Road To Egdon Heath The Aesthetics Of The Great In Nature:

Road to Egdon Heath Richard Bevis, 1999-05-22 Bevis examines a wide range of English European and North American texts literary works as well as religious scientific and travel writing He surveys the literature on mountain climbing sea voyages desert travel and polar exploration and its metaphorical uses in poetry and fiction Relying on Addison's term the Great rather than the sublime he shows how works such as Darwin's journals Lyell's studies in geology and de Saussure's books on the Alps helped form an outlook on nature that also found frequent literary expression A wide ranging interdisciplinary work in the history of ideas The Road to Egdon Heath traces the growth of an aesthetic sensibility that is now ubiquitous but which would have been incomprehensible prior to the Renaissance This sensibility underlies not only much of modern literature but also our modern ideas about conservation ecology and environmentalism **Road to Egdon**

Heath Richard W. Bevis, 1999 Concentrating on the eighteenth and nineteenth centuries he traces its development up to 1878 and one of its earliest conscious articulations Thomas Hardy's description of Egdon Heath in *The Return of the Native* BOOK JACKET *An Aristotelian Account of Induction* Louis F. Groarke, 2009-11-01 In *An Aristotelian Account of Induction*

Groarke discusses the intellectual process through which we access the first principles of human thought the most basic concepts the laws of logic the universal claims of science and metaphysics and the deepest moral truths Following Aristotle and others Groarke situates the first stirrings of human understanding in a creative capacity for discernment that precedes knowledge even logic Relying on a new historical study of philosophical theories of inductive reasoning from Aristotle to the twenty first century Groarke explains how Aristotle offers a viable solution to the so called problem of induction while offering new contributions to contemporary accounts of reasoning and argument and challenging the conventional wisdom about induction

Mr. Simson's Knotty Case Anne Skoczylas, 2001 In *Mr Simson's Knotty Case* Anne Skoczylas examines the heresy trials of John Simson professor of Divinity at Glasgow University from 1708-40 Accused of teaching unsound doctrine Simson retained his position after mild censure in 1717 but was eventually suspended from teaching and preaching after a second set of charges was brought against him in the ecclesiastical courts in the late 1720s *The Culturalist*

Challenge to Liberal Republicanism Michael Luszti, 2017-09-13 An exploration of the volatile mix of politics and diversity

Orthodoxy and Enlightenment Jeffrey Mark Suderman, 2001 Employing an interdisciplinary approach that gives equal consideration to Campbell's secular and religious writings Jeffrey Suderman argues that Campbell used the critical tools of the Enlightenment to defend an orthodox Christian faith This conclusion **The Problem of Atheism** Augusto Del

Noce, 2022-01-05 In 1964 Augusto Del Noce assembled in a book some of his best works on Marxism atheism and the history of modern philosophy The result was *Il problema dell'ateismo* which he always regarded as foundational to his way of thinking The book remains his best known work and is still in print in Italy almost sixty years later *The Problem of Atheism* offers the first English translation of this landmark book one of the earliest works to recognize the new secularizing trends in

Western culture following World War II Del Noce situates atheism historically reconstructing its philosophical trajectory through European modernity Documenting the author's entire intellectual experience these essays explore the birth of modern philosophy reckon with the great European crisis of 1917 to 1945 and the Cold War that followed and mine the opposition between Marxism and the rise of the affluent society The result is rich with premonitions of the cultural landscape that would take shape throughout the 1960s and the decades that followed Proving its English translation to be long overdue The Problem of Atheism remains relevant to contemporary debates about secularization political theology and modernity

Subaltern Appeal to Experience Craig Ireland, 2004-04-23 Combining historical findings with discourse analyses and diagnostic readings of recent subaltern and aesthetic inquiry Ireland reveals that the term experience has been incorrectly understood Since the 1970s persistent appeals to experience in identity politics and cultural inquiry testify not only to the influence of a particular modern concept but more importantly to the historical status of modern self identity *The*

Recovery of Wonder Kenneth L. Schmitz, 2005 In Nature's infinite book of secrecy A little I can read William Shakespeare Environmental degradation Globalization The closure of our public life to the transcendent dimensions of human existence For esteemed philosopher Kenneth Schmitz these are the by products of modernity and post modernity But The Recovery of Wonder is not a denunciation of modern philosophy Instead it seeks to point out what needs to be rethought at fundamental levels of our understanding and to show clearly how contemporary social concerns can be illuminated by a new look at the history of philosophy While acknowledging the significant gains modernity and post modernity offer Western civilization in the areas of liberty and knowledge Schmitz sees in their arguments a superficiality that does not bite to the bone In The Recovery of Wonder he proposes we approach the world as a gift in order to regain the sense of wonder Shakespeare so eloquently recognized Objectively Engaged Journalism Stephen J.A. Ward, 2020-04-16 A timely call for a new ethic of

journalism engagement for today's troubled media sphere Objectively Engaged Journalism argues that media should be neither neutral nor partisan but engaged in protecting egalitarian democracy It shows how journalists professional or citizen can be both objective in method and dedicated to improving a global public sphere toxic with disinformation fake news and extremism Drawing from history ethics and current media issues Stephen Ward rejects the ideals of neutrality and just the facts objectivity showing how they are based on invalid dualistic thinking with deep roots in Western culture He presents a theory of pragmatic objectivity and applies it to journalism Journalism's role in interpreting culture he argues needs a form of objectivity that embraces human strengths and limitations Defining responsible journalism as situated imperfect inquiry Objectively Engaged Journalism is one of the first systematic studies of the ethical foundations of engaged journalism for a media that is increasingly perspectival and embedded in society **The Form of Politics** John Von Heyking, 2016-06-01 A study of Aristotle's and Plato's interpretations of friendship and their significance for political life **The Age of**

Secularization Augusto Del Noce, 2017-11-08 Augusto Del Noce is widely considered one of Italy's foremost philosophers

and political thinkers in the second half of the twentieth century He is also remembered as an original and profound cultural critic and in particular as a great scholar of the process of secularization that took place in the West during the 1960s A collection of eleven essays and lectures by Del Noce that originally appeared between 1964 and 1969 and which the author published as a book in 1971 *The Age of Secularization* quickly became recognized as one of the most original and penetrating attempts to interpret the cultural and political turmoil of the period In its pages Del Noce discusses among other topics the student protests of 1968 the counterculture of the 1960s the significance of the sexual revolution the nature of the technological society and the relationship between Christianity and modern culture *The Age of Secularization* documents the encounter between a key period of contemporary history and the full intellectual maturity of one of its most perceptive observers It makes available to English language readers a lasting reflection on the philosophical roots of contemporary culture and it is just as illuminating and topical today as it was nearly fifty years ago

Jacob Burckhardt and the Crisis of Modernity John Roderick Hinde, 2000 *Jacob Burckhardt and the Crisis of Modernity* the first major study in English dedicated entirely to Burckhardt offers a compelling and timely analysis of Burckhardt's challenge to the values and assumptions of modern society Unlike conventional accounts which characterize him as an apolitical aesthete John Hinde shows that Burckhardt was a thinker of profound importance whose conservative anti modernism ranks him with Friedrich Nietzsche

Book jacket **Jena Romanticism and Its Appropriation of Jakob Böhme** Paola Mayer, 1999-11-26 These appropriations fall into two main groups those pertaining to the name Böhme or a life assigned to it and those involving concepts or images from the mystic's oeuvre The first group constituted an attempt to co-opt the aura of sanctity attached to portrayals of the poet prophet in order to invest Romantic Poesie with the sacral standing of religion The second group exemplified by Friedrich Schlegel and Friedrich Schelling involved the borrowing and radical redefinition of a few concepts and images from Böhme's work in the hope of bridging the gap between the abstract first principle of idealism and the personal God that became an emotional necessity for both thinkers *Jena Romanticism and Its Appropriation of Jakob Böhme* treats the Romantic reception of Böhme as a striking example of how the past is appropriated and rewritten in the service of self affirmation Analysing the need and the techniques for this self affirmation sheds light on the nature of the self to be affirmed and on the content and underlying motivation of the Romantic program

Network Democracy Jared Giesbrecht, 2017-01-13 *Network Democracy* uses the contemporary tools of ecology and network thinking to unearth the ancient intellectual ruins of traditional conservative thought Questioning the West's veneration of freedom equality contractual citizenship economic progress cosmopolitanism secular institutionalism and reason Jared Giesbrecht illuminates how these ideals fuel violence and insecurity in our high speed lives While the modern age witnesses the rise of a violent conservatism in the form of revolutionary movements enacting terror and vengeance for the interventions of the liberal West this study reveals a different kind of conservatism one that has emerged in direct conversation with liberal thought Giesbrecht highlights the

need for intermediate institutions and civil enterprises that form relations and traditions independent of the state in order to develop resistance to the insecurity of the liberal age This book offers not only a poignant critique but a constructive and peaceable alternative to the violence of both liberalism and reactionary anti liberalism Attuned to the new realities of globalization advanced technology and social acceleration Network Democracy is a masterful hybrid of ancient and cutting edge political philosophy that casts a new light on the values underlying western civilization Canadian Founding Janet Ajzenstat,2007-05-28 Convinced that rights are inalienable and that legitimate government requires the consent of the governed the Fathers of Confederation whether liberal or conservative looked to the European enlightenment and John Locke Janet Ajzenstat analyzes the legislative debates in the colonial parliaments and the Constitution Act 1867 in a provocative reinterpretation of Canadian political history from 1864 to 1873 Ajzenstat contends that the debt to Locke is most evident in the debates on the making of Canada s Parliament though the anti confederates maintained that the existing provincial parliaments offered superior protection for individual rights the confederates insisted that the union s general legislature the Parliament of Canada would prove equal to the task and that the promise of life and liberty would bring the scattered populations of British North America together as a free nation **Life Embodied** Nicolás Fernández-Medina,2018-05-30 The concept of vital force the immanent energy that promotes the processes of life in the body and in nature has proved a source of endless fascination and controversy Indeed the question of what vitalizes the body has haunted humanity since antiquity and became even more pressing during the Scientific Revolution and beyond Examining the complexities and theories about vital force in Spanish modernity Nicol s Fern ndez Medina s Life Embodied offers a novel and provocative assessment of the question of bodily life in Spain Starting with Juan de Cabriada s landmark Carta filosofica m dico chymica of 1687 and ending with Ram n G meez de la Serna s avant gardism of the 1910s Fern ndez Medina incorporates discussions of anatomy philosophy science critical theory history of medicine and literary studies to argue that concepts of vital force served as powerful vehicles to interrogate the possibilities and limits of corporeality Paying close attention to how the body s capabilities were conceived and strategically woven into critiques of modernity Fern ndez Medina engages the work of Miguel Boix y Moliner Mart n Mart nez Diego de Torres Villarroel Sebasti n Guerrero Herreros Ignacio Mar a Ruiz de Luzuriaga Gaspar Melchor de Jovellanos Pedro Mata y Fontanet ngela Grassi Juli n Sanz del R o Miguel de Unamuno and P o Baroja among others Drawing on extensive research and analysis Life Embodied breaks new ground as the first book to address the question of vital force in Spanish modernity Social and Political Bonds Frederick M.
