"I've written both on
ground in the little-known
U.S. Navy riverine war in
Vietnam. This book is a must."

Don Sheppard's story is a gripping account of his experiences in the Mekong Delta during the Vietnam War. He was a member of the 9th Infantry Division, which was part of the Navy's riverine force. The book details the challenges of operating in the delta, from the constant threat of enemy attacks to the logistical difficulties of maintaining a fleet of boats in a region with a complex network of waterways. Sheppard's narrative is both informative and engaging, providing a unique perspective on the war.

Riverine A Brownwater Sailor In The Delta 1967:

Riverine Don Sheppard, 1985 *The Brown Water Navy In The Mekong Delta: COIN In The Littorals And Inland Waters*
Lieutenant Commander Richard Sessoms, 2014-08-15 In 1964 the Viet Cong was firmly entrenched in the Mekong Delta region Using fear and terror tactics the insurgency gained control of the population creating a safe haven for the movement to thrive and expand The United States and the Government of South Vietnam recognized the infiltration problem in the Mekong Delta but their military organizations were either unable or incapable to deal with the problem The geography of the region made it impossible for a U S Army or Marine Corps division to operate effectively and the South Vietnamese Army and Navy lacked the training and equipment to operate successfully In response to these obstacles Secretary of Defense Robert McNamara commissioned the U S Navy to develop a fighting force capable of operating in the delta and ridding the region of the Viet Cong influence The Navy used for main Operations MARKET TIME GAME WARDEN The Mobile Riverine Force and SEALORDS to achieve these goals In four short years the Brown Water Sailors experienced marked success with Viet Cong influence minimized and resupply efforts rerouted to the tortuous Ho Chi Minh Trail However by the end of 1968 American resolve to fight a war in South Vietnam had deteriorated and the Government needed a way out President Nixon s Vietnamization program provided the exit for American forces and in turn mitigated the Brown Water Navy s successes of the previous four years The Brown Water Navy overcame tremendous obstacles in less than one year to create and deploy a formidable fighting force to the Mekong Delta In four years aggressive strides against the Viet Cong insurgency were achieved only to be mitigated by the effects of Vietnamization *Riverine* ,1985 *War in the Shallows* John Darrell Sherwood, 2015 *War in the Shallows* published in 2015 by the Naval History and Heritage Command is the authoritative account of the U S Navy s hard fought battle along Vietnam s rivers and coastline from 1965 1968 At the height of the U S Navy s involvement in the Vietnam War the Navy s coastal and riverine forces included more than 30 000 Sailors and over 350 patrol vessels ranging in size from riverboats to destroyers These forces developed the most extensive maritime blockade in modern naval history and fought pitched battles against Viet Cong units in the Mekong Delta and elsewhere *War in the Shallows* explores the operations of the Navy s three inshore task forces from 1965 to 1968 It also delves into other themes such as basing technology tactics and command and control Finally using oral history interviews it reconstructs deckplate life in South Vietnam focusing in particular on combat waged by ordinary Sailors Vietnam was the bloodiest war in recent naval history and *War in the Shallows* strives above all else to provide insight into the men who fought it and honor their service and sacrifice Illustrated throughout with photographs and maps Author John Darrell Sherwood has served as a historian with the Naval History and Heritage Command NHHC since 1997 Provided by publisher *Professional Journal of the United States Army* ,1993 *Operation Sealords: A Front In A Frontless War, An Analysis Of The Brown-Water Navy In Vietnam*
LCDR William C. McQuilkin USN, 2015-11-06 This study examines Operation SEALORDS the capstone campaign conducted

by the brown water Navy in Vietnam Specifically this paper addresses the primary question Was the SEALORDS campaign successful and if so what lessons can be learned from SEALORDS and how might the Navy employ brown water forces in the future This thesis breaks down the SEALORDS campaign into three areas of study First the study examines the barrier interdiction portion of the campaign designed to stem the flow of enemy infiltration of men and material from Cambodia into the Mekong Delta Second this study analyzes the Denial of Sanctuary Operations and Pacification portion of the SEALORDS operations Last the Accelerated Turnover to the Vietnamese Program ACTOV is examined to determine its effectiveness The findings of this study suggest that by concentrating naval forces athwart the major infiltration routes along the Cambodian border SEALORDS effectively cut enemy lines of communication into South Vietnam and severely restricted enemy attempts at infiltration Additionally the findings suggest that SEALORDS contributed significantly to pacification efforts in the southern part of III Corps and all of the IV Corps Tactical Zone Finally the ACTOV Program is evaluated as successful and put the Navy out ahead of the other services with respect to Vietnamization of the war effort

What Lessons Can Be Drawn From U.S. Riverine Operations During The Vietnam War Major David J. Spangler, 2014-08-15 This study examines U S riverine force operations in the Vietnam War to determine why the force was established how and why it evolved and what significance it held for the war as a whole This study begins with Operation Game Warden continues through Mobile Riverine Force operations and ends with the completion of the SEALORDS campaign The impetus for this research arose from the current debate in Washington as to whether or not the U S military has a real need for riverine forces and if those forces should be stood up today Looking back through history gives an opportunity to view past riverine warfare conducted by the American military and determine the contributions such operations have made to the overall conduct of wars This study shows that riverine operations have been crucial to success in certain environments in the past and points to their possible use in similar environments today This study measures the effect of U S riverine operations in Vietnam and evaluates the contribution this type of force made to our war effort in that environment This study promotes the use of Task Force 194 which conducted the SEALORDS campaign as the model for establishing U S riverine forces today This study points out that the nucleus of a riverine force must be maintained doctrine modernized and crew currency maintained in order to have any reasonable expectation for success at the outset of future riverine conflicts

Tucker, 2002-11-01 A comprehensive overview of warfare in Vietnamese history from the early efforts to free themselves from Chinese control through the Indo China and Vietnam Wars the Vietnamese invasion of Cambodia up to the Sino Vietnamese War in 1979 Concentrating on the Vietnam War the author explores the conflict from the Vietnamese perspective demonstrating how for many Vietnamese the war was merely one of a long series of struggles against foreign domination Encompassing socio political economic diplomatic and cultural issues this text provides an introduction to Vietnam's military history and will be of interest to students of 20th century American and Asian history **Parameters** ,1994 **River Warfare in Vietnam** Robin L. Rieley, 2024-02-08 America's entrance into the wars in Vietnam came as a result of several factors Among them was the necessity of bolstering French influence in the area in the face of mounting communist expansion This expansion was intensified by the outbreak of the Korean War making it necessary for the United States to revamp its Southeast Asian policy During the French era control of Vietnam's rivers streams and canals became necessary This led various factions to develop specialized military units heavily dependent on new types of river craft that could traverse the myriad waterways in Vietnam The focal point of this study is a new assessment of the conduct of river warfare Drawing on little known French Vietnamese and American sources and materials it sheds light on an important aspect of the Vietnam War Chapters also detail numerous aspects of river warfare not generally covered in other books on the subject **Library Journal** ,1992 **Airpower Journal** ,1998 *Warship* ,1992
