Didactic Poetry of Greece, Rome and Beyond Lilah Grace Canevaro, Donncha O'Rourke, 2019-12-01 Here a team of established scholars offers new perspectives on poetic texts of wisdom learning and teaching related to the great line of Greek and Latin poems descended from Hesiod In previous scholarship a drive to classify Greek and Latin didactic poetry has engaged with the near total absence in ancient literary criticism of explicit discussion of didactic as a discrete genre The present volume approaches didactic poetry from different perspectives the diachronic mapping the development of didactic through changing social and political landscapes from Homer and Hesiod to Neo Latin didactic and the comparative setting the Graeco Roman tradition against a wider backdrop including ancient near eastern and contemporary African traditions The issues raised include knowledge in its relation to power the cognitive strategies of the didactic text ethics and poetics the interplay of obscurity and clarity playfulness and solemnity the authority of the teacher

Loyola's Bees Yasmin Haskell, 2003-09-11 This is the first dedicated study of the classical style Latin didactic poetry produced by the Society of Jesus in the early modern period The Jesuits were the most prolific composers of such poetry teaching all manner of arts and sciences meteorology and magnetism raising chickens and children the arts of sculpture and engraving writing and conversation the social and medicinal benefits of coffee and chocolate the pious life and the urbane life Dr Haskell accounts for this investment in so secular a genre by considering the Society's educational and ideological values and practices Extensive quotation from the poems reveals their literary qualities compositional methods and traditions The poems also command scholarly attention for what they reveal about social cultural and intellectual life in this period

Criticism of Didactic Poetry Alexander Dalzell, 1996-01-01 Dalzell presents three of the major didactic poems in the classical canon the *De rerum natura* of Lucretius the *Georgics* of Virgil and the *Ars amatoria* of Ovid and considers what tools are available for their understanding

Latin Epic and Didactic Poetry Monica Gale, 2004-12-31 How is it possible for a poet to find his own individual voice when he is writing in a tradition so venerable and so constrained by convention as Roman epic How do poets working in related genres particularly didactic conceptualize their relationship to the main epic tradition The eleven essays in this volume by leading scholars in the field of Roman poetry and its post Classical receptions consider some of the strategies which writers from Lucretius onwards have employed in negotiating

their relationship with their literary forebears and staking out a place for their own work within a tradition stretching back to Hesiod and Homer
