Community as Church, Church as Community Michael Plekon, 2021-07-22 Parishes of all denominations are in decline shrinking closing dying We know that there are increasing numbers young and older who are religious nones and dones This book explores why the decline is taking place why the distancing is going on But it goes on to examine parishes from all over the country and from various church bodies that are resurrecting The central theme of death and resurrection shapes the analysis of parishes covered Parishes are resurrecting by reinventing their ministries by repurposing their building to better serve their neighborhoods thus replanting and reconnecting with them All of this is the Spirit's doing but through the community of sisters and brothers who make up each congregation of faith Community as the core of church is the other reality shaping the book's reflection And community a parish being with those around living for more than its own survival are visions for going forward Other aspects of congregational life are also examined most importantly the pastors how they

serve when budgets shrink how they are trained how pastors act with the community not above it No recipes are suggested for parish resurrection but the stories of the parishes that have revived bear within numerous lessons for us in the future

Conscience and Community Andrew R. Murphy, 2009-03-02 Religious toleration appears near the top of any short list of core liberal democratic values Theorists from John Locke to John Rawls emphasize important interconnections between the principles of toleration constitutional government and the rule of law Conscience and Community revisits the historical emergence of religious liberty in the Anglo American tradition looking deeper than the traditional emergence of toleration to find not a series of self evident or logically connected expansions but instead a far more complex evolution Murphy argues that contemporary liberal theorists have misunderstood and misconstrued the actual historical development of toleration in theory and practice Murphy approaches the concept through three myths about religious toleration that it was opposed only by ignorant narrow minded persecutors that it was achieved by skeptical Enlightenment rationalists and that tolerationist arguments generalize easily from religion to issues such as gender race ethnicity and sexuality providing a basis for identity politics
