Robert Lowell's Language of the Self Katharine Wallingford,2018-08-25 Katharine Wallingford's incisive study treats Robert Lowell's work as a poetry of self examination and explores the ways in which he used methods common to psychoanalysis and other forms of psychotherapy in his poetry Although he was never psychoanalyzed in a strictly Freudian sense Lowell spent many years in psychotherapy Wallingford stresses not the pathological aspects of Lowell's work however but rather his lifelong process of self examination a process with ethical as well as psychological dimensions She links this process to the tradition of self scrutiny that Lowell inherited from his New England Puritan ancestors Through close readings of the poetry and of unpublished drafts of several poems as well as letters from Lowell to George Santayana Allen Tate and his cousin Harriet Winslow Wallingford treats Lowell's use of specific psychoanalytic techniques free association repetition concentration on the relation between the poet and the other to whom he addresses himself and the use of memory to probe the past The book considers as well the role the narrative plays in these psychoanalytic and poetic techniques Lowell believed firmly in the identity of self and language one life one writing and this study brings us closer to an understanding both of the poet and of his dense and moving poetry It enriches our reading of Lowell's poetry by calling attention to the ways in which his poetic techniques are analogous to and to some extent derived from psychoanalytic techniques techniques that have in our time become integrated into our culture as a whole Originally published in 1988 A UNC Press Enduring Edition UNC Press Enduring Editions use the latest in digital technology to make available again books from our distinguished backlist that were previously out of print These editions are published unaltered from the original and are presented in affordable paperback formats bringing readers both historical and cultural value **Robert Lowell: A**

finite However the volume also looks forward to the poetry and readings that the new century will bring The Companion embraces the extraordinary development of poetry over the century in twenty English speaking countries a century which began with a bipolar transatlantic connection in modernism and ended with the decentred heterogeneity of post colonialism Representation of the canonical and the marginal is therefore balanced including the full integration of women poets and feminist approaches and the in depth treatment of post colonial poets from various national traditions Discussion of context intertextualities and formal approaches illustrates the increasing self consciousness and self reflexivity of the period whilst a Readings section offers new readings of key selected texts The volume as a whole offers critical and contextual coverage of the full range of English language poetry in the last century

American poets and new poetic voices emerging in the 21st century This New Casebook introduces the major American poets of the post war generation evaluates their achievements in the light of changing critical opinion and offers lively incisive readings of some of the most challenging and enthralling poetry of the modern era Interviews and Conversations with 20th-century Authors Writing in English Stan A. Vrana,1982 To find more information about Rowman and Littlefield titles please visit www.rowmanlittlefield.com *The Catholic Imagination in American Literature* Ross Labrie,1997 A concluding chapter examines the significance of the corpus of Catholic American writing in the years 1940 to 1980 considering it parallel in substance to the body of Jewish American literature of the same period Literary Intention, Literary Interpretations, and Readers John Maynard,2009-04-17 This accessible personal and provocative study returns to the major subject in literary discussion before and during the relatively recent flourishing of literary theory that of literary intention Does the author s personal intention or historical site determine a correct interpretation of a literary work Probing the entire range of issues connected with this many faceted and knotty concept this book engages with interpretation on both theoretical and practical levels It argues that the hard questions about interpretation connected to issues of intention cannot be sidestepped or ignored It does not argue for conservative concepts of literature itself nor against the major historical engagements of critics in our time But in addressing those who continue to read or teach literature it does insist on a level of sophistication in issues of literary interpretation that cannot be assured by historical research and knowledge of the social and cultural connections to literary works The overall aim of the work is to recall readers to the great complexity pleasure and interest of literary interpretation **Shades of Authority** Stephen James,2007-10-01 What is the relationship between poetry and power Should poetry be considered a mode of authority or an impotent medium And why is it that the modern poets most commonly regarded as authoritative are precisely those whose works wrestle with a sense of artistic inadequacy Such questions lie at the heart of this study prompting fresh insights into three of the most important poets of recent decades Robert Lowell Geoffrey Hill and Seamus Heaney Through attentive close reading and the tracing of dominant motifs in each writer s works James shows how their responsiveness to matters of political and cultural import lends weight to the idea of poetry as authoritative utterance as a medium for speaking of and to the world in a persuasive memorable manner And yet as James demonstrates each poet is exercised by an awareness of his own cultural marginality even by a sense of the limitations and liabilities of language itself **Hart Crane and Allen Tate** Langdon Hammer,2017-03-14 Focusing on the vexed friendship between Hart Crane and Allen Tate this book examines twentieth century American poetry s progress toward institutional sanction and professional organization a process in which sexual identities poetic traditions and literary occupations were in question and at stake Langdon Hammer combines biography and formalist analysis to argue that American modernism was a Janus faced phenomenon at once emancipatory and elitist which simultaneously attacked traditional cultural authority and reconstructed it in new forms Hammer shows how Crane and Tate working in relation to each other and to T S Eliot created

for themselves the competing roles of genius and poet critic Crane embraced the self authorizing powers of the individual talent at the cost of standing outside the emerging consensus of high modernist literary culture an aesthetic isolation which converged with his social isolation as a gay man Tate turning against Crane linked the modernist defense of tradition to an embattled heterosexual masculinity while he adapted Eliot s stance to a career sustained by criticism and teaching Ending his book with a discussion of Robert Lowell s career Hammer maintains that Lowell s confessional poetry recapitulates the conflict enacted by Crane and Tate Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
