Say Hello to Jupiter Boris Bouquerel,2003-10-09 Ever wondered what our great great grandchildren will think of us as they survey the wreckage Will they realize that their broken inheritance was no accident but a scheduled apocalypse we had seen coming a long way off in great scientific detail and full Dolby Technicolor Sensurround As if our generation had taken some perverse pleasure wallowing in scary scary frowning with concern at the litany of extinct species and vanishing forests wringing our hands in helpless sympathy as faraway starving children stared out of our TV sets accusingly Gasping at last in horrified excitement when the second plane hit the second tower as soon as the focus was adjusted Like fingering a decaying tooth enjoying the painful tingle knowing all too well that the longer we wait and do nothing other than devise complex methods of denial the closer we get to that apocalyptic bogeyman all you prime time warriors have been expecting Sound familiar Then this book is for you Says the author 41st century starship singer BB Boris Where I come from telecommunications are telepathy people do not build their houses but grow them and the pursuit of power is no more than a distasteful game fit only for unruly children Alas a doomed mission to your infernal era has trapped me here among you primitive hypocrites Although BB pulls no punches when describing our suicidal century what he has to say is surprisingly optimistic and after reading his unique memoirs you will find yourself strangely uplifted rediscovering a sense of faith and hope you thought was lost forever Indeed this tale is not about doom and gloom It is about faith Believe it or not two thousand years from now we will have come a long long way Welcome to the Imperial Federation of Jupiter a space faring utopia where problems still exist for this is not Neverland but where we have at least succeeded in overcoming the depressingly childish conundrums of our tragic infancy How was this possible After playing around in the technology sandbox for a century or so our species suddenly had to learn some very hard lessons in the ensuing trauma As a result and despite all the odds stacked against us we were able to rediscover the wisdom of our early ancestors Thus the multiple wonders present in the Federation are a blend of quantum physics spiritual energy and shamanic magic One of your descendants is living

there He has a job as a starship vocalist a highly trained specialist responsible for the safety of passengers He is living a life of contentment with his mate but their loving bliss is suddenly shattered by affairs of state Eventually an exceptional spate of circumstances results in his leaving the forty first century and he ends up trapped in our infernal age But this is not really about the future Although much of the action takes place in 2021 and in 4077 this is a highly contemporary novel It is in a way the story of a hapless rock singer at odds with the nauseating values permeating the last days of our species on its once beautiful cradle planet As he tries hard to make the best of his exile racked by loneliness plagued by half memories of his utopian home in the future he is nevertheless driven by his first hand awareness that Humankind has everything to look forward to if only after the looming terrible catharsis he knows is coming Like a spaced out Forrest Gump this peculiar intelligence gives him a unique perspective on the events of the last three decades Like Kane the Shaolin priest of the Kung Fu series his purity of spirit provides him with a disarming almost magical advantage when confronted with the simian brutes that dominate our troubled era Even as his memories fade with time to the point where he begins to doubt they ever happened the protagonist

THE SPIRIT OF SPINOZA Neal Grossman,2014-05-02 BENEDICT SPINOZA was a 17th century philosopher and spiritual psychotherapist This intellectual self help book provides important insights from Spinoza s system of thought in a format accessible to the general reader as well as to those already familiar with his philosophy By applying his method to our personal lives we may free ourselves from bondage to our lower emotions and habitual behaviors and thus begin to enjoy the continuous supreme and unending happiness promised by Spinoza Those of us who came of age in the twentieth century were taught that we must adopt a crazy making strategy of compartmentalizing our lives putting our rational scientific side into one corner and our psychological spiritual side in another The precarious state of our world is evidence enough that this approach to life is a destructive dead end You are holding an effective alternative in your hand The Spirit of Spinoza is a brilliant treatise that has been field tested by Professor Neal Grossman in his own life and that of his students over decades This book is a master stroke by a master teacher about a master philosopher It is also delightfully dangerous for it has the power to shift one s life onto a new axis where it becomes possible to blend knowledge and wisdom into an experience that can best be described quite simply as waking up

medical psychiatric and dental conditions Dr Kroger s work in developing the concept of clinical hypnosis and making it a part of the science of behavior modification is generally regarded as the foundation of modern hypnotherapy This Revised Second Edition features an introduction by Michael Yapko PhD an internationally recognized expert in short term psychotherapy which places Dr Kroger s work in contemporary context A bound in DVD features two of Dr Kroger s filmed demonstrations of surgical procedures using hypnosis as anesthesia one for childbirth and another for thyroid surgery plus extensive commentary by Michael Yapko PhD **After the Event** Christopher A. Brown,2007-06-04 These writings show the unconscious priorities that the limbic system of the mind operates with proportion to the greater meanings over time to a person The unconscious conscious processes are complex when relating to reproduction What is documented here is an example of how every day our unconscious reprograms our conscious mind with what we are going to think our life is about Or translated into why the accounting of this book seems obsessed with love it defines a function obliquely or marriage as a practice of unconditional love then parental love adjacent to romantic love creating a supporting instinctual structure manipulated to serve us by us throughout our lives
