Keener focuses primarily on using the framework of a psychological trauma narrative to read the text, providing new insights into how Job functions as a text that deals with trauma. After an extensive introduction to the history and fundamentals of trauma theory, Keener actively applies a trauma theory reading to the book of Job, with special attention paid to the elements of a therapeutic trauma narrative, its role in the cognitive resolution of trauma, and how this is reflected in the biblical text. This approach provides alternative answers to some of the suggested redactions, reconstruction, and inconsistencies identified in the text of Job by previous scholars.
