Road Travel and Transport in Gloucestershire, 1722-1822 N. M. Herbert, 1985 Road Transport in the Horse-drawn Era Dorian Gerhold, 1996 Each volume in this new series is a collection of seminal articles on a theme of central importance in the study of transport history selected from the leading journal in the field Each contains between ten and a dozen articles selected by a distinguished scholar as well as an authoritative new introduction by the volume editor Individually they will form an essential foundation to the study of the history of a mode of transport together they will make an incomparable library of the best modern research in the field **Consumption and Culture in the Seventeenth and Eighteenth Centuries** John Brewer, 1991 *The British Library General Catalogue of Printed Books, 1986 to 1987* British Library, 1988 **The British National Bibliography** Arthur James Wells, 1979 **Carriers and Coachmasters** Dorian Gerhold, 2005 Roads and road transport before the turnpikes have had a bad press but little attempt has previously been made to investigate what road services for goods and passengers were really like This important new book presents a strikingly different picture from the traditional one a large network of road services which were reliable and regular in both summer and winter Surprising conclusions are drawn about the state of the roads the impact of the earliest turnpikes the failure of stage coach speeds to increase between the 1650s and 1750s and the sudden increase in those speeds in the 1760s A rich collection of illustrations including many documents photographs and contemporary drawings enhances this splendid work This impressive book examines the London carriers and stage coach men and their customers from the 1650s to the 1760s when turnpikes began to have a significant effect It will transform conventional views of how the metropolis and provinces were linked in the period preceding the Industrial Revolution and is both essential reading for local and transport historians alike *Annual Bibliography of British and Irish History* , 1986 **Report of the County Library Arts & Museums Officer for the Year ...** Gloucestershire County Library, Arts & Museums Dept, 1983 **Subject Guide to Books in Print** , 1993 Statutory Instruments Great Britain, 1959 **Tramway and Railway World** , 1906 Road Travel and Transport in Georgian Gloucestershire N. M. Herbert, 2009 This book tells the story of roads and their traffic in Gloucestershire during the 18th and early 19th centuries basing the account on reports advertisements and public announcements from the county's principal local newspaper the Gloucester Journal Scene setting chapters describe the long and problematical process by which the turnpike trusts the road authorities of the day transformed a system of primitive packhorse routes into a viable network of coach roads A rich cross section of the life of the road at the period is then presented the inns on which the transport system depended standing at isolated strategic road junctions at ferry crossings on the river Severn or in the county's main towns at the hub of their social and public functions the expanding network of stagecoaches mail coaches post chaises and carriers wagons the travellers for whom the road was a way of life ranging from gypsies and cattle drovers to showmen and commercial gentlemen and the hazards such as road accidents highway robbery

and bad weather conditions encountered by travellers The picture that emerges is often a harsh one a corrective to the romanticised popular view For those to whom it gave a living travel and transport in the Georgian age could be a struggle for survival with stagecoach operators attempting to drive each other off the road innkeepers spreading false rumours even altering signposts to lure custom from rivals towns mounting publicity campaigns to counter the threat of route diversions and waggoners at odds with the turnpikes over restrictive regulations Some like highwaymen and confidence tricksters travelled to prey on their fellow men others were on the roads to escape from authority in the form of parish officers recruiting sergeants or the county magistracy For the ordinary traveller journeys might involve the minor irritations of rude or corrupt innkeepers and coachmen or more serious and sometimes fatal encounters with Severn floods or Cotswold snowstorms The extracts from the Journal supported by the author s informative and detailed commentary provide a fascinating contemporary insight into a subject that lay at the heart of the economic and social development of Georgian England **Yearbook of International Organizations, 1991-92** Union of International Associations Staff,1991-12
