic role throughout his career creating a poetic universe that draws on diverse mythic cycles from Greco Roman to Irish and Norse to Native American In doing so this collection is in dialogue with recent work on Heaney's engagement with myth However it is unique in its wide ranging perspective extending beyond Ancient and Classical influences In its focus on Heaney's personal metamorphosis of several mythic cycles this collection reveals more fully the poet's unique approach to mythmaking from his engagement with the act of translation to transnational influences on his work and from his poetic transformations to the poetry's boundary crossing transitions Combining the work of established Heaney scholars with the perspectives of early career researchers this collection contains a wealth of original scholarship that reveals Heaney's expansive mythic mind *Mythmaking* an act for which Heaney has faced severe criticism is reconsidered by all contributors prompting multifaceted and nuanced readings of the poet's work

Figure and Force in Animation Aesthetics Ryan Pierson,2020 How can we describe movements in animated films In *Figure and Force in Animation Aesthetics* Ryan Pierson introduces a powerful new method for the study of animation By looking for figures arrangements that seem to intuitively hold together and forces underlying units of attraction repulsion and direction Pierson reveals startling new possibilities for animation criticism history and theory Drawing on concepts from Gestalt psychology Pierson offers a wide ranging comparative study of four animation techniques soft edged forms walk cycles camera movement and rotoscoping as they appear in commercial artisanal and avant garde works In the process through close readings of little analyzed films Pierson demonstrates that figures and forces make fertile resources for theoretical speculation unearthing affinities between animation practice and such topics as the philosophy of mathematics scientific and political revolution and love Beginning and ending with the imperative to look closely *Figure and Force in Animation Aesthetics* is a performance in seeing the world of motion anew

From Tragedy to Apocalypse in American Literature Lin Atnip,2024-06-15 *From Tragedy to Apocalypse in American Literature* Reading to Make Sense of Our Endings argues that imaginative literature is essential to comprehending contemporary threats to the survival of the human species and the

preservation of our humanity Atnip outlines a theory of reading which directs us to realities and imperatives that are ignored denied or distorted by dominant social conventions and habits of cognition She then puts this theory into practice through readings of postwar American works by Robert Lowell Wallace Stevens Cormac McCarthy and Norman Maclean This book argues that these texts collectively educate us to a new ground of sense the apocalyptic sublime and the need for an unending effort to comprehend what it means to live a human life against this inhuman background
