Remarkably, in spite of Dahl's commercial success and the divided opinions he generates, very little scholarly work on the author has been produced. In the light of sociocultural constructivist theory, *De-constructing Dahl* focuses on the critical context, texts, and paratexts that make up the packaging of Dahl. It offers the first thorough overview of the criticism and the language employed to discuss Dahl since the 1970s, the difficulties that using such language entails, and how it still permeates current criticism. It delves into the relationship between Dahl's children's and adult fiction by drawing comparisons and contrasts and exploring the common traits and patterns that bring his whole work together. It also examines how Dahl constructed himself as a children's writer, how his publishing house and allies contribute to mediating and sustaining the Dahl public persona, the ways that marketing strategies are responsible for the identity of his books, and how editorial decisions about the age range and therefore how the classification of a manuscript as a book for children or for adults constructs particular ideas of what children's literature is and what is considered appropriate or unsuitable for children to read **Villains and Villainy**, 2011-01-01 This collection of essays explores the representations, incarnations, and manifestations of evil when it is embodied in a particular villain or in an evil presence. All the essays contribute to showing how omnipresent yet vastly under studied the phenomena of the villain and evil are. Together they confirm the importance of the continued study of villains and villainy in order to understand the premises behind the representation of evil, its internal, localized logic, its historical contingency, and its specific conditions **Understanding 4-5-Year-Olds** Lesley Maroni, 2007 *Understanding 4-5 year olds* gives a thoughtful overview of the challenges that children face as they gradually move away from a strong attachment to their families and turn towards the wider world of school and life outside the family. Lesley Maroni discusses the critical social and emotional developments at this age, including identity, independence, and sibling rivalry, the transition to school, and friendships with peers, coping with illness and loss, and gender differences. The author also shows how 4-5 year olds explore real issues using the protective safety of pretend play and their imagination. This

accessible book provides valuable insights and a wealth of case examples that will help parents educators and carers better understand and relate to children at this demanding yet exciting stage of development **Magic Words** Craig Conley,2008-10-01 **Magic Words** A Dictionary is a oneofakind resource for armchair linguists popculture enthusiasts Pagans Wiccans magicians and trivia nuts alike Brimming with the most intriguing magic words and phrases from around the world and illustrated throughout with magical symbols and icons **Magic Words** is a dictionary like no other More than sevenhundred essay style entries describe the origins of magical words as well as historical and popular variations and fascinating trivia With sources ranging from ancient Medieval alchemists to modern stage magicians necromancers and wizards of legend to miracle workers throughout time **Magic Words** is a must have for any scholar of magic language history and culture **Storyteller** Donald Sturrock,2011-09-13 Originally published in hardcover in 2010 **Daughter of Mine**
