Robert Lowell's Language of the Self Katharine Wallingford, 2018-08-25 Katharine Wallingford's incisive study treats Robert Lowell's work as a poetry of self examination and explores the ways in which he used methods common to psychoanalysis and other forms of psychotherapy in his poetry Although he was never psychoanalyzed in a strictly Freudian sense Lowell spent many years in psychotherapy Wallingford stresses not the pathological aspects of Lowell's work however but rather his lifelong process of self examination a process with ethical as well as psychological dimensions She links this process to the tradition of self scrutiny that Lowell inherited from his New England Puritan ancestors Through close readings of the poetry and of unpublished drafts of several poems as well as letters from Lowell to George Santayana Allen Tate and his cousin Harriet Winslow Wallingford treats Lowell's use of specific psychoanalytic techniques free association repetition concentration on the relation between the poet and the other to whom he addresses himself and the use of memory to probe the past The book considers as well the role the narrative plays in these psychoanalytic and poetic techniques Lowell believed firmly in the identity of self and language one life one writing and this study brings us closer to an understanding both of the poet and of his dense and moving poetry It enriches our reading of Lowell's poetry by calling attention to the ways in which his poetic techniques are analogous to and to some extent derived from psychoanalytic techniques techniques that have in our time become integrated into our culture as a whole Originally published in 1988 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value

The Catholic Imagination in American Literature Ross Labrie, 1997 A concluding chapter examines the significance of the corpus of Catholic American writing in the years 1940 to 1980 considering it parallel in substance to the body of Jewish American literature of the same period

Shades of Authority Stephen James, 2007-10-01 What is the relationship between poetry and power Should poetry be considered a mode of authority or an impotent medium And why is it that the

modern poets most commonly regarded as authoritative are precisely those whose works wrestle with a sense of artistic inadequacy Such questions lie at the heart of this study prompting fresh insights into three of the most important poets of recent decades Robert Lowell Geoffrey Hill and Seamus Heaney Through attentive close reading and the tracing of dominant motifs in each writer's works James shows how their responsiveness to matters of political and cultural import lends weight to the idea of poetry as authoritative utterance as a medium for speaking of and to the world in a persuasive memorable manner And yet as James demonstrates each poet is exercised by an awareness of his own cultural marginality even by a sense of the limitations and liabilities of language itself New England Landscape History in American Poetry ,

Michael Hofmann André Naffis-Sahely, 2025-03-26 For more than four decades Michael Hofmann has made significant contributions to the literary cultures of Germany the United Kingdom and the United States ranging from his original poetry to translations of Kafka Brecht Hans Fallada and Joseph Roth among others In the first book length study of this iconic figure poet and translator Andr Naffis Sahely surveys Hofmann's life and work with an emphasis on his poetry situating him within the New Generation of writers including Carol Ann Duffy Simon Armitage and Don Paterson who rose to prominence in Britain between the mid 1980s and the early 1990s Reaffirming Hofmann's central place in contemporary literature Naffis Sahely presents the author's oeuvre as an extended passport application as the poet's unusually peripatetic nature emerges as a poetic means of questioning various modes of authority Naffis Sahely examines Hofmann's chief literary influences revealing that while he was heavily inspired by the example of Robert Lowell's confessional model his work was equally shaped by other poetic mentors including Ian Hamilton and Hugo Williams In turn Hofmann's five published volumes of poetry from his debut *Nights in the Iron Hotel* to his latest collection *One Lark One Horse* published after a silence of two decades chronicle the poet's sentimental and intellectual education from adolescence to middle age as well as the traumatic emotional experiences that arose from his relationship with his father the German novelist Gert Hofmann whom the poet portrayed to shocking effect in his breakthrough second collection *Acrimony* Naffis Sahely concludes his study with an analysis of the influence Hofmann has exerted on other poets testifying to the value and importance of his work in the contemporary British tradition followed by an extensive interview reflecting on his career **Daniel Berrigan and**
