Medieval Architecture In Eastern Europe:

Medieval Architecture in Eastern Europe Heinrich L. Nickel, 1983 This work defines eastern Europe as encompassing the feudal states under the aegis of the Orthodox Church which in present day includes Bulgaria Rumania Ygoslavia and parts of Russia It includes monuments basilicas palaces and more from the 9th to 18th centuries Medieval East Central Europe in a Comparative Perspective Gerhard Jaritz, Katalin Szende, 2016-05-12 Medieval East Central Europe in a Comparative Perspective draws together the new perspectives concerning the relevance of East Central Europe for current historiography by placing the region in various comparative contexts The chapters compare conditions within East Central Europe as well as between East Central Europe the rest of the continent and beyond Including 15 original chapters from an interdisciplinary team of contributors this collection begins by posing the question What is East Central Europe with three specialists offering different interpretations and presenting new conclusions The book is then grouped into five parts which examine political practice religion urban experience and art and literature The contributors question and explain the reasons for similarities and differences in governance and strategies for handling allies enemies or subjects in particular ways They point out themes and structures from town planning to religious orders that did not function according to political boundaries and for which the inclusion of East Central European territories was systemic The volume offers a new interpretation of medieval East Central Europe beyond its traditional limits in space and time and beyond the established conceptual schemes It will be essential reading for students and scholars of medieval East Central Europe The Routledge Handbook of East Central and Eastern Europe in the Middle Ages, 500-1300 Florin Curta, 2021-11-29 The Routledge Handbook of East Central and Eastern Europe in the Middle Ages 500 1300 is the first of its kind to provide a point of reference for the history of the whole of Eastern Europe during the Middle Ages While historians have recognized the importance of integrating the eastern part of the European continent into surveys of the Middle Ages few have actually paid attention to the region its specific features problems of chronology and historiography This vast region represents more than two thirds of the European continent but its history in general and its medieval history in particular is poorly known This book covers the history of the whole region from the Balkans to the Carpathian Basin and the Bohemian Forest to the Finnish Bay It provides an overview of the current state of research and a route map for navigating an abundant historiography available in more than ten different languages Chapters cover topics as diverse as religion architecture art state formation migration law trade and the experiences of women and children This book is an essential reference for scholars and students of medieval history as well as those interested in the history of Central and Eastern Europe Byzantium in Eastern European Visual Culture in the Late Middle Ages , 2020-08-03 Byzantium in Eastern European Visual Culture in the Late Middle Ages edited by Maria Alessia Rossi and Alice Isabella Sullivan engages with issues of cultural contact and patronage as well as the transformation and appropriation of Byzantine artistic theological and political models alongside local traditions across Eastern Europe The regions of the

Balkan Peninsula the Carpathian Mountains and early modern Russia have been treated in scholarship within limited frameworks or excluded altogether from art historical conversations This volume encourages different readings of the artistic landscapes of Eastern Europe during the late medieval period highlighting the cultural and artistic productions of individual centers These ought to be considered individually and as part of larger networks thus revealing their shared heritage and indebtedness to artistic and cultural models adopted from elsewhere and especially from Byzantium See inside the book

Medieval East Central and Eastern Europe Florin Curta, Sebastien Rossignol, 2025-07-15 From Bohemia to Rus and from the White Sea to the Balkans Medieval East Central and Eastern Europe by Florin Curta and Sebastien Rossignol covers the medieval history of a large area This groundbreaking textbook is an important introduction for students and an essential tool for instructors of courses on the Middle Ages and the entire eastern half of Europe With elements of medieval archaeology Medieval East Central and Eastern Europe includes dynastic characters political legacies and a list of suggested readings for anyone interested in learning more about the history of these regions Written in an accessible style that appeals to a general reader this textbook explicates the diversity of historical experiences available in these parts of Europe during the Middle Ages from the influence of Byzantine traditions in the Balkans to the integration of Western cultures and the impact of the Eurasian steppe lands This text highlights the distinct social and cultural characteristics that shaped these societies including the persistence of nomadic groups the limited reach of feudalism and the enduring presence of pagan Jewish and Muslim communities Structured with chronological overviews and thematic chapters Medieval East Central and Eastern Europe is an invaluable resource on underrepresented regions for specialists and non specialists alike

Medieval Architecture Nicola Coldstream, 2002 Medieval architecture comprises much more than the traditional image of Gothic cathedrals and the castles of chivalry A great variety of buildings synagogues halls and barns testify to the diverse communities and interests in western Europe in the centuries between 1150 and 1550 This book looks at their architecture from an entirely fresh perspective shifting the emphasis away from such areas as France towards the creativity of other regions including central Europe and Spain Treating the subject thematically Coldstream seeks out what all buildings both religious and secular have in common and how they reflect the material and spiritual concerns of the people who built and used them Furthermore the author considers how and why after four centuries of shaping the landscapes and urban patterns of Europe medieval styles were superseded by classicism

The Grove Encyclopedia of Medieval Art and Architecture Colum Hourihane, 2012 This volume offers unparalleled coverage of all aspects of art and architecture from medieval Western Europe from the 6th century to the early 16th century Drawing upon the expansive scholarship in the celebrated Grove Dictionary of Art and adding hundreds of new entries it offers students researchers and the general public a reliable up to date and convenient resource covering this field of major importance in the development of Western history and international art and architecture

Eastern Europe in the Middle Ages (500-1300) (2 vols) Florin Curta, 2019-07-08 Winner of the 2020 Verbruggen prize This book provides a comprehensive synthesis of scholarship on Eastern Europe in the Middle Ages The goal is to offer an overview of the current state of research and a basic route map for navigating an abundant historiography available in more than 10 different languages The literature published in English on the medieval history of Eastern Europe books chapters and articles represents a little more than 11 percent of the historiography The companion is therefore meant to provide an orientation into the existing literature that may not be available because of linguistic barriers and in addition an introductory bibliography in English Winner of the 2020 Verbruggen prize awarded annually by the De Re Militari society for the best book on medieval military history The awarding committee commented that the book has an enormous range and yet is exceptionally scholarly with a fine grasp of detail Its title points to a general history of eastern Europe but it is dominated by military episodes which make it of the highest value to anybody writing about war and wargaming in this very neglected area of Europe See inside the book

The Medieval Networks in East Central Europe Balazs Nagy, András Vadas, Felicitas Schmieder, 2018-11-09 Medieval Networks in East Central Europe explores the economic cultural and religious forms of contact between East Central Europe and the surrounding world in the eighth to the fifteenth century The sixteen chapters are grouped into four thematic parts the first deals with the problem of the region as a zone between major power centers the second provides case studies on the economic and cultural implications of religious ties the third addresses the problem of trade during the state formation process in the region and the final part looks at the inter and intraregional trade in the Late Middle Ages Supported by an extensive range of images tables and maps Medieval Networks in East Central Europe demonstrates and explores the huge significance and international influence that East Central Europe held during the medieval period and is essential reading for scholars and students wishing to understand the integral role that this region played within the processes of the Global Middle Ages
