time it takes to finish a commute while learning interesting facts long forgotten or never known When Robert Redford first entered the national spotlight in the early 1960s he was hardly viewed as a serious actor and with his red hair blonde complexion and athletic build he was seen more as a handsome man than a skilled one On top of that he came a time in which most Hollywood stars were tall dark and slender like one of his most famous co stars Paul Newman and by comparison Redford looked more like a surfer It was an unfortunate stereotype because he had already studied acting and even performed on Broadway even as people initially had great difficulty in taking him seriously The acting roles for which he first became famous such as Barefoot in the Park featured him in what Elisa Leonelli has referred to as golden boy roles and this was something that would take years to overcome but it also gave him a chip on his shoulder As he later noted half in jest I think a lot of people thought my career started with Butch Cassidy That description of Redford is hard to square with opinions of him today Indeed Redford is now considered one of the leading figures of art house cinema not only in America but across the world as well Presiding over the Sundance Film Festival which is housed in his figurative backyard in Park City Utah Redford oversees the leading festival for independent cinema in the United States facilitating exposure to art house films that otherwise would have struggled to find any distribution and transforming Sundance into a wildly successful company in its own right Meanwhile over the last few decades Redford s career has placed him among the great Hollywood actors of his generation alongside the likes of Robert DeNiro Al Pacino and Dustin Hoffman Moreover where Redford separates himself from these other figures of acting royalty is that he is also an accomplished director as evidenced by the successes of Ordinary People 1980 The Milagro Beanfield War 1988 A River Runs Through It 1992 and other films Clearly Redford has distanced himself as far as possible from the golden boy label that constrained him early in his career American Legends The Life of Robert Redford charts Redford s shift from an actor who could not garner any respect to one of Hollywood s most important figures along with an analysis of his famous films that portrayed various topics like masculinity sport and the American West Along with pictures of important people places and events you will learn about Robert Redford like never before in no time at all **Robert Redford** David Downing,1983 *Robert Redford* David Paige,1977 A biography of the popular actor who starred in the films Butch Cassidy and the Sundance Kid The Sting and All the President s Men *Robert Redford and American Cinema* Michael Allen,2021-03-25 Michael Allen s insightful study explores the long and diverse career of the actor and director Robert Redford from his early work in theatre and TV to his contemporary status as an iconic and enduring star Allen assesses Redford s importance to the American film industry during a period of great transformation as an influential industry player an award winning director and a committed political activist Allen considers Redford s individual achievements in the context of shifts and changes in the industry as a whole some of which benefited Redford s own progress and development some which he engineered himself as well as discussing Redford s star persona in relation to ageing and masculinity *Robert Redford* ,1994 Butch and Sundance Charles River Editors,2014-06-12
