Rome, Persia, and Arabia Greg Fisher, 2019-11-27 Rome Persia and Arabia traces the enormous impact that the Great Powers of antiquity exerted on Arabia and the Arabs between the arrival of Roman forces in the Middle East in 63 BC and the death of the Prophet Muhammad in AD 632. Richly illustrated and covering a vast area from the fertile lands of South Arabia to the bleak deserts of Iraq and Syria, this book provides a detailed and captivating narrative of the way that the empires of antiquity affected the politics, culture, and religion of the Arabs. It examines Rome's first tentative contacts in the Syrian steppe and the controversial mission of Aelius Gallus to Yemen and takes in the city states, kingdoms, and tribes caught up in the struggle for supremacy between Rome and Persia, including the city state of Hatra, one of the many archaeological sites in the Middle East that have suffered deliberate vandalism at the hands of the Islamic State. The development of an Arab Christianity spanning the Middle East, the emergence of Arab fiefdoms at the edges of imperial power, and the crucial appearance of strong Arab leadership in the century before Islam provide a clear picture of the importance of pre-Islamic Arabia and the Arabs to understanding world and regional history. Rome Persia and Arabia includes discussions of heritage destruction in the Middle East, the emergence of Islam, and modern research into the anthropology of ancient tribal societies and their relationship with the states around them. This comprehensive and wide-ranging book delivers an authoritative chronicle of a crucial but little-known era in world history and is for any reader with an interest in the ancient Middle East, Arabia, and the Roman and Persian empires.

Mesopotamia & Arabia Lee Fratantuono, 2021-01-30 This volume explores the Roman invasions and military operations in two distinct yet related areas, Mesopotamia and Arabia. In these far-flung regions of the ancient world, Rome achieved the greatest point of expansion in the history of her Empire. Under the reign of the Emperor Trajan, the Roman Empire reached the point of maximum expansion, made famous by maps of the world circa AD 120. Under the Severans, significant efforts were expended on a Roman dream of linking the two regions into one mighty provincial bulwark against Eastern enemies. Individual chapters detail the history of the conquest of these easternmost territories of the Empire, analyzing the opposing armies involved: Roman, Parthian, Sassanian, Arab, and the reasons for success and failure. The story of how Rome won and lost her Far East offers a paradigm for the rise and fall of the greatest military empire of the ancient world.

Paul of Arabia Ben Witherington III, Jason A. Myers, 2020-11-19 What does a person do when his life has just taken a complete U-turn? This was the question Paul faced after his conversion on Damascus Road. In the end, he decided to go to Petran Arabia, where he stayed for more than two years. In this exercise in reconstructing what Paul's time in Petra would have been like, Ben Witherington recreates the scene of various interesting, possible episodes in Paul's life about which the New Testament says little, filling in the gaps of the hidden years. Who would he have met in Petra? Would he have practiced his leather-working trade? Might he have gotten married? What did he do to raise the ire of King Aretas IV and cause him to be chased all the way back to Damascus and out again? Why did he wait so long to go up to Jerusalem and visit with Peter? This

and much more is addressed in this fast paced novella with sidebars explaining the context of the events in the story

Pre-Islamic Arabia Valentina A. Grasso,2023-02-23 This book delves into the political and cultural developments of pre Islamic Arabia focusing on the religious attitudes of the inhabitants of the Arabian Peninsula and its northern extension into the Syrian desert Between the third and the seventh century Arabia was on the edge of three great empires Iran Rome and Aksum and at the centre of a lucrative network of trade routes Valentina Grasso offers an interpretative framework which contextualizes the choice of Arabian elites to become Jewish sympathisers and or convert to Christianity and Islam by probing the mobilization of faith in the shaping of Arabian identities For the first time the Arabians of the period are granted autonomy from marginalizing mostly Western narratives framing them as barbarians inhabiting the fringes of Rome and Iran and or deterministic analyses in which they are depicted retrospectively as exemplified by the Muslims definition of the period as Jahiliyah ignorance
