Scourging Of Iraq Sanctions Law And Natural Justice:

The Scourging of Iraq Geoffrey Leslie Simons,1998 **The Scourging of Iraq** Geoff Simons,1996-09-18 The Scourging of Iraq describes the impact of the 1991 Gulf War and subsequent economic sanctions on the Iraqi people Evidence is presented to show that food and medicine are being denied to the civilian population and that this involves a gross violation of the 1977 Protocol 1 addition to the 1949 Geneva Convention which includes the words Starvation of civilians as a method of warfare is prohibited Sanctions are considered in a historical political and legal context with particular attention to how the economic blockade may be seen as a criminal violation of UN resolutions and the UN Genocide Convention *The Scourging of Iraq* G. Simons,2016-01-18 The Scourging of Iraq describes the impact of the 1991 Gulf War and subsequent economic sanctions on the Iraqi people Evidence is presented to show that food and medicine are being denied to the civilian population and that this involves a gross violation of the 1977 Protocol 1 addition to the 1949 Geneva Convention which includes the words Starvation of civilians as a method of warfare is prohibited Sanctions are considered in a historical political and legal context with particular attention to how the economic blockade may be seen as a criminal violation of UN resolutions and the UN Genocide Convention **Punishment, Justice and International Relations** Anthony F. Lang Jr.,2009-10-16 This volume argues that a wide range of policies in the international system today economic sanctions military intervention and counter terrorism policy are part of a punitive ethos that has arisen since the end of the Cold War **A Strategic Understanding of UN Economic Sanctions** Golnoosh Hakimdavar,2013-10-08 Economic Sanctions are increasingly used as a legal non military technique of combating abusers of international peace However it remains unclear how the success or failure of these sanctions is measured This book examines the seldom explored United Nations economic sanctions deliberation process and exposes systematic problems in the measurement of the success or failure of these sanctions Centering on the key concepts of peace and security the author brings the reader s attention to the discrepancies that exist in the process of decision making implementation and evaluation of UN imposed economic sanctions She engages international law and development methods to provide proof for the lack of consensus in measures of success and failure which in turn suggests that sanction implementation on a uniform domestic front are unattainable This thorough analysis concludes with suggestions for improving the sanctions process only to clear the path for negating them as a whole and suggest alternative non coercive measures for mitigating conflict situations and threats to peace and security **Gender, Justice, and the Wars in Iraq** Laura Sjoberg,2006-01-01 Gender Justice and the Wars in Iraq offers a feminist critique and reconstruction of just war theory It points out gender biases in the just war tradition and suggests alternative jus ad bellum and jus in bello standards that emphasize women political marginality and empathy Laura Sjoberg applies this feminist just war theory to analyze the wars in Iraq since the end of the Cold War the First Gulf War the war of sanctions and the Second Gulf War By examining international political discourse from and about Iraq it shows where

war generally and just war specifically are gendered Through the stories of key just war characters like Jessica Lynch this book reveals where women are omitted and subordinated in global politics Sjöberg suggests that dialogue and empathy replace righteousness in just war thinking for the good of human safety everywhere and concludes with alternative visions of Gulf War policies inspired by feminist just war theory **Praxis** Friedrich Kratochwil, 2018-08-16 Presents a shift from the accepted international relations standard of theorizing by analyzing policy decisions made in non ideal conditions within a broader framework of practical choices emphasizing both historicity and contingency as exemplified by changing practices in the international arena **Full Spectrum Dominance** Rahul Mahajan, 2011-01-04 In this compelling big picture assessment of the U S war on Iraq Mahajan combines his experience as an anti Iraq sanctions activist with a keen analysis of U S foreign policy in the post Cold War era to provide the analysis that has been overlooked in the mainstream debate Situating Iraq within the larger context of post 9 11 foreign policy he analyzes the Bush National Security Strategy and the new neoconservative vision of achieving increasing degrees of global domination and control Presented with unflinching clarity Mahajan s research demonstrates that the war on Iraq was part of a much larger plan assembled before 9 11 and as stated by the Project for a New American Century needing only a new Pearl Harbor to implement it Social defence Brian Martin, Jørgen Johansen, 2019-07-11 Social defence is nonviolent community resistance to aggression and repression as an alternative to military forces Given the enormous damage caused by military systems social defence is an alternative worth investigating and pursuing Since the 1980s J rgen Johansen and Brian Martin have been involved in promoting social defence In this book they provide an up to date treatment of the issues They address the downsides of military systems historical examples of nonviolent resistance to invasions and coups key ideas about social defence important developments since the end of the Cold War and the role of social movements Social defence challenges deeply embedded assumptions about violence and defence It is also a challenge to powerful groups with vested interests in systems of organised violence especially militaries and governments Popular action against aggression and repression is a radical alternative and a logical one **The Iraqi Predicament** Tareq Y. Ismael, Jacqueline S. Ismael, 2004-03-20 On February 15 2003 over 6 million people around the world marched in protest against a threatened war on Iraq In the light of these remarkable events and the conflict that followed it is now more important than ever to properly assess Iraq s role in world politics This book provides a history of Iraq an assessment of its position in the broader political landscape and a moving account of the day to day reality experienced by the Iraqi people The authors look at Iraq s and Saddam Hussein s relations and influence in the region of the greater Middle East They examine the role of the UN sanctions and warfare explaining the impact this has had on Iraq s civil population and related humanitarian questions They assess American policy towards Iraq and how this has changed since September 11 setting it within the broader context of America s involvement in the Middle East Finally they look at social policy within Iraq explaining how the internal welfare system has collapsed since the Gulf War and examining the continuing

effects of depleted uranium

The Criminology of War

Ruth Jamieson, 2017-07-05 The essays selected for this volume provide an overview of the range of issues confronting scholars interested in the complex and multiple relationships between war and criminality and map the many connections between war security governmentality punishment gender and crime The collection draws on the recent theoretical advances made by both criminologists and scholars from cognate disciplines such as law politics anthropology and gender studies in order to open out criminological thinking about what war is how it is related to crime and how these war crime relationships reach into peace The volume features contributions from key thinkers in the field and serves as a valuable resource for academics and students with an interest in the criminology of war The essays selected for this volume provide an overview of the range of issues confronting scholars interested in the complex and multiple relationships between war and criminality and map the many connections between war security governmentality punishment gender and crime The collection draws on the recent theoretical advances made by both criminologists and scholars from cognate disciplines such as law politics anthropology and gender studies in order to open out criminological thinking about what war is how it is related to crime and how these war crime relationships reach into peace The volume features contributions from key thinkers in the field and serves as a valuable resource for academics and students with an interest in the criminology of war

Palestinians in Jordan

Luisa Gandolfo, 2012-10-23 60 per cent of Jordanians are of Palestinian origin a statistic which has propelled Jordan into the role of both player and pawn in regional issues such as the birth of the state of Israel the prolonged Israel Palestine conflict the ascent and decline of Arab nationalism and the subsequent rise of political Islam and radicalism Exploring Jordan's diverse Palestinian communities Luisa Gandolfo illustrates how the Palestinian majority has been subject to discrimination all the while also playing a defining role in shaping Jordanian politics legal frameworks and national identity The conflicts of 1948 and 1967 the civil unrest following Black September in 1972 and the uprisings of 1988 and 2000 have all contributed to a fractious Jordanian Palestinian relationship In *Palestinians in Jordan* Gandolfo examines the history of this relationship looking at the socio political circumstances the economic and domestic policies the legal status of Palestinians in Jordan and the security dimension of Jordan's role in the region She argues that policies put in place over the last century have created a society that is marked by high levels of inter faith cohesion as evidenced by the success and integration of minority Christian communities She goes on to suggest that society divides along lines of ethnic and nationalist loyalty between Jordanians and Palestinians while domestic politics become increasingly fractious with the growth of Islamist

groups that have gained grassroots appeal especially in the refugee camps Palestinians in Jordan look through the kaleidoscope of Palestinian Jordanian identities that accommodate a complex and overlapping web of different religious affiliations mixed socio economic conditions and the experience of exile reconciled with daily life in Jordan At the same time identities of these communities continue to be rooted in an attachment to the concept of Palestine and the unifying force of the struggle against Zionism These layers have made the versatile and fluid nature of identities essential affording a fascinating study in inter communal dynamics and nationalism It is this which makes Palestinians in Jordan an important resource for those researching the Israel Palestine conflict as well as for students of the Middle East Politics Anthropology and Gender with an interest in identity

The New Crusade Rahul Mahajan, 2002-03 This book locates ongoing events in the aftermath of September 11 in historical context analyzes their motive forces and possible outcomes and examines the alternatives that face the anti globalization movement and opponents of racism and war

State Crime Penny Green, Tony Ward, 2004-01-20 What is state crime This book sets out the parameters of state crime and highlights the complex issues involved The authors provide a clear chapter by chapter assessment of state violence corruption state involvement in organised and corporate crime avoidable natural disasters torture criminal policing war crimes and genocide Penny Green and Tony Ward put forward a powerful argument drawing from a range of disciplines including law criminology human rights international relations and political science They develop a theoretical approach to understanding the boundaries of state crime employing the concepts of deviance and human rights Making distinctive use of original research and using a variety of international case studies this compelling book offers a fresh and sophisticated approach to this controversial and difficult subject

Rethinking the 21st Century Doctor Amy Eckert, Laura Sjoberg, 2013-07-04 Rethinking the 21st Century brings much needed context and perspective to the security problems we face today In recent years the Bush Doctrine that the security threats we now face are entirely unprecedented has echoed around the world Global security and stability is now challenged not only by states and nuclear war but by insurgency disease environmental degradation and military privatisation Yet this creates a deep sense of disconnect in the way we perceive politics and can be dangerously stark and ahistorical The chapters here show that far from being a clean break the new problems faced today might actually have old solutions What can Locke tell us about terrorists What does Bentham have to say about sanctions What are the ethics of outsourcing war to private companies By looking back to decades and even centuries of ethical analysis and political theory this book provides fascinating insight into all these questions

The Ethics of Armed Humanitarian Intervention Don E. Scheid, 2014-04-24 The question of military intervention for humanitarian purposes is a major focus for international law the United Nations regional organizations such as NATO and the foreign policies of nations Against this background the 2011 bombing in Libya by Western nations has occasioned renewed interest and concern about armed humanitarian intervention AHI and the doctrine of Responsibility to Protect RtoP This volume brings together new essays by leading international

philosophical and political thinkers on the moral and legal issues involved in AHI and contains both critical and positive views of AHI Topics include the problem of abuse and needed limitations the future viability of RtoP and some of its problematic implications the possibility of AHI providing space for peaceful political protest and how AHI might be integrated with post war justice It is an important collection for those studying political philosophy international relations and humanitarian law
