Road To The Isles Travellers In The Hebrides 1770 1914:

Road to the Isles Derek Cooper, 1979 *The Road to the Isles* Derek Cooper, 1979 A wonderfully evocative account of the Hebrides drawn from the journals and memoirs of intrepid travellers and from the author's many personal journeys in these remarkable islands Before 1770 the islands of the Hebrides were virtually unvisited by outsiders Remote and inaccessible they were in Dr Johnson's words as unknown as Borneo or Sumatra Then partly as a result of the success of Boswell's *Journal of a Tour to the Hebrides* and Johnson's *A Journey to the Hebrides* they became a magnet for travellers from all over Europe Scott Keats Mendelssohn Turner Wordsworth and others made the long journey north and were inspired and astonished by the worlds they entered Many other 19th century travellers took the road to the Isles and wrote accounts of their adventures In this delightful book Derek Cooper has recreated a kaleidoscope of life in the Hebrides in those days His story begins in 1770 in the days of smuggling and press gangs and ends in the summer of 1914 with the shooting lodges closing their shutters and the glittering steam yachts sailing south to become fleet auxiliaries in the First World War

Tourism, Landscape, and the Irish Character William Williams, 2012-02-24 Picturesque but poor abject yet sublime in its Gothic melancholy the Ireland perceived by British visitors during the eighteenth and nineteenth centuries did not fit their ideas of progress propriety and Protestantism The rituals of Irish Catholicism the lamentations of funeral wakes the Irish language they could not comprehend even the landscapes were all strange to tourists from England Wales and Scotland Overlooking the acute despair in England's own industrial cities these travelers opined in their writings that the poverty bog lands and ill thatched houses of rural Ireland indicated moral failures of the Irish character Crofters and Habitants John Irvine Little, 1991 In *Crofters and Habitants* J I Little examines the ways in which two highly distinct social groups Gaelic speaking crofters from the Isle of Lewis in the Outer Hebrides and French speaking habitants from south of Quebec City adapted to a common physical environment in the rugged Appalachian plateau of south eastern Quebec *Touring Cultures* Chris Rojek, John Urry, 2002-09-11 It is becoming ever clearer that while people tour cultures cultures and objects themselves are in a constant state of migration This collection brings together some of the most influential writers in the field to examine the complex connections between tourism and cultural change and the relevance of tourist experience to current theoretical debates on space time and identity Scottish Exodus James Hunter, 2011-03-25 Millions of Scots have left their homeland during the last 400 years Until now they have been written about in general terms *Scottish Exodus* breaks new ground by taking particular emigrants drawn from the once powerful Clan MacLeod and discovering what happened to them and their families These people became among other things French aristocrats Polish resistance fighters Texan ranchers New Zealand shepherds Australian goldminers Aboriginal and African American activists Canadian mounted policemen and Confederate rebels One nineteenth century MacLeod even went so far as to swap his Gaelic for Arabic and his Christianity for Islam before settling down comfortably in Cairo This gripping account of Scotland's worldwide diaspora is based on unpublished documents letters and family histories It is also based on the author's travels in the company of today's MacLeods some of them still in Scotland others further afield *Scottish Exodus* is a tale of disastrous voyages famine and dispossession the hazards of pioneering on faraway frontiers But it is also the moving story of how people separated from Scotland by hundreds of years and thousands of miles continue to identify with the small country where their journeyings began Bardic Nationalism Katherine M Trumpener, 2021-01-12 This magisterial work links the literary and intellectual history of England Scotland Ireland and Britain's overseas colonies during the late eighteenth and early nineteenth centuries to redraw our picture of the origins of cultural nationalism the lineages of the novel and the literary history of the English speaking world Katie Trumpener recovers and recontextualizes a vast body of fiction to describe the history of the novel during a period of

formal experimentation and political engagement between its eighteenth century rise and its Victorian heyday During the late eighteenth century antiquaries in Ireland Scotland and Wales answered modernization and anglicization initiatives with nationalist arguments for cultural preservation Responding in particular to Enlightenment dismissals of Gaelic oral traditions they reconceived national and literary history under the sign of the bard Their pathbreaking models of national and literary history their new way of reading national landscapes and their debates about tradition and cultural transmission shaped a succession of new novelistic genres from Gothic and sentimental fiction to the national tale and the historical novel In Ireland and Scotland these genres were used to mount nationalist arguments for cultural specificity and against internal colonization Yet once exported throughout the nascent British empire they also formed the basis of the first colonial fiction of Canada Australia and British India used not only to attack imperialism but to justify the imperial project Literary forms intended to shore up national memory paradoxically become the means of buttressing imperial ideology and enforcing imperial amnesia

Sensuous Geographies Paul Rodaway, 2002-09-11 The contemporary challenge of postmodernity draws our attention to the nature of reality and the ways in which experience is constructed Sensuous Geographies explores our immediate sensuous experience of the world Touch smell hearing and sight the four senses chiefly relevant to geographical experience both receive and structure information The process is mediated by historical cultural and technological factors Issues of definition are illustrated through a variety of sensuous geographies Focusing on postmodern concerns with representation the book brings insights from individual perceptions and cultural observations to an analysis of the senses challenging us to reconsider the role of the sensuous as not merely the physical basis of understanding but as an integral part of the cultural definition of geographical knowledge

On the Other Side of Sorrow James Hunter, 2014-07-03 An extraordinary intellectual voyage through Gaelic environmental awareness centuries ahead of its time and its value today The Herald Caring for the environment developing rural communities and ensuring the survival of minority cultures are all laudable objectives but they can conflict and nowhere more so than the Scottish Highlands As environmentalists strive to preserve the scenery and wildlife of the

Highlands the people who belong there and who have their own claims on the landscape question this new threat to their culture which dates back thousands of years In this sensitive thought provoking book James Hunter probes deep into this culture to examine the dispute between Highlanders who developed a strong environmental awareness a thousand years before other Europeans and conservationists whose thinking owes much to the romantic ideals of the nineteenth century More than that he also suggests a new way of dealing with the problem advocating drastic land use changes and the repopulation of empty glens an approach that has worldwide implications A very thoughtful piece of advocacy The Scotsman

Gaelic Scotland Charles W J Withers,2015-12-14 This book originally published in 1988 examines the Highlands and Islands of Scotland over several centuries and charts their cultural transformation from a separate region into one where the processes of anglicisation have largely succeeded It analyses the many aspects of change including the policies of successive governments the decline of the Gaelic language the depressing of much of the population into peasantry and the clearances

Transcultural English Studies Frank Schulze-Engler,Sissy Helff,2009 What is most strikingly new about the transcultural is its sudden ubiquity Following in the wake of previous concepts in cultural and literary studies such as creolization hybridity and syncretism and signalling a family relationship to terms such as transnationality translocality and transmigration transcultural terminology has unobtrusively but powerfully edged its way into contemporary theoretical and critical discourse The four sections of this volume denote major areas where transcultural questions and problematics have come to the fore theories of culture and literature that have sought to account for the complexity of culture in a world increasingly characterized by globalization transnationalization and interdependence realities of individual and collective life worlds shaped by the ubiquity of phenomena and experiences relating to transnational connections and the blurring of cultural boundaries fictions in literature and other media that explore these realities negotiate the fuzzy edges of ethnic or national cultures and participate in the creation of transnational public spheres as well as transcultural imaginations and memories and finally pedagogy and didactics where earlier models of teaching other cultures are faced with the challenge of coming to terms with cultural complexity both in what is being taught and in the people it is taught to and where target cultures have become elusive The idea of locating culture and literature exclusively in the context of ethnicities or nations is rapidly losing plausibility throughout an English speaking world that has long since been multi rather than monolingual Exploring the prospects and contours of Transcultural English Studies thus reflects a set of common challenges and predicaments that in recent years have increasingly moved centre stage not only in the New Literatures in English but also in British and American studies Heritage, Museums and Galleries Gerard Corsane,2005 This reader provides a starting point and introductory resource for anyone wishing to engage with certain key issues relating to the heritage museums and galleries sector Annual Bibliography of Scottish Literature ,1980 The Bibliothek ,1976 **National Union Catalog** ,1979 Includes entries for maps and atlases
