Madame Cézanne Dita Amory,2014 A new account of C zanne s complex relationship with his wife who served as the subject of some of his most iconic portraits Paul C zanne s 1839 1906 portraits of Hortense Fiquet 1850 1922 his wife and the subject of some of his iconic portraits rank among the most powerful of their kind in French modernism Yet posterity has not been kind to Madame C zanne She was called a distraction blamed for her husband s lackluster landscapes and disdained for her impenetrable expression in the paintings The reality is more complex for while Fiquet may not have been the passion of C zanne s lifetime she was a willing accomplice as model mother of his only son and unwavering partner against all odds

Madame C zanne examines this unique relationship as it looks at C zanne the painter draftsman and portraitist Featuring 24 of C zanne s oil portraits of Fiquet and most of the known drawings Madame C zanne both reevaluates with insight and compassion the long held misconceptions about the C zannes unconventional marriage and shows how C zanne s portraits of his wife provide a lens through which to better understand his overall technique Published by The Metropolitan Museum of Art Distributed by Yale University Press Exhibition Schedule The Metropolitan Museum of Art 11 18 14 03 15 15 The British Library General Catalogue of Printed Books 1976 to 1982 British Library,1983 Art and the Development of Taste, Collecting & Connoisseurship ,1993 **The Robert von Hirsch collection. Library of Congress Catalogs Library of Congress,1980 Reliquary Tabernacles in Fourteenth-century Italy Beth Williamson,2020 Ground breaking study of the enigmatic and unique tabernacles from fourteenth century Italy which for the first time combined relics and images Images and relics were central tools in the process of devotional practice in medieval Europe The reliquary tabernacles that emerged in the 1340s in the area of Central Italy surrounding the city of Siena combined images and relics presented visibly together within painted and decorated wooden frames In these tabernacles the various media and materials worked together to create a powerful and captivating ensemble usable in several contexts both in procession and static as the centre of focussed prayerful attention This book looks at Siena and Central Italy as environments of artistic invention and at Sienese painters in particular as experts in experimentation whose ingenuity encouraged the development of this new form of devotional technology It is the first full length study to focus in depth on the materiality of these tabernacles investigating the connotations and effects of the materials from which they were made It examines especially the effect of bringing relics and images together and considers how the impressions of variety and abundance created by the multiplication of materials give birth to meaning and encourage certain kinds of action or thought
