need to sharpen those skills further It is quite prudent to understand that hidden from public glare both the battle and the war will now continue in Geneva which is less of a free trade bastion than Hong Kong It is by now a time honoured fact that the intensity of liberalisation undertaken at home makes handling the WTO induced reforms easier and the priorities for Indian policy makers are therefore obvious Notwithstanding the WTO objective even eleven years after the inception of the multilateral body the trade barriers both in developed and developing countries are quite significant and unilateral liberalisation is not easily forthcoming Although this lack of market access hurt the developing countries much more severely than their developed counterparts the former group never systematically bargained at the negotiating table with the latter before the Doha Ministerial 2001 Looking at the negotiating strategies of India and several other WTO members over the years the nine papers in this volume explore the current negotiating scenario and the concerns for India and other developing countries While some papers attempt to chalk out the future of global free trade and the determinants of protectionism of major players the other ones look into the future of India s sectoral negotiating strategy
