

Your Conflict Rituals

Describe two conflict rituals in one of your important relationships. One of your examples should consist of a positive ritual and the other of a negative ritual. For each example, explain:

1. a subject that is likely to trigger the conflict (such as money, leisure time, affection)
2. the behavior of one partner that initiates the ritual
3. the series of responses by both partners that follows the initiating event
4. how the ritual ends

Based on your description, explain an alternative to the unsatisfying ritual, and describe how you might be able to manage the conflict in a more satisfying way.

- To help you answer this question, you might take some time to compare your positive and negative conflict rituals. What makes one ritual positive and the other negative? Is the difference in the trigger subject, initiation behavior, ritualistic responses, the outcome, or a combination of factors? Perhaps you will be able to use factors from your positive ritual to make changes to the negative one.
